The Bodyguard Blueprint Lenny Bogdanos,2019-05-25 Are you ready to put other people to work? With this book, we will address the business end of things to be an executive protection entrepreneur and the mind-set you will need to succeed as a person in business. In my first book, The Bodyguard Myth, we looked at the skill set and mind-set you need to be successful as an individual Certified Protection Operator® (CPO). Then we worked on building those skills. In The Bodyguard Blueprint, we will look at the skill set and mind-set of a CEO, the person running a successful executive protection business. We will start by examining the general mind-set and then get down to brass tacks. I will introduce some concepts early on and then expand on them later in more detail.

**Bodyguards** Antony Loveless,2009-08 The role of bodyguard or close protection officer is highly misunderstood. In action films, threats are obvious: ski-mask wearing gunmen fire at the client from a speeding black Suburban truck. In real life, threats may be harder to assess. If a crowd of unarmed protesters blocks the client's access to his or her car as well as the building they are being escorted to, this poses a threat. However, bodyguards have no legal right to use force in a public place unless they are being attacked. Usually bodyguards are the ones who call the police. This interesting new book examines the different types of bodyguard - police, military and civilian; their training; typical roles; the equipment they use; weapons; bodyguards and the law; evasive driving; and life as a bodyguard.

**HowExpert Guide to Bodyguarding: 101 Tips to Learn How to Bodyguard, Improve, and Succeed as an Executive Protection Agent** Howexpert,Cody Blocker,2021-10-15 Many times when people hear the word bodyguard, a certain image forms in their mind. Unfortunately, this image is too often complicated by stereotypes of muscular men in sunglasses and fancy suits shooting handguns as they jump sideways over a car in slow motion. I have never seen this in my experience as a bodyguard. I have seen many years of professionals working day in and day out, committed to protecting innocent people from people who want to harm them. I have witnessed professionalism that has humbled me and inspired me. I had been fortunate enough to work with professionals who I watched be the first to arrive, work all day in stressful environments, and be the last to leave. They are the professionals who work all of the time and are never seen or heard from on camera. They are silent and remain behind the scenes. Every day, more and more threats emerge in our world. Everything from terrorism to rising crime rates continues to make our world more and more dangerous. One thing is for sure, the need for protection and personal security is not going away.
