**The Transpacific Experiment** Matt Sheehan, 2020-08-04 A timely, vital account of California's unique relationship with China, told through the exploits of the entrepreneurs, activists, and politicians driving transformations with international implications. Tensions between the world's superpowers are mounting in Washington, D.C., and Beijing. Yet, the People's Republic of China and the state of California have built deep and interdependent socioeconomic exchanges that reverberate across the globe, making California and China a microcosm of the most important international relationship of the twenty-first century. In *The Transpacific Experiment*, journalist and China analyst Matt Sheehan chronicles the real people who are making these connections. Sheehan tells the story of a Southern Californian mayor who believes a Chinese electric bus factory will save his town from meth labs and skinheads. He follows a Chinese AI researcher who leaves Google to compete with his former employer from behind the Great Firewall. Sheehan joins a tour bus of wealthy Chinese families shopping for homes in the Bay Area, revealing disgruntled neighbors and raising important questions about California's own narratives around immigration and the American Dream. Sheehan's on-the-ground reporting reveals movie sets in the "Hollywood of China," Chinese-funded housing projects in San Francisco, Chinese immigrants who support Donald Trump, and more. Each of these stories lays bare the new reality of twenty-first-century superpowers: the closer they get to one another, the more personal their frictions become. "Cuts right to the heart of the relationship between Silicon Valley and China: the tangled history, the current tensions, and the uncertain future . . . a must-read."—Kai-Fu Lee, former president of Google China and founder of Sinovation Ventures

**Generation Priced Out** Randy Shaw, 2020-04-07 *Generation Priced Out* is a call

to action on one of the most talked-about issues of our time: how skyrocketing rents and home values are pricing the working and middle classes out of urban America. Randy Shaw tells the powerful stories of tenants, politicians, homeowner groups, developers, and activists in over a dozen cities impacted by the national housing crisis. From San Francisco to New York, Seattle to Denver, and Los Angeles to Austin, *Generation Priced Out* challenges progressive cities to reverse rising economic and racial inequality. Shaw exposes how boomer homeowners restrict millennials' access to housing in big cities, a generational divide that increasingly dominates city politics. Shaw also demonstrates that neighborhood gentrification is not inevitable and presents proven measures for cities to preserve and expand their working- and middle-class populations and achieve more equitable and inclusive outcomes. *Generation Priced Out* is a must-read for anyone concerned about the future of urban America.

**Spend 'Til the End** Laurence J. Kotlikoff, Scott Burns, 2008-06-10 Rich or poor, young or old, high school or college grad, this book, written by economist Laurence J. Kotlikoff and syndicated financial columnist Scott Burns, can change your life for the better! If you follow the advice in this book, it will raise your living standard (possibly by a lot), improve your lifestyle, and help you spend 'til the end. And it will completely transform your financial thinking, turning every bit of conventional financial wisdom on its head. If this sounds like a revolution in financial planning, you got it. So do *The New York Times*, *The Washington Post*, *The Wall Street Journal*, *USA Today*, *Time*, *Consumer Reports*, and other top publications that have been featuring the authors' economics-based consumption smoothing approach to financial planning. *Spend 'Til the End* substitutes economic wisdom for the rules of dumb that currently pass for financial advice. In the process it indicts the investment and financial-planning industry for giving most people saving and insurance targets that are much too high and then convincing them to invest in risky mutual funds and expensive insurance policies. The result is that most people are scrimping and saving during the years when they could be spending and enjoying their money -- and with no sure payoff. Easy to read, this book is packed with practical and often shocking advice on whether to work, how to pick a career, which job to take, where to live, what sort of house to buy, how much to save, when to retire, which kind of retirement account to use, whether to have kids, whether to divorce, when to take Social Security, how fast to spend down your assets in retirement, and how to invest.
