*Straub Brewery* John E. Schlimm II, 2005-09-21 The Straub Brewery was founded in the 1870s by German immigrant Peter Straub. At the age of 19, during the rise in German nationalism, Straub left his home and family in search of the American dream. Today, the Straub Brewery remains one of the oldest breweries in the country and is still owned and operated by its founding family, now into its sixth generation. The Straub Brewery takes great pride in producing Straub beer and the award-winning Straub Light, which are distributed throughout Pennsylvania and parts of Ohio and enjoyed by fans from around the world. Straub Brewery illustrates the evolution of this Pennsylvania landmark business, which has spanned three centuries. From the days when Straub beer was delivered in wooden kegs by horse and buggy to the newest stainless steel kegs that are delivered via semitruck, Straub Brewery takes readers on an unprecedented and thirst-quenching tour of the operation. This pictorial history unearths the Straub family legacy, the brewing process, and the events that have secured the brewery's eternal tap on history.

**True to Form** Christine Gunlogson,2004-06-01 This book is

concerned with the meaning and use of two kinds of declarative sentences: 1) It's raining? 2) It's raining. The difference between (1) and (2) is intonational: (1) has a final rise--indicated by the question mark--while (2) ends with a fall. Christine Gunlogson's central claim is that the meaning and use of both kinds of sentences must be understood in terms of the meaning of their defining formal elements, namely declarative sentence type and rising versus falling intonation. Gunlogson supports that claim through an investigation of the use of declaratives as questions. On one hand, Gunlogson demonstrates that rising and falling declaratives share an aspect of conventional meaning attributable to their declarative form, distinguishing them both from the corresponding polar interrogative (Is it raining?) and constraining their use as questions. On the other hand, since (1) and (2) constitute a

minimal pair, differing only in intonation, systematic differences in character and function between them--in particular, the relative naturalness of (1) as a question compared to (2) --must be located in the contrast between the fall and the rise. To account for these two sets of differences, Gunlogson gives a compositional account of rising and falling declaratives under which declarative form expresses commitment to the propositional content of the declarative. Rising versus falling intonation on declaratives is responsible for attribution of the commitment to the Addressee versus the Speaker, respectively. The result is an inherent contextual bias associated with declaratives, which constitutes the crucial point of difference with interrogatives. The compositional analysis is implemented in the framework of context update semantics (Heim 1982 and others), using an articulated version of the Common Ground (Stalnaker 1978) that distinguishes the commitments of the individual discourse participants. Restrictions on the use of declaratives as questions, as well as differences between rising and falling declaratives as questions, are shown to follow from this account. Gunlogson argues that neither rising nor falling declaratives are inherently questioning--rather, the questioning function of declaratives arises through the interaction of sentence type, intonation, and context.

**Connecticut Beer** Will Siss, 2015-04-27 The history of the frothy beverage in Connecticut dates back to early colonists, who used it to quench their thirst in the absence of clean drinking water. So integral was beer to daily life in the colony that government officials and militiamen congregated in taverns like the General Wolfe to talk laws and business over pints of ale. Over the next two centuries, the number of breweries rose and then declined, especially after Prohibition. It was not until the 1980s that homebrewers brought this

vital Nutmeg State tradition back to life, hatching the likes of New England and Cottrell Brewing Companies, as well as brewpubs including City Steam and Southport Brewing. More recently, small operations with one or two people, such as Relic and Beer'd, are changing the landscape again. Connecticut beer writer Will Siss introduces readers to the hardworking people who keep the breweries and beer bars inviting and the hoppy history alive.

**Beer** Paul S Hughes,E Denise Baxter,2019-05-02 For centuries, beer has been a favourite drink throughout the world. The art of brewing has more recently evolved into the science it is today as a result of the increased knowledge of both the ingredients and the process. Considerations such as appearance, taste and the nutritional value of beer are important topics for consumers and brewing scientists alike. This book looks at the chemistry behind those aspects of beer that are of particular interest to beer drinkers, namely flavour and nutritional aspects, in combination with a discussion of maintenance of quality and safety, the areas more relevant to the brewing scientist. **Beer: Quality, Safety and Nutritional Aspects** brings the reader right up to date with current thinking, and will be valued by both interested consumers and those employed in industries related to the brewing industry.

Alaska Beer Bill Howell,2015-05-11 Alaska's fermented legacy retains the fiercely independent spirit that propelled the state's beer drinkers through the gold rush and sustained them through Prohibition. Today, craft brewers produce outstanding suds in some of the harshest and most remote locations on the planet. And while the beer scene in Alaska has roots that trace back to days when spirits had to have medicinal, mechanical, and scientific purposes, the contemporary crop of breweries can thank industry pioneers like the Alaskan Brewing Company for staying on the cutting edge of beer-making technology.
