(A)*Typical Woman* Abigail Dodds,2019-01-17 A Woman Through and Through In a culture that can belittle womanhood on the one hand—making it irrelevant—and glorify it on the other—making it everything—it's hard to know what it really means to be a woman. But when we understand womanhood through the lens of Scripture, we see that we need a bigger category for what God has called “woman.” This book breathes fresh air into our womanhood, reminding us what life in Christ—as a woman—looks like. When we see that we are women in all we do, we can be at peace with how God has created us, recognizing womanhood as an essential part of Christ’s mission and work.

A Grammar of Mishnaic Hebrew Moses Hirsch Segal,1927

A Grammar of the Ugaritic Language Daniel Sivan,2008-02 Ugaritic, discovered in 1929, is a Northwest Semitic language documented on clay tablets (about 1,250 texts) and dated from the period between the fourteenth and the twelfth centuries B.C.E. The documents are of various types: literary, administrative, lexicological. Numerous Ugaritic tablets contain portions of a poetic cycle pertaining to the Ugaritic pantheon. Another group of texts, the administrative documents, sheds light on the organization of Ugarit, thus contributing greatly to our understanding of the history and culture of the biblical and Northwest Semitic world. --BOOK JACKET.

Twelve Years a Slave Solomon Northup,2024-01-04
Filmatized in 2013 and the official recipient of three Oscars, Solomon Northup's powerful slave narrative 'Twelve Years a

Slave' depicts Nortup's life as he is sold into slavery after having spent 32 years of his life living as a free man in New York. Working as a travelling musician, Northup goes to Washington D.C, where he is kidnapped, sent to New Orleans, and sold to a planter to suffer the relentless and brutal life of a slave. After a dozen years, Northup escapes to return to his family and pulls no punches, as he describes his fate and that of so many other black people at the time. It is a harrowing but vitally important book, even today. For further reading on this subject, try 'Uncle Tom's Cabin' by Harriet Beecher Stowe. Solomon Northup (c.1807-c.1875) was an American abolitionist and writer, best remembered for his powerful race memoir 'Twelve Years a Slave'. At the age of 32, when he was a married farmer, father-of-three, violinist and free-born man, he was kidnapped in Washington D.C and shipped to New Orleans, sold to a planter and enslaved for a dozen years. When he gained his freedom, he wrote his famous memoir and spent some years lecturing across the US, on behalf of the abolitionist movement. 'Twelve Years a Slave' was published a year after 'Uncle Tom's Cabin' by Harriet Beecher Stowe and built on the anti-slavery momentum it had developed. Northup's final years are something of a mystery, though it is thought that he struggled to cope with family life after being freed.

PoC or GTFO, Volume 3 Manul Laphroaig, 2021-01-29
Volume 3 of the PoC || GTFO collection--read as Proof of Concept or Get the Fuck Out--continues the series of wildly popular collections of this hacker journal. Contributions range from humorous poems to deeply technical essays bound in the form of a bible. The International Journal of Proof-of-Concept or Get The Fuck Out is a celebrated

collection of short essays on computer security, reverse engineering and retrocomputing topics by many of the world's most famous hackers. This third volume contains all articles from releases 14 to 18 in the form of an actual, bound bible. Topics include how to dump the ROM from one of the most secure Sega Genesis games ever created; how to create a PDF that is also a Git repository; how to extract the Game Boy Advance BIOS ROM; how to sniff Bluetooth Low Energy communications with the BCC Micro:Bit; how to conceal ZIP Files in NES Cartridges; how to remotely exploit a TetriNET Server; and more. The journal exists to remind us of what a clever engineer can build from a box of parts and a bit of free time. Not to showcase what others have done, but to explain how they did it so that readers can do these and other clever things themselves.

Finding It Cora Carmack, 2013-10-15 Sometimes you have to lose yourself to find where you truly belong . . . Most girls would kill to spend months traveling around Europe after college graduation with no responsibility, no parents, and no-limit credit cards. Kelsey Summers is no exception. She's having the time of her life . . . or that's what she keeps telling herself. It's a lonely business trying to find out who you are, especially when you're afraid you won't like what you discover. No amount of drinking or dancing can chase away Kelsey's loneliness, but maybe

Jackson Hunt can. After a few chance meetings, he convinces her to take a journey of adventure instead of alcohol. With each new city and experience, Kelsey's mind becomes a little clearer and her heart a little less hers. Jackson helps her unravel her own dreams and desires. But the more she learns about herself, the more Kelsey realizes how little she knows about Jackson.

PoC or GTFO Manul Laphroaig, 2017-10-31 This highly anticipated print collection gathers articles published in the much-loved International Journal of Proof-of-Concept or Get The Fuck Out. PoC||GTFO follows in the tradition of Phrack and Uninformed by publishing on the subjects of offensive security research, reverse engineering, and file format internals. Until now, the journal has only been available online or printed and distributed for free at hacker conferences worldwide. Consistent with the journal's quirky, biblical style, this book comes with all the trimmings: a leatherette cover, ribbon bookmark, bible paper, and gilt-edged pages. The book features more than 80 technical essays from numerous famous hackers, authors of classics like Reliable Code Execution on a Tamagotchi, ELFs are Dorky, Elves are Cool, Burning a Phone, Forget Not the Humble Timing Attack, and A Sermon on Hacker Privilege. Twenty-four full-color pages by Ange Albertini illustrate many of the clever tricks described in the text.

All Lined Up Cora Carmack, 2014-05-13 New York Times and USA Today bestselling author Cora Carmack follows up her trio of hits—Losing It, Faking It, and Finding It—with this

thrilling first novel in an explosive series bursting with the Texas flavor, edge, and steamy romance of Friday Night Lights. In Texas, two things are cherished above all else—football and gossip. My life has always been ruled by both. Dallas Cole loathes football. That's what happens when you spend your whole childhood coming in second to a sport. College is her time to step out of the bleachers, and put the playing field (and the players) in her past. But life doesn't always go as planned. As if going to the same college as her football star ex wasn't bad enough, her father, a Texas high school coaching phenom, has decided to make the jump to college ball... as the new head coach at Rusk University. Dallas finds herself in the shadows of her father and football all over again. Carson McClain is determined to go from second-string quarterback to the starting line-up. He needs the scholarship and the future that football provides. But when a beautiful redhead literally falls into his life, his focus is more than tested. It's obliterated. Dallas doesn't know Carson is on the team. Carson doesn't know that Dallas is his new coach's daughter. And neither of them know how to walk away from the attraction they feel.

Faking It Cora Carmack, 2013 Grad school isn't what Cade Winston thought it would be. He's barely doing any acting and he still sees his best friend, the girl who broke his heart, with another guy. Then Joss Miller blows into his life with the force of a hurricane. She's the complete opposite of any girl he's ever dated - she has brightly dyed hair, tattoos, a piercing, and a request. She wants him to pretend to be her wholesome, boy-next-door boyfriend for an hour so that her parents don't meet the real guy she's

dating. Maybe it's the weeks without acting or maybe he's lost his mind, but he agrees to play the part.
