Medina by the Bay Maryam Kashani,2023-07-07 From the Black Power movement and state surveillance to Silicon Valley and gentrification, *Medina by the Bay* examines how multiracial Muslim communities in the San Francisco Bay Area survive and flourish within and against racial capitalist, carceral, and imperial logics. Weaving expansive histories, peoples, and geographies together in an ethnographic screenplay of cinematic scenes, Maryam Kashani demonstrates how sociopolitical forces and geopolitical agendas shape Muslim ways of knowing and being. Throughout, Kashani argues that contemporary Islam emerges from the specificities of the Bay Area, from its landscapes and infrastructures to its Muslim liberal arts college, mosques, and prison courtyards. Theorizing the *Medina by the Bay* as a microcosm of socioeconomic, demographic, and political transformations in the twentieth- and twenty-first centuries, Kashani resituates Islam as liberatory and abolitionist theory, theology, and praxis for all those engaged in struggle.

Highway Congestion JayEtta Z. Hecker,2006-02 Congestion is a serious & growing transport. problem for the nation. Many strategies -- like adding new lanes -- have the potential to alleviate congestion but can be costly & have limited application. Another strategy is the use of communications, electronics, & computer technologies -- intelligent transport. systems (ITS) -- to more effectively utilize existing transport. infrastructure by improving traffic flow. Congress estab. an ITS program in 1991, & the DoT subsequently set an ITS deployment goal. This report: describes the fed. role in deployment; assesses DoT's ITS goal & measurement efforts; identifies what ITS studies have found regarding the impacts of ITS deployment; & identifies the barriers to ITS deployment & use.
