Is the Tehran Bazaar Dead? Foucault, Politics, and Architecture Farzaneh Haghighi, 2018-10-01 To examine the political role of architecture, this book presents an original engagement with the largest center of attraction in Tehran, namely, its bazaar. Through a rigorous study, it goes beyond the conventional sociopolitical and architectural discourses of this marketplace by considering architecture as an event. This book offers alternative modes of spatial thinking on a micropolitical level. Emphasis is placed on the focused exploration of key notions mainly drawn from the works of Michel Foucault. It deploys effective methods and shows how philosophical concepts can be deployed as a tool to analyse the ways through which architecture transforms individuals through the act of exchange—whether of words, things, bodies, or thoughts.

From Past to Present HISTORICAL ISTANBUL BAZAARS Türkiye Turing ve Otomobil Kurumu, 2020-02-01 Markets and Bazaars such as hans, bedestans, arastas or squares, both open or covered have been the most vivid and colorful side of socio-economic life for thousands of years. Being an inseparable part of our lives, some of those markets have always been packed with customers while others have waited for their few but special customers. Markets have always played an eminent role in our lives by adding dynamism to social life.

Pantheons Matthew Craske, 2017-07-05 The institution of the pantheon has come a long way from its classical origins. Invented to describe a temple dedicated to many deities, the term later became so far removed from its original meaning, that by the twentieth century, it has been able to exist independently of any architectural and sculptural monument. This collection of essays is the first to trace the transformation of the monumental idea of the pantheon from its origins in Greek and Roman antiquity to its later appearance as a means of commemorating and enshrining the ideals of national identity and statehood. Illuminating the emergence of the pantheon in a range of different cultures and periods by exploring its different manifestations and implementations, the essays open new historical perspectives on the formation of national and civic identities.

Recasting Iranian Modernity Kamran Matin, 2013-11-07 Critically deploying the idea of uneven and combined development this book provides a novel non-Eurocentric account of Iran's experience of modernity and revolution. *Recasting Iranian Modernity* presents the argument that Eurocentrism can be decisively overcome through a social theory that has international relations at its ontological core. This will enable a conception of history in which there is an intrinsic international dimension to social change that prevents historical repetition. This hitherto under-theorized international dimension is, the book argues, manifest in combined patterns of development, which incorporate both foreign and native forms. It is the tension-prone and unstable nature of these hybrid developmental patterns that mark Iranian modernity, and fuelled the socio-political dynamics of the 1979 revolution and the rise of political Islam. Challenging

solely comparative approaches to the Iranian Revolution that explain it away as either a deviation from, or a reaction to, modernity on the grounds of its religious form, this book will be valuable to those interested in an alternative theoretical approach to the Iranian Revolution, modern Iran and political Islam, working in the fields of International Relations, Middle East and Islamic Studies, History, Political Science, Political Sociology, Postcolonialism, and Comparative Politics.

A History of American Magazines, Volume V: 1905-1930

Frank Luther Mott, 1958 In 1939 Frank Luther Mott received a Pulitzer Prize for Volumes II and III of his History of American Magazines. In 1958 he was awarded the Bancroft Prize for Volume IV. He was at work on Volume V of the projected six-volume history when he died in October 1964. He had, at that time, written the sketches of the twenty-one magazines that appear in this volume. These magazines flourished during the period 1905-1930, but their biographies are continued throughout their entire lifespan--in the case of the ten still published, to recent years. Mott's daughter, Mildred Mott Wedel, has prepared this volume for publication and provided notes on changes since her father's death. No one has attempted to write the general historical chapters the author provided in the earlier volumes but which were not yet written for this last volume. A delightful autobiographical essay by the author has been included, and there is a detailed cumulative index to the entire set of this monumental work. The period 1905-1930 witnessed the most flamboyant and fruitful literary activity that had yet occurred in America. In his sketches, Mott traces the editorial partnership of H. L. Mencken and George Jean Nathan, first on *The Smart Set* and then in the pages of *The American Mercury*. He treats *The New Republic*, the liberal magazine founded in 1914 by Herbert Croly and Willard Straight; the conservative *Freeman*; and *Better*

Homes and Gardens, the first magazine to achieve a circulation of one million without the aid of fiction or fashions. Other giants of magazine history are here: we see serious, shaggy...solid, pragmatic, self-contained Henry Luce propel a national magazine called Time toward its remarkable prosperity. In addition to those already mentioned, the reader will find accounts of The Midland, The South Atlantic Quarterly, The Little Review, Poetry, The Fugitive, Everybody's, Appleton's Booklovers Magazine, Current History, Editor & Publisher, The Golden Book Magazine, Good Housekeeping, Hampton's Broadway Magazine, House Beautiful, Success, and The Yale Review.

Social Origins of the Iranian Revolution Misagh

Parsa,1989 Misagh Parsa develops a structural theory of the causes and outcomes of revolution, applying the theory in particular to Iran. He focuses on the ends and means of various groups of Iranians before, during, and after the revolution. For Parsa, revolution is not a direct result of ideologies, which may be less important than structural factors such as the nature of the state and the economy, as well as each group's interests, capacity for mobilization, autonomy, and solidarity structures. Existing theories of revolution explain earlier revolutions better than the Iranian revolution. In Iran most of the protest was in urban areas, the peasants never played a major role, and power was transferred to the clergy, not to an intelligentsia. In the 1970s, oil revenues increased, the economy developed rapidly but unevenly, and the state's expanded intervention undermined market forces and politicized capital accumulation. Systematic repression of workers, aid to the upper class, and attacks on secular and religious opposition showed that the state was serving the interests of particular groups. When the state tried to check high inflation by imposing price controls on bazaaris (merchants,

shopkeepers, artisans), their protests forced the state to introduce reforms, providing an opportunity for industrial workers, white-collar workers, intellectuals, and the clergy to mobilize against the state. Thus, structural features rendered the state vulnerable to challenge and attack. Parsa's thorough explanation of the collective actions of each major group in Iran in the three decades prior to the revolution shows how a coalition of classes and groups, using mosques as safe gathering places and led by a segment of the clergy, brought down the monarch of 1979. In the years since the revolution, the conflicts that existed before the revolution seem to be reemerging, in slightly altered form. The clergy now has control, and the state has become centrally and powerfully involved in the economy of the country.

Cairo Nezar AlSayyad, 2011 From its earliest days as a royal settlement fronting the pyramids of Giza to its current manifestation as the largest metropolis in Africa, Cairo has forever captured the urban pulse of the Middle East. In *Cairo: Histories of a City*, Nezar AlSayyad narrates the many Cairens that have existed throughout time, offering a panoramic view of the city's history unmatched in temporal and geographic scope, through an in-depth examination of its architecture and urban form. In twelve vignettes, accompanied by drawings, photographs, and maps, AlSayyad details the shifts in Cairo's built environment through stories of important figures who marked the cityscape with their personal ambitions and their political ideologies. The city is visually reconstructed and brought to life not only as a physical fabric but also as a social and political order—a city built within, upon, and over, resulting in a present-day richly layered urban environment. Each chapter attempts to capture a defining moment in the life trajectory of a city loved for all of its evocations and contradictions. Throughout, AlSayyad illuminates not only the spaces that make up Cairo but also the figures that shaped them, including its chroniclers, from

Herodotus to Mahfouz, who recorded the deeds of great and ordinary Cairenes alike. He pays particular attention to how the imperatives of Egypt's various rulers and regimes—from the pharaohs to Sadat and beyond—have inscribed themselves in the city that residents navigate today.

Fortune's Bazaar Vaudine England, 2023-05-16 A timely, well-researched, and “illuminating” (The New York Times Book Review) new history of Hong Kong that reveals the untold stories of the diverse peoples who have made it a multicultural world metropolis—and whose freedoms are endangered today. Hong Kong has always been many cities to many people: a seaport, a gateway to an empire, a place where fortunes can be dramatically made or lost, a place to disappear and reinvent oneself, and a melting pot of diverse populations from around the globe. A British Crown Colony for 155 years, Hong Kong is now ruled by the Chinese Communist Party. Here, renowned journalist Vaudine England delves into Hong Kong's complex history and its people—diverse, multi-cultural, cosmopolitan—who have made this one-time fishing village into the world port city it is today. Rather than a traditional history describing a town led by British Governors or a mere offshoot of a collapsing Chinese empire, *Fortune's Bazaar* is “a winning portrait of Hong Kong's vibrant mosaic” (Publishers Weekly). While British traders and Asian merchants had long been busy in the Indian and South East Asian seas, many people from different cultures and ethnic backgrounds arrived in Hong Kong, met, and married—despite all taboos—and created a distinct community. Many of Hong Kong's most influential figures during its first century as a city were neither British nor Chinese—they were Malay or Indian, Jewish or Armenian, Parsi or Portuguese, Eurasian or Chindian—or simply, Hong Kongers. England describes those overlooked in history, including the opium traders who built synagogues and churches; ship owners carrying gold-rush migrants; the half-Dutch, half-Chinese gentleman with two wives who was knighted by Queen

Victoria; and the gardeners who settled Kowloon, the mainland peninsula facing the island of Hong Kong, and became millionaires. A story of empire, race, and sex, Fortune's Bazaar presents a "fresh...essential" (Ian Buruma), "formidable and important" (The Correspondent) history of a special place—a unique city made by diverse people of the world, whose part in its creation has never been properly told until now.
