The Domain of Language Michael D. Fortescue,2002 This book is intended as counter-evidence to the perception of Linguistics as the domain of dusty schoolroom grammar, where proponents of one theoretical orientation or the other spend their brief breaks in the playground bashing the others over the head with their favorite abstractions. The discipline may appear to outsiders as fragmented and, worse still, lacking in relevance to the real world outside its gates. The purpose is to show that Linguistics, in all its varied branches, can be entertaining as well as thought-provoking, and that its domain is indeed a coherent one despite all the internecine squabbling. The subject is introduced in an unconventional way as a kind of fable with an historical moral that professional linguists, as well as students, should enjoy as a commentary on the state of the discipline today.

**The Catacombs of Rome and Their Testimony Relative to Primitive Christianity** William Henry Withrow,1876 The present work, it is hoped, will supply a want long felt in the literature of the Catacombs. That literature, it is true, is very voluminous; but it is for the most part locked up in rare and costly folios in foreign languages, and inaccessible to the general reader. Recent discoveries have refuted some of the theories and corrected many of the statements of previous books in English on this subject; and the present volume is the only one in which the latest results of exploration are fully given, and interpreted from a Protestant point of view. The writer has endeavored to illustrate the subject by frequent pagan sepulchral inscriptions, and by citations from the writings of the Fathers, which often throw much light on the condition of early Christian society. The value of the work is greatly enhanced, it is thought, by the addition of many hundreds of early Christian inscriptions carefully translated, a very large proportion of which have never before appeared in English. Those only who have given some attention to epigraphical studies can conceive the difficulty of this part of the work. The defacements of time, and frequently the original imperfection of the inscriptions and the ignorance of their writers, demand the utmost carefulness to avoid errors of interpretation. The writer has been fortunate in being assisted by the veteran scholarship of the Rev. Dr. McCaul, well known in both Europe and America as one of the highest living authorities in epigraphical science, under whose critical revision most of the translations have passed. Through the enterprise of the publishers this work is more copiously illustrated, from original and other sources, than any other work on the subject in the language; thus giving more correct and vivid impressions of the unfamiliar scenes and objects delineated than is possible by any mere verbal description. References are given, in the foot-notes, to the principal authorities quoted, but specific acknowledgment should here be made of the author's indebtedness to the Cavaliere De Rossi's Roma Sotterranea and Inscriptiones Christianae, by far the most important works on this fascinating but difficult subject. Believing that the testimony of the Catacombs exhibits, more strikingly than any other evidence, the immense contrast between primitive Christianity and modern Romanism, the author thinks no apology necessary for the somewhat polemical character of portions of this book which illustrate that fact. He trusts that it will be found a contribution of some value to the historical defense of the truth against the corruptions and innovations of Popish error.

Noi figli di quel tempo Basilio Rovito,2020-12-03 In un piccolo centro rurale calabrese, abitato da meno di mille anime in provincia di Vibo Valentia, sorge Cessaniti, teatro delle vicende narrate dall'autore tra gli anni settanta e ottanta del secolo scorso. Il libro si sviluppa in 19 episodi che rievocano frammenti di vita passata in un luogo ricco di storia e di tradizioni, in cui emergono stili di vita, cultura, sollazzi e modalità di trascorrere il tempo di un preciso periodo storico geografico. Il punto di vista dell'autore emerge nel raccontare vicende e personaggi che condividevano lo stesso spazio, narrazioni messe a confronto con la generazione contemporanea, dove la genuinità dei racconti emerge con l'utilizzo continuo di espressioni dialettali che fortificano il contenuto. Uno scorcio di vita in cui ogni lettore si può immedesimare, in quanto nonostante i luoghi di ambientazione siano diversi, la modalità di trascorrere il tempo si richiama, poiché il filo rosso che li accomuna è dato dall'influenza del tempo in cui si vive, privo di tecnologia e di accesso informativo. Si può affermare che i gruppi "social" erano le donne appostate fuori dalla porta di casa, i giochi erano esplorazione della natura e dello spazio reale, gli educatori erano gli anziani vicini di casa, lo sport era vita all'aria aperta. L'idea di insieme è quella di un viaggio nel tempo accompagnati dall'autore, un contemporaneo Virgilio di cui Dante potrebbe essere il lettore, ove è posta particolare attenzione alla descrizione di un territorio poco conosciuto nei suoi valori e nella sua reale identità.

The Culture Factory Walter Santagata,2010-08-25 “Where are your factories that produce culture? Where are your painters, your composers, your architects, your writers, your filmmakers?” The book opens with Leonardo da Vinci and Qin Shi Huang asking embarrassed contemporary policy makers these questions. The first part of the book is therefore devoted to elaborating a model for producing culture. The model takes into account both the role played by creativity in the production of culture in a technologically advanced knowledge society. The second part of the book examines a selection of strategic sectors: fashion, material culture districts, gastronomy, creative industries, entertainment, contemporary art, museums. Special attention is paid to the role collective intellectual property rights play in increasing the quality of culture-based goods and services. In the conclusion policy makers in both developed and developing countries are urged to adopt policies that can foster creativity and promote culture.
