Timber Damage by Black Bears Dale L. Nolte,2003 Describes alternative approaches to controlling the damage black bears cause during the spring when they strip bark to eat the newly formed wood underneath. One bear might strip as many as 70 trees in a day. The trees will be damaged and may be killed if the bark is stripped all the way around the tree, girdling it. Bears appear to strip the most vigorous trees, preferring stands that have been thinned, or those where urea fertilizer has been applied. Bears also appear to prefer trees with a high concentration of sugars relative to the concentration of terpenes. Pruning decreases the sugar-to-terpene ratio, reducing the likelihood that trees will be stripped by bears. Bears generally quit stripping trees once other foods become available during the late spring or early summer. One approach to reducing damage has been to provide supplemental feed (pellets resembling dog food) in stands being damaged by bears. In one study, damage was just one-fifth as much in stands with feeders as in stands without feeders. Killing bears in areas where trees are being stripped can also reduce damage. Other approaches, such as relocation, contraception or sterilization, or repellents, are not generally practical for protecting forest plantations.

Bears Camilla De La Bédoyère,2015-07-15 There are many reasons why bears are among the most popular exhibits in zoos. These powerful mammals can seem simultaneously adorable and dangerous. This fact-filled volume offers much more knowledge than a bear lover could find in a zoo. Besides valuable scientific information about the eight species of bears remaining in the world, their habitats, life cycles, diet, and more, readers will also find out about species that are now extinct such as Arctodus, a towering bear that measured over 10 feet (3 m) in height! Colorful photographs, illustrations, and diagrams supplement this impressive collection of bear facts.

Grizzly Bears Jacqueline Dembar Greene,2007-08-01 Was it too late to save the grizzly bear? For hundreds of years, this amazing creature had lived peacefully in North America. Yet by 1935, years of land encroachment and hunting had pushed the animal to the brink of extinction. Would people find a way to help the grizzly bear survive? In Grizzly Bears: Saving the Silvertip, children relive the inspiring and heroic efforts of people who stepped in to save this remarkable creature when all seemed lost. Through this true tale of wildlife survival, children discover the bold and creative ideas that Americans and their government have used to protect and care for the country's endangered wildlife. Full-color photographs and a habitat map enrich this heartfelt story of conservationism and courage.

Bear Robert E. Bieder,2005-08-18 The angry grizzly and the cuddly teddy: few animals possess such a range of personas as the bear. Here, Robert Bieder surveys the wealth of imagery, myths, and stories that surrounds the bear. Beginning with the dawn bear, the small dog-sized ancestor of all bears who hails from 25 million years ago, Bieder embarks on a fascinating exploration of the evolutionary history of the bear family, from extinct species such as the cave bear and giant short-faced bear to the mere eight species that survive today. Bear draws on cultural material from around the world to examine the various legends and myths surrounding the bear, including ceremonies and taboos that govern the hunting, killing, and eating of bears. The book also looks at the role of bears in modern culture as the subjects of stories, songs, and films; as exhibited objects in circuses and zoos; and, perhaps most famously, as toys. Bieder also considers the precarious future of the bear as it is threatened by loss of habitat, poaching, global warming, and disease and discusses the impact of human behavior on bears and their environments. Accompanied by numerous vibrant photographs and illustrations, and written in an engaging fashion, Bear is an appealing and informative volume for anyone who has curled up with Winnie-the-Pooh or marveled at this powerful king of the forest.
