*Inventions of the Great War* A. Russell Bond,2019-12-05 'Inventions of the Great War' by A. Russell Bond is a book that highlights the most important technological advancements of World War I. American inventions such as the submarine, airplane, and machine-gun were crucial to the war effort, but they also presented the challenge of overcoming the very machines that the US had created. The book describes how ingenuity and resourcefulness were demonstrated by all sides, and how the war set men to thinking like never before, leading to the development of inventions that would be useful in times of peace. From tanks to hand-grenades, guns to super-guns, and from submarines to aerial navigation, this book provides a compelling insight into the technological advancements that defined the Great War.

The Caldwell Objects and How to Observe Them Martin Mobberley,2009-10-03 When Mike Inglis, who consults for Springer, first asked me to write a Caldwell book in their “and How to Observe Them” series I admit I did need some time to think the suggestion over. I am a fan of Patrick’s Caldwell catalog as are most of the amateur astronomers I know, but could a new book be justified when the massive, comprehensive, and wrist-spraining Caldwell tome by Stephen O’Meara covers the subject fully anyway? That other book was researched and written over a 5-year period in the pre-9/11 world from 1996 to 2001, and its 484 pages of descriptive text and background data are a joy to peruse, as are Stephen’s impressive sketches. OK, the book is far too heavy for the binding and after a few trips outside half the pages in my copy fell out, but apart from that it is an excellent book and surely impossible to improve upon, or even equal, especially in a smaller format book with only half the pages available; at least, that was my initial impression when I mulled over writing another Caldwell book. However, I changed my mind, because a number of events of astronomical significance have occurred in the last 10 years. First and foremost backyard imaging of deep sky objects, especially color imaging, has come on in leaps and bounds in the twenty-first century.

*The Finder of Lost Things* Frank Hibbs,2007-11-13 A man with an unusual talent for finding lost objects searches for the man that kidnapped and assaulted his young niece. The search and chase leads him across half the nation to a large metropolitan area where his senses tell him the culprit is hiding. During his search, he meets and falls in love with a beautiful widow. The culprit is a sly and cunning adversary and leads the hunter on a long and arduous chase.

**Land Law** Ben McFarlane,Nicholas Hopkins,Sarah Nield,2021 Land Law: Text, Cases, and Materials has been designed to provide students with everything they need to approach their land law course with confidence. Experts in the area, the authors combine clear and insightful commentary with carefully chosen extracts to offer students a full account of the subject. Using the popular Text, Cases and Materials format the authors take a critical approach to the subject, presenting thought-provoking analysis of the leading case-law in the area and inviting students to develop their own analytical skills ready for exams. The book can be used as a stand-alone resource, or as a complement to Land Law: Core Text, written by the same authors. Covering a broad range of topics, the authors have used their unique approach to land law to provide a consistent structure with which students and lecturers can tackle the subject. This approach arms students with the tools needed to analyse content autonomously by seeing how individual rules fit into a broader structure, leading students towards a comprehensive and advanced understanding of this complex subject area. Digital formats and resources The fifth edition is available for students and institutions to purchase in a variety of formats, and is supported by online resources. The e-book offers a mobile experience and convenient access along with functionality tools, navigation features and links that offer extra learning support: [www.oxfordtextbooks.co.uk/ebooks](http://www.oxfordtextbooks.co.uk/ebooks) A range of resources for this book are available online: - Self-test questions with feedback - Exclusive online chapters - Guidance on answering end-of-chapter questions - Links to further research and websites
