Beat Culture William T. Lawlor,2005-05-20 The coverage of this book ranges from Jack Kerouac's tales of freedom-seeking Bohemian youth to the frenetic paintings of Jackson Pollock, including 60 years of the Beat Generation and the artists of the Age of Spontaneity. Beat Culture captures in a single volume six decades of cultural and countercultural expression in the arts and society. It goes beyond other works, which are often limited to Beat writers like William Burroughs, Charles Bukowski, and Michael McClure, to cover a wide range of musicians, painters, dramatists, filmmakers, and dancers who found expression in the Bohemian movement known as the Beat Generation. Top scholars from the United States, England, Holland, Italy, and China analyze a vast array of topics including sexism, misogyny, alcoholism, and drug abuse within Beat circles; the arrest of poet Lawrence Ferlinghetti on obscenity charges; Beat dress and speech; and the Beat pad. Through more than 250 entries, which travel from New York to New Orleans, from San Francisco to Mexico City, students, scholars, and those interested in popular culture will taste the era's rampant freedom and experimentation, explore the impact of jazz on Beat writings, and discover how Beat behavior signaled events such as the sexual revolution, the peace movement, and environmental awareness.

First chapters demonstrate how this general revolution has led to the emergence of a new educational paradigm in the context of digitally enriched learning environments including its design and implementation for literary or cultural studies. The applications of ICT in language learning and the use of computers in SLA research are discussed in the next two chapters. The final chapter introduces and discusses the scope and concepts of computational linguistics and corpus linguistics and their applications in lexicography, translation and foreign language teaching. **William S. Burroughs Cutting Up the Century** Joan Hawkins,Alex Wermer-Colan,2019-05-17 William S. Burroughs Cutting Up the Century is the definitive book on Burroughs' overarching cut-up project and its relevance to the American twentieth century. Burroughs's Nova Trilogy (The Soft Machine, Nova Express, and The Ticket That Exploded) remains the best-known of his textual cut-up creations, but he committed more than a decade of his life to searching out multimedia for use in works of collage. By cutting up, folding in, and splicing together newspapers, magazines, letters, book reviews, classical literature, audio recordings, photographs, and films, Burroughs created an eclectic and wide-ranging countercultural archive. This collection includes previously unpublished work by Burroughs such as cut-ups of work written by his son, cut-ups of critical responses to his own work, collages on the Vietnam War and the Watergate scandal, excerpts from his dream journals, and some of the few diary entries that Burroughs wrote about his wife, Joan. William S. Burroughs Cutting Up the Century also features original essays, interviews, and discussions by established Burroughs scholars, respected artists, and people who encountered Burroughs. The essays consider Burroughs from a range of starting points—literary studies, media studies, popular culture, gender studies, post-colonialism, history, and geography. Ultimately, the collection situates Burroughs as a central artist and thinker of his time and considers his insights on political and social problems that have become even more dire in ours.
