The Development of Tropes in Arabic Wine Poetry up to the 12th Century AD Nader Masarwah,2019-09-18 This book explores the theory of the evolution of poetic imagery as developed by Joseph Sadan, showing how metaphors were taken over by one poet from another on the basis of existing stores of imagery. It follows the development of the wine imagery used by poets from pre-Islamic times until the days of Abo Nuwas. It deals with how metaphors, especially those used to describe the vessels associated with wine, such as jugs, cups, wine skins and others, evolved over time, and how poets took the imagery used by their predecessors and built on them to create new metaphors.

Maeve in America Maeve Higgins,2018-08-07 "If Tina Fey and David Sedaris had a daughter, she would be Maeve Higgins." —Glamour A startlingly hilarious essay collection about one woman's messy path to finding her footing in New York City, from breakout comedy star and podcaster Maeve Higgins Maeve Higgins was a bestselling author and comedian in her native Ireland when, at the grand old age of thirty-one, she left the only home she'd ever known in search of something more and found herself in New York City. Together, the essays in Maeve in America create a smart, funny, and revealing portrait of a woman who aims for the stars but sometimes hits the ceiling and the inimitable city that helped make her who she is. Here are stories of not being able to afford a dress for the ball, of learning to live with yourself while you're still figuring out how to love yourself, of the true significance of realizing what sort of shelter dog you would be. Self-aware and laugh-out-loud funny, this collection is also a fearless exploration of the awkward questions in life, such as: Is clapping too loudly at a gig a good enough reason to break up with somebody? Is it ever really possible to leave home? "Maeve Higgins is hilarious, poignant, conversational, and my favorite Irish import since U2. You're in for a treat." —Phoebe Robinson

Gender and Sexuality in the European Media Cosimo Marco Scarcelli, Despina Chronaki, Sara De Vuyst, Sergio Villanueva Baselga, 2021-05-25 This edited collection brings together original empirical and theoretical insights into the complex set of relations which exist between age, gender, sexualities and the media in Europe. This book investigates how engagements with media reflect people's constructions and understandings of gender in society, as well as articulations of age in relation to gender and sexuality; the ways in which negotiations of gender and sexuality inform people's practices with media, and not least how mediated representations may reinforce or challenge social hierarchies based in differences of gender, sexual orientation and age. In doing so, it showcases new and innovative research at the forefront of media and communication practice and theory. Including contributions from both established and early career scholars across Europe, it engages with a wide range of hotly debated topics within the context of gender, sexuality and the media, informing academic, public and policy agendas. This collection will be of interest to students and researchers in gender studies, media studies, film and television, cultural studies, sexuality, ageing, sociology and education.

Linguistic Luck Abrol Fairweather, Carlos Montemayor, 2023-05-23 Despite the considerable attention the topic of luck has received in ethics and epistemology, very little has been published in the philosophical literature overtly on linguistic luck. The essays collected here provide the first sustained examination of the diverse forms of linguistic luck, the mechanisms available to reduce the impact of linguistic luck and how to cope with residual luck not eliminated by the causal, inferential, and intentional mechanisms which aim at its eradication. Of primary interest is not some, hitherto unnoticed widespread prevalence of luck in the determinants of meaning and communication, but rather the impressive extent to which luck is reduced or eliminated therein. Whether through causal, inferential or intentional means, the determinants of meaning and communication are impressively independent of luck and chance. In fact, it is difficult to imagine a world with human language where efforts to communicate succeed no better than chance. Linguistic communication is only possible because robust luck reducing variables are at work. The essays collected seek to understand the diversity, scope and mode of operation of luck reducing mechanisms in language. While it is not possible here to cover the full range of linguistic phenomena affected by luck, a wide range of issues in linguistics and philosophy of language are investigated, including, syntax processing, demonstrative reference, conversational implicature, testimony, lexical innovation, joint attention, communicative value, conventionalism vs. anti-conventionalism, metasemantic safety, and semantic skepticism, to name a few.

Intimacy on the Internet Lauren Rosewarne, 2016-04-14 The focus of this book is on the media representations of the use of the Internet in seeking intimate connections—be it a committed relationship, a hook-up, or a community in which to dabble in fringe sexual practices. Popular culture (film, narrative television, the news media, and advertising) present two very distinct pictures of the use of the Internet as related to intimacy. From news reports about victims of online dating, to the presentation of the desperate and dateless, the perverts and the deviants, a distinct frame for the intimacy/Internet connection is negativity. In some examples however, a changing picture is emerging. The ubiquitousness of Internet use today has meant a slow increase in comparatively more positive representations of successful online romances in the news, resulting in more positive-spin advertising and a more even-handed presence of such liaisons in narrative television and film. Both the positive and the negative media representations are categorised and analysed in this book to explore what they reveal about the intersection of gender, sexuality, technology and the changing mores regarding intimacy.

40 Days of Dating Timothy Goodman, Jessica Walsh, 2015-01-20 “What would happen if Harry met Sally in the age of Tinder and Snapchat? . . . A field guide to Millennial dating in New York City” (New York Daily News). When New York-based graphic designers and long-time friends Timothy Goodman and Jessica Walsh found themselves single at the same time, they decided to try an experiment. The old adage says that it takes forty days to change a habit—could the same be said for love? So they agreed to date each other for forty days, record their experiences in questionnaires, photographs, videos, texts, and artworks, and post the material on a website they would create for this purpose. What began as a small experiment between two friends became an Internet sensation, drawing five million unique (and obsessed) visitors from around the globe to their site and their story. *40 Days of Dating: An Experiment* is a beautifully designed, expanded look at the experiment and the results, including a great deal of material that never made it onto the site, such as who they were as friends and individuals before the forty days and who they have become since.

Ladies' Book of Etiquette, and Manual of Politeness Florence Hartley, 1860 Do unto others as you would others should do to you. You can never be rude if you bear the rule always in mind, for what lady likes to be treated rudely? True Christian politeness will always be the result of an unselfish regard for the feelings of others, and though you may err in the ceremonious points of etiquette, you will never be im polite. Politeness, founded upon such a rule, becomes the expression, in graceful manner, of social virtues. The spirit of politeness consists in a certain attention to forms and ceremonies, which are meant both to please others and ourselves, and to make others pleased with us ;a still clearer definition may be given by saying that politeness is goodness of heart put into daily practice; the.re can be no true, politeness without kindness, purity, singleness of heart, and sensibility. Many believe that politeness is but a mask worn in the world to conceal bad passions and impulses, and to make a show of possessing virtues not really existing in the heart; thus, that politeness is merely hypocrisy and dissimulation. Do not believe this; be certain that those who profess such a doctrine are practising themselves the deceit they condemn so much.
