An Elegant Puzzle Will Larson,2019-05-20 A human-centric guide to solving complex problems in engineering management, from sizing teams to handling technical debt. There's a saying that people don't leave companies, they leave managers. Management is a key part of any organization, yet the discipline is often self-taught and unstructured. Getting to the good solutions for complex management challenges can make the difference between fulfillment and frustration for teams—and, ultimately, between the success and failure of companies. Will Larson's *An Elegant Puzzle* focuses on the particular challenges of engineering management—from sizing teams to handling technical debt to performing succession planning—and provides a path to the good solutions. Drawing from his experience at Digg, Uber, and Stripe, Larson has developed a thoughtful approach to engineering management for leaders of all levels at companies of all sizes. *An Elegant Puzzle* balances structured principles and human-centric thinking to help any leader create more effective and rewarding organizations for engineers to thrive in.

Why Are Our Pictures Puzzles? James Elkins,2004-11-23 With bracing clarity, James Elkins explores why images are taken to be more intricate and hard to describe in the twentieth century than they had been in any previous century. *Why Are Our Pictures Puzzles?* uses three models to understand the kinds of complex meaning that pictures are thought to possess: the affinity between the meanings of paintings and jigsaw-puzzles; the contemporary interest in ambiguity and 'levels of meaning'; and the penchant many have to interpret pictures by finding images hidden within them. Elkins explores a wide variety of examples, from the figures hidden in Renaissance paintings to Salvador Dali's paranoiac meditations on Millet's *Angelus*, from Persian miniature paintings to jigsaw-puzzles. He also examines some of the most vexed works in history, including Watteau's meaningless paintings, Michelangelo's Sistine Ceiling, and Leonardo's Last Supper.

Redeeming Sociology Vern S. Poythress,2011-05-04 Interpersonal relationships are possible for humans because we are created in the image of a Trinitarian God. But if the Trinity is our model for relationships, why is the human condition rife with pain and evil? How are we to think correctly about fallen human relationships and our models for understanding them? *Redeeming Sociology* advocates a biblically informed model for human relationships—relationships rooted in the Trinitarian character of God, his governance of the world, and his redemption accomplished in Christ. Poythress examines how the breaking of relationships through sin leads to strife, murder, and oppression among human beings and sets cultures against one another. And he shows how these broken relationships are restored through the outworking of redemption in Christ. Though typical sociological models for interpersonal relationships may offer some valuable insights, they are handicapped by a fundamental misunderstanding of humanity. The biblical model that Poythress presents correctly diagnoses the problem of human relationships, so it can likewise prescribe a biblical solution that infuses new meaning and power into how we relate to others made in the image of God.

But Grace Park and Shawn Matthews have their own problems. Grace is sheltered and largely oblivious, living in the Valley with her Korean-immigrant parents, working long hours at the family pharmacy. She's distraught that her sister hasn't spoken to their mother in two years, for reasons beyond Grace's understanding. Shawn has already had enough of politics and protest after an act of violence shattered his family years ago. He just wants to be left alone to enjoy his quiet life in Palmdale. But when another shocking crime hits LA, both the Park and Matthews families are forced to face down their history while navigating the tumult of a city on the brink of more violence.

The Bible, Re-write it or Re-read it Benjamin Lee Vince,2008-11-26 Generic versions of the Bible begat generic versions of Christians: If we frustrate the language of the King James Version of the Bible, we will frustrate the grace of God and the genetic codes that lead to eternal life. “We ought to preach the gospel, not as our views, but as the mind of God. If we have been entrusted with the making of the gospel, we might have altered it to suit the taste of the modest century, but never having been employed to originate the good news, but merely to repeat it, we dare not stir beyond the record”.
