Ali Humayun Akhtar

The People's Republic of China Today Zhiqun Zhu, 2011 Despite the significant progress it had achieved in the past 60 years, especially in the past 30 years since Deng Xiaoping's reform initiatives in the late 1970s, China faces daunting challenges today. These challenges include, among others, a rigid political system that does not match economic vibrancy, uneven economic growth and widening income gap, a graying population, environmental degradation, potential social instability, ethnic tensions and separatist movement, poor international image, and military modernization. Based on papers originally presented at an international conference held at Bucknell University in Pennsylvania to mark the 60th anniversary of the People's Republic of China (PRC), this book provides an up-to-date, comprehensive, and authoritative assessment of the PRC's political, economic, social, ethnic, energy, security, military, diplomatic and other developments and challenges today. Contributed by scholars and experts in political science, international relations, economics, public administration, history, mass communication, psychology, and diplomacy, the book focuses on the efforts needed by China to grow in a sustainable manner and to become a respected global power. With each chapter addressing a different and yet an inter-related issue of the PRC's development, this book aims to make a significant contribution to the understanding of key challenges the country faces today as it strives to become a global power.

Being Modern in China Paul Willis, 2019-11-13 This book analyses modernity and tradition in China today and how they combine in striking ways in the Chinese school. Paul Willis – the leading ethnographer and author of *Learning to Labour* – shows how China has undergone an internal migration

not only of masses of workers but also of a mental and ideological kind to new cultural landscapes of meaning, which include worship of the glorified city, devotion to consumerism, and fixation upon the smartphone and the internet. Massive educational expansion has been a precondition for explosive economic growth and technical development, but at the same time the school provides a cultural stage for personal and collective experience. In its closed walls and the inescapability of its 'scores', an astonishing drama plays out between the new and the old, with a tapestry of intricate human meanings woven of small tragedies and triumphs, secret promises and felt betrayals, helping to produce not only exam results but cultural orientations and occupational destinies. By exploring the cultural dimension of everyday experience as it is lived out in the school, this book sheds new light on the enormous transformations that have swept through China and created the kind of society that it is today: a society that is obsessed with the future and at the same time structured by and in continuous dialogue with its past.

Beijing Doll Chun Sue, 2004-08-03 Banned in China for its candid exploration of a young girl's sexual awakening yet widely acclaimed as being the first novel of 'tough youth' in China (Beijing Today), Beijing Doll cuts a daring path through China's rock-and-roll subculture. This cutting edge novel -- drawn from the diaries the author kept throughout her teenage years -- takes readers to the streets of Beijing where a disaffected generation spurns tradition for lives of self expression, passion, and rock-and-roll. Chun Sue's explicit sensuality, unflinching attitude towards sex, and raw, lyrical style break new ground in contemporary Chinese literature.

Political Participation in Beijing Tianjian Shi, 1997 In this first scientific survey of political participation in the People's Republic of China, Tianjian Shi identifies twenty-eight participatory acts and groups them into seven areas: voting, campaign activities, appeals, adversarial activities, cronyism, resistance, and boycotts. What he finds will surprise many observers. Political participation in a closed society is not necessarily characterized by passive citizens driven by regime mobilization aimed at carrying out predetermined goals. Beijing citizens acknowledge that they actively engage in various voluntary participatory acts to articulate their interests. In a society where communication channels are controlled by the government, Shi discovers, access to information from unofficial means becomes the single most important determinant for people's engaging in participatory acts. Government-sponsored channels of

appeal are easily accessible to ordinary citizens, so socioeconomic resources are unimportant in determining who uses these channels. Instead, voter turnout is found to be associated with the type of work unit a person belongs to, subjective evaluations of one's own economic status, and party affiliation. Those most likely to engage in campaign activities, adversarial activities, cronyism, resistance, and boycotts are the more disadvantaged groups in Beijing. While political participation in the West fosters a sense of identification, the unconventional modes of participation in Beijing undermine the existing political order.

The People's Republic of China Today ,

Dharamsala and Beijing Claude Arpi, In October 1950, Communist China invaded Tibet. After nine years of difficult co-habitation with the occupiers, the Dalai Lama, the young temporal and spiritual leader of the Tibetans, had no choice but to flee his country to take refuge in India. It took 20 years for the Tibetans to renew a dialogue with the leaders in Beijing. Soon after Deng Xiaoping's return to power in 1978, the first contacts were made. Using rare documents, this is the story of thirty years of encounters between the Tibetan Administration in Dharamsala and Beijing. Today the stalemate continues; Beijing refuses to offer any sort of concession to the Dalai Lama's demand for a genuine autonomy for Tibet. Just like the border 'talks' between India and China, the negotiations with Dharamsala have never really started. Reading through this book one understands how the relations between India and China are inextricably linked to the status of Tibet. Further, the present unrest in Tibet renders China unstable and increasingly belligerent towards India which gave refuge to the Tibetans.

Beijing Linda Jaivin, 2014-05-15 Reaktion's new CityScopes series consists of concise, illustrated guides

that provide a social and urban history from a city's beginnings to the present day. Written by authors with unique and intimate knowledge of each city, these books offer fascinating vignettes on the quintessential and the quirky. In the first book of the series, Linda Jaivin explores a city at the heart of one of the world's oldest civilizations and the capital of its newest superpower—Beijing. In China's central city, Jaivin finds thousands of years of history dating back to our ancestors, a story that includes dynastic empires, sieges, massacres, rebellions, and political spectacle. Recounting the lively history of the city, Jaivin discovers the Peking Man and the capital's many legendary incarnations, such as the Cambaluc that Marco Polo wrote about in awe. She reveals it to be full of charismatic personalities and dramatic events, a place that has produced some of China's most iconic works of literature, theater, and music. She also offers thought-provoking essays on contemporary topics ranging from the elemental problems of air and water to the vibrant art scene and the architectural adventurism of the city's "hyperbuildings." Generously illustrated, this guide provides helpful maps and suggested itineraries as well as practical recommendations for hotels, restaurants, museums, and other sites. Taking readers to lakeshores, down into the subway, and around the bustling art districts, Beijing is the ultimate introduction to this extraordinary city for travelers and armchair explorers alike.

1368 Ali Humayun Akhtar, 2022-07-12 A new picture of China's rise since the Age of Exploration and its historical impact on the modern world. The establishment of the Great Ming dynasty in 1368 was a monumental event in world history. A century before Columbus, Beijing sent a series of diplomatic missions across the South China Sea and Indian Ocean that paved the way for China's first modern global

era. 1368 maps China's ascendance from the embassies of Admiral Zheng He to the arrival of European mariners and the shock of the Opium Wars. In Ali Humayun Akhtar's new picture of world history, China's current rise evokes an earlier epoch, one that sheds light on where Beijing is heading today. Spectacular accounts in Persian and Ottoman Turkish describe palaces of silk and jade in Beijing's Forbidden City. Malay legends recount stories of Chinese princesses arriving in Melaka with gifts of porcelain and gold. During Europe's Age of Exploration, Iberian mariners charted new passages to China, which the Dutch and British East India Companies transformed into lucrative tea routes. But during the British Industrial Revolution, the rise of steam engines and factories allowed the export of the very commodities once imported from China. By the end of the Opium Wars and the arrival of Commodore Perry in Japan, Chinese and Japanese reformers called for their own industrial revolutions to propel them into the twentieth century. What has the world learned from China since the Ming, and how did China reemerge in the 1970s as a manufacturing superpower? Akhtar's book provides much-needed context for understanding China's rise today and the future of its connections with both the West and a resurgent Asia.

Today Hong Kong, Tomorrow the World Mark L. Clifford, 2022-02-01 A gripping history of China's deteriorating relationship with Hong Kong, and its implications for the rest of the world. For 150 years as a British colony, Hong Kong was a beacon of prosperity where people, money, and technology flowed freely, and residents enjoyed many civil liberties. In preparation for handing the territory over to China in 1997, Deng Xiaoping promised that it would remain highly autonomous for fifty years. An international treaty established a Special Administrative Region (SAR) with a far freer political system than that of

Communist China—one with its own currency and government administration, a common-law legal system, and freedoms of press, speech, and religion. But as the halfway mark of the SAR's lifespan approaches in 2022, it is clear that China has not kept its word. Universal suffrage and free elections have not been instituted, harassment and brutality have become normalized, and activists are being jailed en masse. To make matters worse, a national security law that further crimps Hong Kong's freedoms has recently been decreed in Beijing. This tragic backslide has dire worldwide implications—as China continues to expand its global influence, Hong Kong serves as a chilling preview of how dissenters could be treated in regions that fall under the emerging superpower's control. Today Hong Kong, Tomorrow the World tells the complete story of how a city once famed for protests so peaceful that toddlers joined grandparents in millions-strong rallies became a place where police have fired more than 10,000 rounds of tear gas, rubber bullets and even live ammunition at their neighbors, while pro-government hooligans attack demonstrators in the streets. A Hong Kong resident from 1992 to 2021, author Mark L. Clifford has witnessed this transformation firsthand. As a celebrated publisher and journalist, he has unrivaled access to the full range of the city's society, from student protestors and political prisoners to aristocrats and senior government officials. A powerful and dramatic mix of history and on-the-ground reporting, this book is the definitive account of one of the most important geopolitical standoffs of our time.

Remains of the Everyday Joshua Goldstein, 2020-12-22 Remains of the Everyday traces the changing material culture and industrial ecology of China through the lens of recycling. Over the last century, waste recovery and secondhand goods markets have been integral to Beijing's economic functioning and cultural

identity, and acts of recycling have figured centrally in the ideological imagination of modernity and citizenship. On the one hand, the Chinese state has repeatedly promoted acts of voluntary recycling as exemplary of conscientious citizenship. On the other, informal recycling networks—from the night soil carriers of the Republican era to the collectors of plastic and cardboard in Beijing’s neighborhoods today—have been represented as undisciplined, polluting, and technologically primitive due to the municipal government’s failure to control them. The result, Joshua Goldstein argues, is the repeatedly re-inscribed exclusion of waste workers from formations of modern urban citizenship as well as the intrinsic liminality of recycling itself as an economic process.

Chutzpah! Ou Ning, Austin Woerner, 2015-09-10 To Westerners China has often seemed a monolith, speaking with one voice—whether that of an ancient dynasty, a socialist state, or an economic powerhouse. *Chutzpah! New Voices from China* shatters this illusion, giving Western readers a rare chance to listen to the brilliant polyphony of Chinese fiction today. Here, in the realms of realism and fantasy, and portraying worlds lyrical, gritty, or wildly avant-garde, sixteen selections—three of which are nonfiction—by up-and-coming Chinese writers take readers from the suburbs of Nanjing to the mountains of Xinjiang Province, from London’s Chinatown to a universe seemingly sprung from a video game. In these stories one may encounter a sweet, lonely fabric store owner or a lesbian housecleaner, a posse of shit-talking vo-tech students or a human hive-mind. A jeep-driving swordsman girds himself for battle by reading Borges and Nabokov. A Beijing-raised Kazakh boy hunts for his lost heritage. A teenager plots revenge on the bureaucrat responsible for demolishing his home. A starving child falls in love with a water spirit. These

stories, collected by Ou Ning and Austin Woerner, and offered in English by leading translators of Chinese, travel the breadth and depth of China's remarkable literary landscape. Drawn from the pages of Chutzpah!, one of China's most innovative literary magazines, this anthology bids farewell to the tired tropes of moonlight and peach blossoms, goodbye to the constraints of socialist realism. In their place it introduces us to the imaginative power, boundless creativity, and kaleidoscopic diversity of a new generation of Chinese fiction.

The Chinese Family Today Anqi XU, John DeFrain, Wenrong LIU, 2016-11-10 The Chinese economy is undergoing dramatic changes and the world is watching and changing along with it. The Chinese family is also changing in many ways in response to the economic transformation that is moving the world's most populous nation from an agrarian economy to a global superpower. This is the first book in English to describe and explain the social transformation of the Chinese family from the perspective of Chinese researchers. Presenting a comprehensive view of the Chinese family today and how it has adapted during the process of modernization, it provides description and analysis of the trajectory of changes in family structures, functions, and relationships. It tracks how Chinese marriages and families are becoming more diverse and face a great deal of uncertainty as they evolve in different ways from Western marriages and families. The book is also unique in its use of national statistics and data from large-scale surveys to systematically illustrate these radical and extraordinary changes in family structure and dynamics over the past 30 years. Demonstrating that the de-institutionalization of family values is a slow process in the Chinese context, this book will be of interest to students and scholars of Chinese Studies, Sociology, Social Policy and

Family Policy.

The Road to Sleeping Dragon Michael Meyer, 2017-10-10 From the highly praised author of *The Last Days of Old Beijing*, a brilliant portrait of China today and a memoir of coming of age in a country in transition. In 1995, at the age of twenty-three, Michael Meyer joined the Peace Corps and, after rejecting offers to go to seven other countries, was sent to a tiny town in Sichuan. Knowing nothing about China, or even how to use chopsticks, Meyer wrote Chinese words up and down his arms so he could hold conversations, and, per a Communist dean's orders, jumped into teaching his students about the Enlightenment, the stock market, and Beatles lyrics. Soon he realized his Chinese counterparts were just as bewildered by China's changes as he was. Thus began an impassioned immersion into Chinese life. With humor and insight, Meyer puts readers in his novice shoes, introducing a fascinating cast of characters while winding across the length and breadth of his adopted country --from a terrifying bus attack on arrival, to remote Xinjiang and Tibet, into Beijing's backstreets and his future wife's Manchurian family, and headlong into efforts to protect China's vanishing heritage at places like Sleeping Dragon, the world's largest panda preserve. In the last book of his China trilogy, Meyer tells a story both deeply personal and universal, as he gains greater – if never complete – assurance, capturing what it feels like to learn a language, culture and history from the ground up. Both funny and relatable, *The Road to Sleeping Dragon* is essential reading for anyone interested in China's history, and how daily life plays out there today.

China's Foreign Policy Stuart Harris, 2014-07-02 China's inexorable rise as a major world power is one of the defining features of the contemporary political landscape. But should we heed the warnings of a so-

called 'China threat?' Is China set to become the next superpower? Or will its ambitions be tempered by economic and political realities both at home and abroad? In this insightful and balanced analysis, noted China expert Stuart Harris explores China's present foreign policy and its motivations, focusing in particular on the extent to which China will co-operate with the West in years to come. He considers what factors, international or domestic, will influence the foreign policies being shaped in Beijing, including how far the Chinese regime will adhere to existing global norms and the evolving international system. In contemplating this uncertain future, Harris assesses the considerable challenges and vulnerabilities likely to impact on Chinese foreign policy, leading it to be cautious and hesitant or assertive and aggressive on the international stage. Concise and authoritative, this book will be essential reading for anyone seeking a clearer understanding of the international relations of one of the world's most important powers.

Dragon Rising Jasper Becker, 2006 Jasper Becker's book, *The Chinese*, was hailed as the best single-volume introduction to this enormous, inscrutable society. Vividly illustrated with photographs that capture the paradox of an ancient culture remaking itself into a dynamic consumer society, this volume is a well-rounded, wide-ranging portrait of China's problems and prospects.

In Line Behind a Billion People Damien Ma, William Adams, 2014 The authors set out each of the scarcities that could limit China's power and stall its progress. Beyond scarcities of natural resources and public goods, they explore China's persistent poverties of individual freedoms, institutions, and ideological appeal--and the corrosive loss of values among a growing middle class shackled by a parochial and inflexible political system.

India's China Challenge Ananth Krishnan, 2020-12-09 Ananth Krishnan first moved to China in the summer of 2008. In the years that followed, he had a ringside view of the country's remarkable transformation. He reported from Beijing for a decade, for the India Today and The Hindu. This gave him a privileged opportunity that few Indians have had -- to travel the length and breadth of the country, beyond the glitzy skyscrapers of Shanghai and the grand avenues of Beijing that greet most tourists, to the heart of China's rise. This book is Krishnan's attempt at unpacking India's China challenge, which is four-fold: the political challenge of dealing with a one-party state that is looking to increasingly shape global institutions; the military challenge of managing an unresolved border; the economic challenge of both learning from China's remarkable and unique growth story and building a closer relationship; and the conceptual challenge of changing how we think about and engage with our most important neighbour. India's China Challenge tells the story of a complex political relationship, and how China -- and its leading opinion-makers -- view India. It looks at the economic dimensions and cultural connect, and the internal political and social transformations in China that continue to shape both the country's future and its relations with India.
