**A Buccaneer's Atlas** Basil Ringrose, 1992-01-01 On July 29, 1681, a band of English buccaneers that had been terrorizing Spanish possessions on the west coast of the Americas captured a Spanish ship, from which they obtained a derrotero, or book of charts and sailing directions. When they arrived back in England, the Spanish ambassador demanded that the buccaneers be brought to trial. The derrotero was ordered to be brought to King Charles II, who apparently appreciated its great intelligence value. The buccaneers were acquitted, to the chagrin of the king of Spain, who had the English ambassador expelled from the court at Madrid on a seemingly trumped-up charge. The derrotero was subsequently translated, and one of the buccaneers, Basil Ringrose, added a text to the compilation and information to the Spanish charts. The resulting atlas, consisting of 106 pages of charts and 106 pages of text, is published in full for the first time in this volume. Covering the coast from California to Tierra del Fuego, the Galapagos, and Juan Fernandes, Basil Ringrose's south sea waggoner is a rich source of geographical information, with observations on navigational, physical, biological, and cultural features as well as on ethnography, customs, and folklore. After almost exactly three hundred years, this secret atlas is now made available to libraries and individuals. The editors have provided an extensive introduction on historical, geographical, and navigational aspects of the atlas, as well as annotations to the charts and text, and they have plotted the coverage of the charts on modern map bases. **Dictionary of Louisiana French** Albert Valdman,Kevin James Rottet,2010 The Dictionary of Louisiana French (DLF) provides the richest inventory of French vocabulary in Louisiana and reflects precisely the speech of the period from 1930 to the present. This dictionary describes the current usage of French-speaking peoples in the five broad regions of South Louisiana: the coastal marshes, the banks of the Mississippi River, the central area, the north, and the western prairie. Data were collected during interviews from at least five persons in each of twenty-four areas in these regions. In addition to the data collected from fieldwork, the dictionary contains material compiled from existing lexical inventories, from texts published after 1930, and from archival recordings. The new authoritative resource, the DLF not only contains the largest number of words and expressions but also provides the most complete information available for each entry. Entries include the word in the conventional French spelling, the pronunciation (including attested variants), the part of speech classification, the English equivalent, and the word's use in common phrases. The DLF features a wealth of illustrative examples derived from fieldwork and textual sources and identification of the parish where the entry was collected or the source from which it was compiled. An English-to-Louisiana French index enables readers to find out how particular notions would be expressed in la Louisiane .

**My Children's Guide Book** Hui-Shin Wong,2021-02-02 “My Children’s Guide Book” is a guide for the children, teenagers, adults, parents and grandparents in all generations to know more about how they should act to be the perfect worldwide citizens in this century as well as the coming centuries. This book illustrates the art of fats and the needs for growing up, the definition and examples of clean and the definition and examples of dirty, the important and urgency in mastering at least one language especially our international language, English, a suggestion of setting projects’ due dates and introduction of the progress tracking of any project or any activity. No worry! Many of us are very hardworking to earn for a living, and, yet, working smart is slowly and sooner penetrating our life for the great respect of the labour law revolution in the latest four generations; your grandparents, your parents, you and your children to share a borderline of ignoring responsibilities or being lazy. Of course, user innovation is a vocabulary to the majority and yet, an entrepreneurial ecosystem is built, where users find the solution or build something new to solve users’ daily problems. The different types of arts and the history of arts were highlighted by giving some good examples of vandalism, body art and the art creation by mentioned earlier parties or stakeholders. Plagiarism and citation are also the highlighters of this children’s guide. In order to have a balanced lifestyle; healthy body, healthy mind and healthy soul, this guide book says that body exercises are a must for all levels of human beings. Relationship education, the definition of love, types of body contact, culture and manner are also being highlighted. The feeling of deep love in nature and its acknowledgement, the acknowledgement of heroes, heroines, blessing and being thankful among all individuals especially in children’s childhood, education tracks and careers.

**The Happiest Baby on the Block** Harvey Karp, M.D.,2008-11-19 Perfect for expecting parents who want to provide a soothing home for the newest member of their family, The Happiest Baby on the Block, the national bestseller by respected pediatrician and child development expert Dr. Harvey Karp, is a revolutionary method for calming a crying infant and promoting healthy sleep from day one. In perhaps the most important parenting book of the decade, Dr. Harvey Karp reveals an extraordinary treasure sought by parents for centuries --an automatic "off-switch" for their baby's crying. No wonder pediatricians across the country are praising him and thousands of Los Angeles parents, from working moms to superstars like Madonna and Pierce Brosnan, have turned to him to learn the secrets for making babies happy. Never again will parents have to stand by helpless and frazzled while their poor baby cries and cries. Dr. Karp has found there IS a remedy for colic. "I share with parents techniques known only to the most gifted baby soothers throughout history ...and I explain exactly how they work." In a innovative and thought-provoking reevaluation of early infancy, Dr. Karp blends modern science and ancient wisdom to prove that newborns are not fully ready for the world when they are born. Through his research and experience, he has developed four basic principles that are crucial for understanding babies as well as improving their sleep and soothing their senses: ·The Missing Fourth Trimester: as odd as it may sound, one of the main reasons babies cry is because they are born three months too soon. ·The Calming Reflex: the automatic reset switch to stop crying of any baby in the first few months of life. ·The 5 "S's": the simple steps (swaddling, side/stomach position, shushing, swinging and sucking) that trigger the calming reflex. For centuries, parents have tried these methods only to fail because, as with a knee reflex, the calming reflex only works when it is triggered in precisely the right way. Unlike other books that merely list these techniques Dr. Karp teaches parents exactly how to do them, to guide cranky infants to calm and easy babies to serenity in minutes...and help them sleep longer too. ·The Cuddle Cure: the perfect mix the 5 "S's" that can soothe even the most colicky of infants. In the book, Dr. Karp also explains: What is colic? Why do most babies get much more upset in the evening? How can a parent calm a baby--in mere minutes? Can babies be spoiled? When should a parent of a crying baby call the doctor? How can a parent get their baby to sleep a few hours longer? Even the most loving moms and dads sometimes feel pushed to the breaking point by their infant's persistent cries. Coming to the rescue, however, Dr. Karp places in the hands of parents, grandparents, and all childcare givers the tools they need to be able to calm their babies almost as easily as...turning off a light. From the Hardcover edition.

**Purposeful** Jennifer Dulski, 2018-05-24 This book is for people who want to believe they can affect change, to help them understand where they have power, and how to use it. Our world of work is changing and we need new lessons on how to adapt to these new values, whether that's balancing work and family life or empowering women as leaders. Former senior executive at Yahoo and Google, and now President and COO of Change.org, Jennifer Dulski uses her own life experiences, stories from throughout her career, and inspiring examples of Change.org petition starters to offer lessons on how we can all tap into our power to change the world. From following your natural talents, finding a mentor, harnessing the power of fear, and closing the confidence gap, Jennifer will teach you how we can all be leaders, doing more meaningful work and living a life with more purpose.

Diaper Dude Chris Pegula, Frank Meyer, 2017-05-09 Dude, you're a dad now! Picking up where *From Dude to Dad* left off, author and founder of the popular Diaper Dude parenting brand Chris Pegula dives into the first two years of parenting and furthers his deeply held belief that you don't have to lose yourself when you become a father. Once again written in Pegula's everyman voice and filled with humorous takes on fatherhood from the front lines, the book is an easy-to-read resource for new dads, combining hard-won lessons learned, pitfalls to avoid, and practical advice from a dude who hasn't lost his identity (or his sanity). Filled with useful information, hilarious stories of dad madness, a little psychology and science, and engaging sidebars, Diaper Dude covers everything from bonding, babyproofing, and when you'll have sex again to toddlerhood, tantrums, and tag-teaming with your partner to cover all the bases while staying (somewhat) sane. \*\*Winner, Family Choice Award! \*\*Winner, National Parenting Product Award!

*Rethinking Sitting* Peter Opsvik, 2009-05-12 A Scandinavian furniture designer offers insight into his thinking about sitting and explains the

philosophy that informs his pioneering chairs. For millions of years humans have led physically active lives. In recent centuries, however, industrialization has fostered passivity and the growing predominance of the sitting posture for more and more people. Increasingly, chairs and furniture for sitting have become standard pieces of equipment in the workplace, institutions, and private homes. These sitting devices were designed according to the established standard of the chair, based on the accepted western manner of sitting. In *Rethinking Sitting*, Scandinavian industrial designer Peter Opsvik addresses the issue of whether this is the only, and functionally best, design for the human body. When the various authorities on ergonomics promote their one and only “correct” sitting posture, he says all of them are right: Every recommended sitting posture is good. Opsvik sees it as his task to design chairs that allow as many different sitting postures as possible and make it easy to move and change frequently between positions. In this beautifully illustrated reference Opsvik offers insight into his thinking on the subject of sitting and explains the philosophy that informs his furniture designs. *Rethinking Sitting* contains important information for everyone who is interested, for professional, educational, or personal reasons, in sitting solutions.
