Triathlon for Beginners Dan Golding, 2012-07-08 Are you thinking about getting into triathlon or doing your first race? Have you finished a couple of races and are keen to improve your time? Do you find the whole sport daunting and confusing? Are you a little intimidated by everybody else who looks like they know what they are doing? This easy to understand and insightful book is packed with practical ways you can improve and it will help you: -Understand the sport of triathlon what is triathlon and how does it work? -Develop a training plan together that simplifies your season -Train effectively so you minimise the risk of getting injured -Stop you making the mistakes which cost a lot of time and money -Make you feel confident when you are on the start line -Decide what race length is best for you from sprint to Ironman -Buy the right triathlon kit to suit your ability and your aspirations A personal note from the author: This book is gathered from years of training and racing but not only from my triathlon experience but from the experience of champions. I have trained with and raced with elite athletes and winners from all over the world but I started not knowing what I was doing and was scared to death when I did my first race. I wish I had this book when I started out. I would have saved myself a lot of heart ache and stress! I wrote this to help all triathlon rookies get over their nerves and enjoy this fantastic sport. Triathlon for beginners is the start to finish complete guide which covers all the areas of training and racing including: -Where to start - types of races, what you need to know and where to begin -Jargon buster - helping you understand the terms of the sport so you can understand what people are talking about when they say T1 or Brick! -Training rules and techniques -Swimming technique and etiquette -Running technique and how to prevent injury and run faster -Cycling in a pack what to do and what not to do -Transition - how to lay it out, what to bring and how to be effective -Understanding nutrition and why it is key, how best to manage your nutrition and what is best to eat for triathlon training and racing -Race day - what to look out for, how to prepare and what to expect This guide takes you from start to finish so you can feel confident and comfortable when you train and race. Here are some of the comments we have had from readers... I loved this book! I have completed a few triathlons- sprint and Olympic distance. This book really simplified what is important to focus on. There is so much to know and learn that sometimes you feel overwhelmed. It is an easy, entertaining read but packed with good knowledge that made a big difference to my racing. Charlotte Campbell, World Games triathlon gold medallist I wish this was around before! I did a number of Triathlons over the last few years. When I first took it up I had to ask people's advice which at best was disjointed and worst, confusing. I also read some very good stuff on the internet, however this was also disjointed and incomplete. This book would have been ideal, as it puts it all together clearly and concisely. Liam Harrington; sprint triathlete

80/20 Triathlon Matt Fitzgerald, David Warden, 2018-09-18 A breakthrough program for triathletes -- beginner, intermediate, and advanced -- showing how to balance training intensity to maximize performance -- from a fitness expert and elite coach. Cutting-edge research has proven that triathletes and other endurance athletes experience their greatest performance when they do 80 percent of their training at low intensity and the remaining 20 percent at moderate to high intensity. But the vast majority of recreational triathletes are caught in the so-called moderate-intensity rut, spending almost half of their time training too hard--harder than the pros. Training harder isn't smarter; it actually results in low-grade chronic fatigue that prevents recreational athletes from getting the best results. In 80/20 Triathlon, Matt Fitzgerald and David Warden lay out the real-world and scientific evidence, offering concrete tips and strategies, along with complete training plans for every distance--Sprint, Olympic, Half-Ironman, and Ironman--to help athletes implement the 80/20 rule of intensity balance. Benefits include reduced fatigue and injury risk, improved fitness, increased motivation, and better race results.

A Beginner's Guide to Marathon Training (Running, Training, Fitness) Jasmine Evans, 2012-02-24 ABOUT THE BOOK So, you want to run a marathon? Everyone who makes the decision to run a marathon has their own reasons. Maybe you want to train for a particular race. Or maybe you want to lose weight. Or perhaps you just want to try a new form of exercise. Or, or, or...the list goes on and on. If you are a beginner and you have made the lofty decision to train to run a marathon, then this is the guide for you. Are you a beginner? For this guide, if you cannot yet run for 30 minutes straight, you are a beginner. If you cannot run 30 minutes or cannot run for just 10 minutes, don't worry, you will get there soon. This guide will also be helpful for people who are in shape but do not run. For instance, if you have been doing martial arts for years, consider yourself physically fit, and do not run, you can still benefit from this guide. Running can have all sorts of benefits. One of the most common benefits is the possibility of weight loss. Combined with healthy eating, running is a great way to lose excess body fat. MEET THE AUTHOR Jasmine

Evans is a graduate of Princeton University who has been writing fiction and nonfiction on and off since the 8th grade. At Princeton, she majored in Sociology and minored in African-American Studies. She currently writes for two blogs--one about education and the other about job hunting. For fun, Jasmine likes to read, exercise, and play with her bunny Penelope. EXCERPT FROM THE BOOK There are all kinds of fancy gadgets out there for runners. From devices that go in your shoe to track your movements to running pants with reflectors on them for those who run at night, there are so many things you could buy that it can be a little overwhelming. The most important piece of running equipment you buy are the shoes. Beat up shoes you pull from the back of your closet will not work. Tennis shoes or shoes made for fashion will not work either. You need a good pair of running shoes that will support your feet and ankles. (Active.com, Basic Gear for a Beginning Runner) It is also not as simple as going to your nearest shoe store and picking out the prettiest running shoe. There are three different kinds of running shoes... Buy a copy to keep reading!
