J Dilla's Donuts Jordan Ferguson, 2014-04-24 From a Los Angeles hospital bed, equipped with little more than a laptop and a stack of records, James "J Dilla" Yancey crafted a set of tracks that would forever change the way beatmakers viewed their artform. The songs on *Donuts* are not hip hop music as "hip hop music" is typically defined; they careen and crash into each other, in one moment noisy and abrasive, gorgeous and heartbreaking the next. The samples and melodies tell the story of a man coming to terms with his declining health, a final love letter to the family and friends he was leaving behind. As a prolific producer with a voracious appetite for the history and mechanics of the music he loved, J Dilla knew the records that went into constructing *Donuts* inside and out. He could have taken them all and made a much different, more accessible album. If the widely accepted view is that his final work is a record about dying, the question becomes why did he make this record about dying? Drawing from philosophy, critical theory and musicology, as well as Dilla's own musical catalogue, Jordan Ferguson shows that the contradictory, irascible and confrontational music found on *Donuts* is as much a result of an artist's declining health as it is an example of what scholars call "late

style,” placing the album in a musical tradition that stretches back centuries.

Hip-Hop within and without the Academy Karen Snell,Johan Söderman,2014-07-29 As a platform for communicating the issues of marginalized peoples, hip-hop remains a universal, relevant art form. Moreover, hip-hop culture’s affirmation of liberation pedagogy has great potential not only to address many current issues in educational contexts, but also to create more egalitarian ambitions in western public schools.

Jack Of All Master Of One Chanakya Shukla, 2021-08-11 We might have often heard of this popular old saying that a jack of all could become the master of none. This is indeed a fact, some really experienced man might have said this because he might have tried his hands in all places he could which resulted from him becoming ultimately a master in none. Whenever we read motivational quotes and motivational speeches from all the great people in the world, we are advised to focus. That means we should concentrate on doing one specific thing where we want to achieve, and it helps. In fact, I have experienced and advised my juniors to do the same. I use to tell them that now you are a beginner and find yourself nowhere but as soon you spend a decade in a skill, an industry, a field of study, a sport, a profession, a business, or simply practicing a hobby; you reach somewhere and nobody in this world can take it away from you be it anywhere on this planet or elsewhere.

Teachers deliver a lecture from half an hour to more but it is always the self-study, the amount of study you do without being told by anybody; it makes you the man you want to be in the future. The teacher (or Guru) again helps you to focus on one thing while there are millions of parallel events going around the world to lose your focus and waste your time. You might find yourself succeeding in various distinct fields, yes it is very much possible. Humans can create and extend the boundaries themselves but then you often find yourself not the number one. You could be good but can't be the best in the world in everything, there is always someone practicing the same skills and getting better than you in some part of the world and it should be appreciated with acceptance. And, here what this popular saying makes sense is that the Jack of all is a Master of None. But my all-loving readers I would like to share my story here where I grew up learning this phrase in schools and from my parents. During my interaction with the portion of the world in form of the people that I met, I found this phrase made sense, and sometimes it did not. A millennial like me always look for a modification of complex things and truths of life and death to make it simple. My late father who was a businessman used to tell his employees that in this competing World one has to be an all-rounder moreover has to master one particular skill to stand out in the crowd or must say simply survive. Luckily, I was there in his office to hear him telling this to some employee. I was very young when he left this world and all of a sudden I had a different perspective on life. Cheating people, telling lies for small profits of money, frauds, bullying, sexual exploitation, grudges over communities, body shaming, superstition, greediness, impersonation, racial discrimination, depression, and much more that exists on earth and we often ignore it while people have justifications for it. I know already there are a number of books and educating videos available out there then why I am writing this one? Because this is my journey of learning ten different skills after the death of my father and I earned a

little or more amount of money utilizing these skills. I could be a victim or a guilty while all above said evils surrounding me, but I was guided well by my mentors, parents, and elders moreover, I accepted that guided path and followed it to get benefited out of it and become an example that the world could learn from, a good example probably. With changes in time and situations, now if a father teaches his son driving a car it won't make a skill worth enough to make a living. Since now most of the people work from home moreover most of the people know themselves that how to drive a car. People need to learn more skills for a better tomorrow. My father uses to take a walk with me in the evening after dinner when he uses to tell me how children make their parents proud or shamed out of their doings. I hope this reached out to him somehow in a good way. ~ CHANAKYA SHUKLA

Metal, Rap, and Electro in Post-Revolutionary Tunisia Stefano Barone, 2019-04-23 Metal, Rap, and Electro in Tunisia is a trip into the music scenes of Tunisia after the Arab Springs. Based on

extensive field research, the book explores the social life of heavy metal, rap, and electronic music in a North African country whose mass revolution of 2010/2011 led the way to a troubled and yet unique democracy. What is it like to be part of a music scene in a place affected by poverty and inequality? How do the many conflicted souls of Tunisian Islam shape local metal, rap, and electro? What are the social and cultural stakes for music in a nation constantly represented as a bridge between Europe and the Middle East? How do music scenes articulate the complex political scenario that followed the Tunisian revolution of 2011? Barone answers these questions by offering new theoretical reflections on youth cultures and popular music in a global perspective, and thus pushing the debate on post-subcultures and scenes forward. At the same time, the book offers a dense sociological analysis of youth and music in reality - the Tunisian one - whose society, culture, religion, and politics are at stake in a historical transformation.

Schloss examines the way hip-hop artists have managed to create a form of expression that reflects their creative aspirations, moral beliefs, political values, and cultural realities. This second edition of the book includes a new foreword by Jeff Chang and a new afterword by the author.

Sound Fragments Noel Loble, 2022-04-19 Winner of IASPM Book Prize, given by IASPM, 2023 This book is an ethnographic study of sound archives and the processes of creative decolonization that form alternative modes of archiving and curating in the 21st century. It explores the histories and afterlives of sound collections and practices at the International Library of African Music. Sound Fragments follows what happens when a colonial sound archive is repurposed and reimagined by local artists in post-apartheid South Africa. The narrative speaks to larger issues in sound studies, curatorial practices, and the reciprocity and ethics of listening to and reclaiming culture. Sound Fragments interrogates how Xhosa arts activism contributes to an expanding notion of what a sound or cultural archive could be, and where it may resonate now and in future.

Hip Hop Culture participants as interpreters and theorists, but one that continues to humanize the “whole person” behind the decks, on the mic, rocking on the linoleum floor, painting in front of a wall, and seeking that Knowledge of Self. This book will be relevant to Hip Hop scholars in fields such as cultural studies and history, sociolinguistics, linguistic anthropology and ethnography, and race studies, while Hip Hop heads themselves will find parts of this book that represent their culture in ethical and informative ways.

Bring That Beat Back Nate Patrin, 2020-06-09 How sampling remade hip-hop over forty years, from pioneering superstar Grandmaster Flash through crate-digging preservationist and innovator Madlib Sampling—incorporating found sound and manipulating it into another form entirely—has done more than any musical movement in the twentieth century to maintain a continuum of popular music as a living document and, in the process, has become one of the most successful (and commercial) strains of postmodern art. *Bring That Beat Back* traces the development of this transformative pop-cultural practice from its origins in the turntable-manning, record-spinning hip-hop DJs of 1970s New York through forty years of musical innovation and reinvention. Nate Patrin tells the story of how sampling built hip-hop through the lens of four pivotal artists: Grandmaster Flash as the popular face of the music’s DJ-born beginnings; Prince Paul as an early champion of sampling’s potential to elaborate on and rewrite music history; Dr. Dre as the superstar who personified the rise of a stylistically distinct regional sound while blurring the lines between sampling and composition; and Madlib as the underground experimentalist and record-collector antiquarian who constantly broke the rules of what the mainstream expected from hip-hop. From these four artists’ histories, and the stories of the people who collaborated, competed, and evolved with them, Patrin crafts a deeply informed, eminently readable account of a facet of pop music as complex as it is commonly

underestimated: the aesthetic and reconstructive power of one of the most revelatory forms of popular culture to emerge from postwar twentieth-century America. And you can nod your head to it.
