**Cities in the Pacific Rim** James Berry, Stanley McGreal, 2002-11 The cities of the Pacific Rim are in one of the most dynamic spheres of the global economy. In the twenty first century the focus of global affairs is destined to shift from the West to the East. These cities offer a wide range of different responses to the demands that rapid growth puts on planning and infrastructure : from the laxity that has lead to the urban sprawl of Bangkok to the regulation that is characteristic of Singapore. This book considers the interactive relationships between the operation of the planning system and the role and performance of property development and real estate markets in 14 Pacific Rim cities drawn from both the Eastern and Western perspective. The dynamic underlying these relationships considers the interplay between

administrative structures, legislative controls and policy issues examining the role of actors and agencies in the property development and investment process.

**Let's Get Frank** Robin Brunet, 2018-02-17 Frank Palmer is a legend in the Canadian advertising world. He not only developed Palmer Jarvis, one of the country's most acclaimed marketing communications agencies (and then became chairman and CEO of DDB Canada after selling Palmer Jarvis to the multinational ad giant), he is also credited with changing the face of Canadian advertising. "He's the only Western Canadian ad man who went to Toronto and wound up owning the town," says former employee and now friendly rival Chris Staples. Fellow ad man Bob Bryant elaborates, "What Frank also did that no other agency owner was able to do was become a star. No one else personified a company the way he did. He became the iconic brand of his own business." Palmer has earned a reputation for obtaining clients at any cost. He has clawed his way to prominence with wit, an uncanny knowledge of what constitutes effective advertising, and a business acumen nothing short of encyclopedic. Having started out as the boy last chosen for the baseball team by his peers, he set his sights on living his life in the role of the chooser—not the one waiting to be chosen. Palmer is a fascinating study in contrasts. Though he always took his role as an employer seriously, at times his private life was a mess. And while his bald head and thick neck give him the look of someone you wouldn't want to encounter on a dark street, he's a notorious trickster—be it by placing an octopus under a colleague's pillow or lacing a friend's coffee cup with dental anaesthesia. At the same time, Palmer is almost as well known for his philanthropic work as for his business acuity and practical jokes. In this lively biography, Robin Brunet captures the exhilarating

experience of being in the presence of such a charismatic and driven man. Brunet's wealth of interviews with the man himself and those who know him best get to the root of what it means to be Frank Palmer.

Several theories of the causes of the Great Depression are discussed. What the Federal Reserve did, how they defended their actions, and how business writers, businessmen and economists viewed these actions are important. **Ice Storm** Bruce Dowbiggin, 2014-10-04 In 2008, the Vancouver Canucks were Team Modern, revolutionizing the NHL under their new GM, former player agent Mike Gillis. Cool, calculating, and unsparing with the media, the

onetime number one draft pick of the old Colorado Rockies swept away the tangled psychological past of the Canucks with bold innovation, remodeling Vancouver as a destination city for NHL star players. To do so, he built the Canucks from a non-playoff team in 2008 to the best in hockey from 2010-2012. He modernized the players' diets and psychological approach, he rebuilt the dressing room, and he sought sleep consultants to help with the Canucks' punishing travel schedule. More than that, his winning team lifted Vancouver from eighth overall in NHL revenues to second by 2013. When the team took to the ice for Game 7 of the 2011 Cup Final, it seemed there was nothing the Canucks couldn't overcome with their Canucktivity approach. The hockey world was at their feet. But things changed in Game 7. Physically exhausted and bullied by the Bruins, the Canucks succumbed 4-0. To cap the greatest season in team history, Vancouver rioted. Gillis tried a number of aggressive moves to get back to the Final, from switching Luongo for Schneider to trading players, but nothing worked. From there, the dominoes fell: Alain Vigneault was dismissed, John Tortorella hired; Tortorella raged, fans bayed for Gillis' head; and finally, Gillis and Tortorella were both fired. In spring 2014, tried-and-true Canuck hero Trevor Linden was installed as president, with former teammate Jim Benning by his side as GM. No one was quite sure if this was an improvement, but at least the hysterical screaming had stopped. How did it happen? Ice Storm follows the journey that led the Canucks from the top of the mountain to the bottom of the abyss in six short years.

*A Better Place on Earth* Andrew MacLeod, 2015-04-25  
In British Columbia, like most of the world, the wealth of the richest one percent has grown exponentially in recent decades, while the majority have found their incomes stagnant or even declining. The top 10 percent in BC now hold 56.2 percent of the wealth, a greater share than anywhere else in Canada. Our richest have wealth counted in the billions while the poorest sleep in downtown doorways, or have to choose between medicine and food. Those in the middle report working harder without getting ahead and many British Columbians owe more than they own. To illustrate the wide-ranging ramifications of inequality, MacLeod interviews economists, politicians, policy-makers and activists, as well as those living on the edge: a single parent whose child support payments are clawed back by the government; a 25-year-old struggling to live on disability payments who won't share his identity for fear of repercussions from the system; a security guard who wasn't given bathroom breaks, didn't drink water at work and eventually had to have a kidney removed as a result of severe dehydration. Some assume that such disparity is inevitable even in BC, a wealthy province lauded by the government as "The Best Place on Earth." However, MacLeod deftly argues that British Columbians are living with the consequences of short-sighted public policies, and adjusting those policies can achieve a different set of results. Informative, well-researched, cautionary and hopeful, *A Better Place on Earth* provides an in-depth look at inequality and suggests what British

Columbians can do to make sure everyone's basic needs are met, pull back stratospheric incomes and create a fairer society.
