Flash Point North Korea Richard A Mobley,2013-05-11 During a dark period of U.S. military history in the late 1960s, North Korean forces captured an American naval vessel and shot down an unarmed reconnaissance aircraft, taking the lives of thirty-one U.S. sailors and Marines and striking a damaging blow to American honor. This look back to that earlier time of crisis provides serious food for thought as contemporary strategists again grapple with a North Korean regime that threatens regional security and U.S. national interests. The capture of USS Pueblo has been written about extensively but rarely in context with the shoot down fifteen months later of an EC-121 aircraft and never with so much relevant documentation. Richard Mobley, a veteran naval intelligence officer who served on the staff of U.S. forces in Korea during the late 1990s—confronting many of the same challenges faced in the 1960s and today—has uncovered a vast array of recently declassified documents that shed new light on these events and address lingering questions about U.S. reactions and its failure to retaliate. The formerly top secret answers to these and many other frequently asked questions are all covered in Mobley's groundbreaking investigation. His careful examination of the resource strains caused by concurrent U.S. involvement in Vietnam, the unexecuted retaliatory plans, and lessons learned confirms many criticisms long leveled at U.S. planners and decision-makers. It also challenges other criticisms by revealing new information and by placing these facts in the context of the time. The author couples the wisdom of hindsight with the revelation of new information for a timely new work on a subject of ongoing and vital importance.

Korean American Families in Immigrant America Sumie Okazaki,Nancy Abelmann,2018-10-09 An engaging ethnography of Korean American immigrant families navigating the United States Both scholarship and popular culture on Asian American immigrant families have long focused on intergenerational cultural conflict and stereotypes about “tiger mothers” and “model minority” students. This book turns the tables on the conventional imagination of the Asian American immigrant family, arguing that, in fact, families are often on the same page about the challenges and difficulties navigating the U.S.’s racialized landscape. The book draws on a survey with over 200 Korean American teens and over one hundred parents to provide context, then focusing on the stories of five families with young adults in order to go in-depth, and shed light on today’s dynamics in these families. The book argues that Korean American immigrant parents and their children today are thinking in shifting ways about how each member of the family can best succeed in the U.S. Rather than being marked by a generational division of Korean vs. American, these families struggle to cope with an American society in which each of their lives are shaped by racism, discrimination, and gender. Thus, the foremost goal in the minds of most parents is to prepare their children to succeed by instilling protective character traits. The authors show that Asian American—and particularly Korean American—family life is constantly shifting as children and parents strive to accommodate each other, even as they forge their own paths toward healthy and satisfying American lives. This book contributes a rare ethnography of family life, following them through the transition from teenagers into young adults, to a field that has largely considered the immigrant and second generation in isolation from one another. Combining qualitative and quantitative methods and focusing on both generations, this book makes the case for delving more deeply into the ideas of immigrant parents and their teens about raising children and growing up in America – ideas that defy easy classification as “Korean” or “American.”

In Pursuit of Composite Beauty Mari Nakami,2011 In Pursuit of Composite Beauty is a study of the life and thought of Yanagi Soetsu (1889-1961), known primarily as the founder of Japan's mingei (folk crafts) movement. Mr. Yanagi was a thinker who believed that world peace could not be achieved by 'painting the world in one single color.' Before and during World War II, when Japan was invading Asia and enforcing its cultural assimilation policy in its colonies and occupied territories, Yanagi aspired to realize a world in which multiple races and cultures could coexist. His pacifist thought rests on the idea of 'composite beauty,' an ideal of creating a world in which heterogeneous entities can accept their differences and learn from each other. Tracing Yanagi's intellectual development, this insightful and comprehensive book presents a positive reevaluation of the contemporary significance of his thought from the viewpoint of international relations, shedding light on the ways to achieve interdependence and mutual respect

Social Media and the Cultural Politics of Korean Pop Culture in East Asia Sunny Yoon,2023-08-25 This volume examines international engagement with Korean popular culture in East Asian online spaces, and how Asian identities are formed and perceived between nations within the region. In the context of global diversification and growing public participation in global issues, it builds up a new theoretical perspective in order to explain the emerging power of Asia in the global mediascape. With a focus on Korean media, touching upon K-pop and the phenomenon of Hallyu and anti-Hallyu, the author also looks at Japan, China, and Taiwan in this regional study. Combining theory with ethnographic audience studies in East Asian countries, the book elucidates East Asian media in a larger context of the changing global structure and media technology. This book will interest academics and students working on Asian popular culture and media, new media, East Asian studies, participatory media, and digital communication.

Modern Korea and Its Others Vladimir Tikhonov, 2015-11-19 The period spanning the 1880s to 1945 was a crucially important formative time for Korea, during which understandings of modernity were largely shaped by the images of Korea's neighbours to the east, west and north. China, Japan and Russia represented at some moments modern threats, but also denoted a range of alternative modernity possibilities, and ultimately provided a model for Korea's pre-colonial and colonial modernity. This book explores the way in which modern Korea perceived its geographic neighbours from the 1890s until 1945. It shows that Korea's modern nationalism was at the same time internationalist in its orientation, as the vision of Korea's ideal place in the world and brighter national future was often linked to the examples (positive and negative), threats (perceived and real) and allies abroad. Exploring the importance of the international knowledge and experience for the formation of the Korean nationalist paradigms, it offers nuance to the existing picture of the international connections and environment of the Korean national movements. It shows that the picture of Japan inside the anti-Japanese independence movement of the colonial period was more complicated than simple hatred of the invaders: modern achievements of Japan were admired even by anti-colonial nationalists as a possible model for Korea. The book also demonstrates the extent to which Chinese and Soviet revolutions influenced the thinking of modern Korean intellectuals across the whole ideological spectrum. Introducing new sources presented in English for the first time, and including themes such as race and ethnicity, global revolution, and gender, this book will be of great interest to students and scholars of Korean, East Asian and Russian history, as well as historians of the colonial/modern era more generally.

My First Book of Korean Words Kyubyong Park, Henry J. Amen, 2012-09-10 My First Book of Korean Words is a beautifully illustrated book that introduces young children to Korean language and culture through everyday words. The words profiled in this book are all commonly used in the Korean language and are both informative and fun for English-speaking children to learn. The goals of My First Book of Korean Words are multiple: to familiarize children with the sounds and structure of Korean speech, to introduce core elements of Korean culture, to illustrate the ways in which languages differ in their treatment of everyday sounds and to show how, through cultural importation, a single word can be shared between languages. Both teachers and parents will welcome the book's cultural and linguistic notes, and appreciate how the book is organized in a familiar ABC structure. Each word is presented in Hangeul, as well as in its Romanized form. With the help of this book, we hope more children (and adults) will soon be a part of the nearly 80 million people worldwide that speak Korean!

Nimby Is Beautiful Carol Hager, Mary Alice Haddad, 2015-03-01 NIMBY (Not In My Back Yard) protests are often criticized as parochial and short-lived, generating no lasting influence on broader processes related to environmental politics. This volume offers a different perspective. Drawing on cases from around the globe, it demonstrates that NIMBY protests, although always arising from a local concern in a particular community, often result in broader political, social, and technological change. Chapters include cases from Europe, North America, and Asia, engaging with the full political spectrum from established democracies to non-democratic countries. Regardless of political setting, NIMBY movements can have a positive and proactive role in generating innovative solutions to local as well as transnational environmental issues. Furthermore, those solutions are now serving as models for communities and countries around the world.

Songs for "Great Leaders" Keith Howard, 2020-01-24 Famously reclusive and secretive, North Korea can be seen as a theatre that projects itself through music and performance. The first book-length account of North Korean music and dance in any language other than Korean, *Songs for Great Leaders* pulls back the curtain on this theatre for the first time. Renowned ethnomusicologist Keith Howard moves from the first songs written in the northern part of the divided Korean peninsula in 1946 to the performances in February 2018 by a North Korean troupe visiting South Korea for the Pyeongchang Winter Olympic Games. Through an exceptionally wide range of sources and a perspective of deep cultural competence, Howard explores old revolutionary songs and new pop songs, developments of Korean instruments, the creation of revolutionary operas, and mass spectacles, as well as dance and dance notation, and composers and compositions. The result is a nuanced and detailed account of how song, together with other music and dance production, forms the soundtrack to the theater of daily life, embedding messages that tell the official history, the exploits of leaders, and the socialist utopia yet-to-come. Based on fieldwork, interviews, and resources in private and public archives and libraries in North Korea, South Korea, China, North America and Europe, *Songs for Great Leaders* opens up the North Korean regime in a way never before attempted or possible.

Let Us Fight as Free Men Christine Knauer, 2014-04-22 Today, the military is one the most racially diverse institutions in the United States. But for many decades African American soldiers battled racial discrimination and segregation within its ranks. In the years after World War II, the integration of the armed forces was a touchstone in the homefront struggle for equality—though its importance is often overlooked in contemporary histories of the civil rights movement. Drawing on a wide array of sources, from press reports and newspapers to organizational and presidential archives, historian Christine Knauer recounts the conflicts surrounding black military service and the fight for integration. *Let Us Fight as Free Men* shows that, even after their service to the nation in World War II, it took the persistent efforts of black soldiers, as well as civilian activists and government policy changes, to integrate the military. In response to unjust treatment during and immediately after the war, African Americans pushed for integration on the strength of their service despite the oppressive limitations they faced on the front and at home. Pressured by civil rights activists such as A. Philip Randolph, President Harry S. Truman passed an executive order that called for equal treatment in the military. Even so, integration took place haltingly and was realized only after the political and strategic realities of the Korean War forced the Army to allow black soldiers to fight alongside their white comrades. While the war pushed the civil rights struggle beyond national boundaries, it also revealed the persistence of racial discrimination and exposed the limits of interracial solidarity. *Let Us Fight as Free Men* reveals the heated debates about the meaning of military service, manhood, and civil rights strategies within the African American community and the United States as a whole.

Belonging in a House Divided Joowon Park, 2022-11-22 *Belonging in a House Divided* chronicles the everyday lives of resettled North Korean refugees in South Korea and their experiences of violence, postwar citizenship, and ethnic boundary making. Through extensive ethnographic research, Joowon Park documents the emergence of cultural differences and tensions between Koreans from the North and South, as well as new transnational kinship practices that connect family members across the Korean Demilitarized Zone. As a South Korean citizen raised outside the peninsula and later drafted into the military, Park weaves in autoethnographic accounts of his own experience in the army to provide an empathetic and vivid analysis of the multiple overlapping layers of violence that shape the embodied experiences of belonging. He asks readers to consider why North Korean resettlement in South Korea is a difficult process, despite a shared goal of reunification and the absence of a language barrier. The book is essential reading for anyone interested in anthropology, migration, and the politics of humanitarianism.
