Glosario Del Banco Mundial World Bank,1996 This edition of the World Bank has been revised and expanded by the Terminology Unit in the Languages Services Division of the World Bank in collaboration with the English, Spanish, and French Translation Sections. The Glossary is intended to assist the Bank's translators and interpreters, other Bank staff using French and Spanish in their work, and free-lance translator's and interpreters employed by the Bank. For this reason, the Glossary contains not only financial and economic terminology and terms relating to the Bank's procedures and practices, but also terms that frequently occur in Bank documents, and others for which the Bank has a preferred equivalent. Although many of these terms, relating to such fields as agriculture, education, energy, housing, law, technology, and transportation, could be found in other sources, they have been assembled here for ease of reference. A list of acronyms occurring frequently in Bank texts (the terms to which they refer being found in the Glossary) and a list of international, regional, and national organizations will be found at the end of the Glossary.

Perspectivas del Comercio Internacional de América Latina y el Caribe 2019 Economic Commission for Latin America and the Caribbean,2020-02-12 En 2019 el desempeño del comercio mundial de bienes sería el peor desde la crisis financiera. En esta edición de Perspectivas del Comercio Internacional de América Latina y el Caribe se analiza dicho fenómeno, así como las crecientes tensiones comerciales y las repercusiones en el comercio regional. La fuerte desaceleración del comercio mundial responde tanto a la acumulación de barreras comerciales desde 2018 como a otros factores de más larga data. Entre estos se destacan la menor demanda mundial, la creciente sustitución de importaciones por producción nacional en algunas economías, la menor proporción de la producción china que se destina a la exportación, el retroceso de las cadenas globales de valor y la irrupción de nuevas tecnologías que causan un impacto en la naturaleza misma del comercio. En el capítulo II se analiza la forma en que el comercio internacional puede hacer un mayor aporte a la sostenibilidad ambiental. Los vínculos entre comercio y

medioambiente se han hecho más visibles desde los años noventa, como muestra el aumento de las controversias comerciales vinculadas con aspectos ambientales y la creciente incorporación de capítulos ambientales en los acuerdos comerciales. Por último, en el capítulo III se examina la situación de la infraestructura y la logística, aspectos clave para el comercio internacional y la producción. Se concluye destacando la necesidad de reexaminar las políticas públicas en materia de concesiones de infraestructura económica y el rol central de la acción regulatoria del Estado, especialmente en el ámbito de la competencia.

Financial Inclusion of Small Rural Producers
Francisco G. Villarreal, 2017 There is mounting empirical evidence that the responsible provision and use of formal financial services have a positive impact on household well-being and enterprise performance. At the individual level, financial inclusion benefits rural households and small producers by facilitating the safe accumulation of assets, enabling them to leverage those assets in order to invest in human and physical capital, and supporting better risk management. The positive effects at the aggregate level are associated with better allocation of scarce resources among different activities. Despite recent progress on different aspects of financial inclusion in Latin America and the Caribbean, large gaps remain, especially in rural areas, which have been historically neglected by traditional providers of financial services. This book describes how these gaps have evolved recently in five countries --Costa Rica, the Dominican Republic, El Salvador, Honduras and Mexico-- that are at different stages of designing and implementing comprehensive financial inclusion strategies. Then, on the basis of a comparative analysis of the institutional architecture available, it identifies the main barriers

preventing small rural producers from accessing and making effective use of the various financial services on offer, with a view to making policy recommendations for overcoming these limitations.
