Projective Ecologies Chris Reed, Nina-Marie Lister, 2020-04-30 The past two decades have witnessed a resurgence of ecological ideas and ecological thinking in discussions of urbanism, society, culture, and design. The field of ecology has moved from classical determinism and a reductionist Newtonian concern with stability, certainty, and order in favor of more contemporary understandings of dynamic systemic change and the related phenomena of adaptability, resilience, and flexibility. But ecology is not simply a project of the natural sciences. Researchers, theorists, social commentators, and designers have all used ecology as a broader idea or metaphor for a set of conditions and relationships with political, economic, and social implications. *Projective Ecologies* takes stock of the diversity of contemporary ecological research and theory--embracing Felix Guattari's broader definition of ecology as at once environmental, social, and existential--and speculates on potential paths forward for design practices.

Where are ecological thinking and theory now? What do current trajectories of research suggest for future practice? How can advances in ecological research and modeling, in social theory, and in digital visualization inform, with greater rigor, more robust design thinking and practice? How does all of this point to potential paths forward in an age of climate change and the need for adaptation and mitigation? With Contributions of: Jesse M. Keenan, foreword to the second edition Charles Waldheim, foreword to the first edition James Corner Christopher Hight C.S. Holling and M.A. Goldberg Wenche E. Dramstad, James D. Olson, and Richard T.T. Forman Daniel Botkin Erle C. Ellis Jane Wolff Robert E. Cook Peter Del Tredici David Fletcher Frances Westley and Katharine McGowan Sean Lally Sanford Kwinter

Geronimo and the Gold Medal Mystery Geronimo Stilton, 2011-11-01 In this funny chapter book from the bestselling middle grade adventure series, a world traveling journalist mouse solves a mystery at the Olympic games. I, Geronimo Stilton, am not a sportsmouse. Running? Sweating? Not for me. I prefer relaxing in an armchair with a nice bowl of chocolate cheesy chews. But with the Olympics coming up, sports were all anyone in New Mouse City could talk about. Rat-munching rattlesnakes! Then I was assigned to travel to Greece to report on the Olympic games and I sniffed a mysterious adventure in the making. And holey cheese, was I right! Praise for Geronimo Stilton's books: "Lightning pace and full-color design will hook kids in a flash."

The Jewish Enemy Jeffrey Herf, 2008-04-30 The sheer magnitude of the Holocaust has commanded our attention for the past sixty years. The extent of atrocities, however, has overshadowed the calculus Nazis used to justify their deeds. According to German wartime media, it was German citizens who were targeted for extinction by a vast international conspiracy. Leading the assault was an insidious, belligerent Jewish clique, so crafty and powerful that it managed to manipulate the actions of Roosevelt, Churchill, and Stalin. Hitler portrayed the Holocaust as a defensive act, a necessary move to destroy the Jews before they destroyed Germany. Joseph Goebbels, Minister

of Propaganda, and Otto Dietrich's Press Office translated this fanatical vision into a coherent cautionary narrative, which the Nazi propaganda machine disseminated into the recesses of everyday life. Calling on impressive archival research, Jeffrey Herf recreates the wall posters that Germans saw while waiting for the streetcar, the radio speeches they heard at home or on the street, the headlines that blared from newsstands. The Jewish Enemy is the first extensive study of how anti-Semitism pervaded and shaped Nazi propaganda during World War II and the Holocaust, and how it pulled together the diverse elements of a delusory Nazi worldview. Here we find an original and haunting exposition of the ways in which Hitler legitimized war and genocide to his own people, as necessary to destroy an allegedly omnipotent Jewish foe. In an era when both anti-Semitism and conspiracy theories continue to influence world politics, Herf offers a timely reminder of their dangers along with a fresh interpretation of the paranoia underlying the ideology of the Third Reich.

Translating for Children Ritta Oittinen, 2002-06 Translating for Children is not a book on translations of children's literature, but a book on translating for children. It concentrates on human action in translation and focuses on the translator, the translation process, and translating for children, in particular. Translators bring to the translation their cultural heritage, their reading experience, and in the case of children's books, their image of childhood and their own child image. In so doing, they enter

into a dialogic relationship that ultimately involves readers, the author, the illustrator, the translator, and the publisher. What makes Translating for Children unique is the special attention it pays to issues like the illustrations of stories, the performance (like reading aloud) of the books in translation, and the problem of adaptation. It demonstrates how translation and its context takes precedence can take over efforts to discover and reproduce the original author's intentions. Rather than the authority of the author, the book concentrates on the intentions of the readers of a book in translation, both the translator and the target-language readers.

From Morning to Midnight Georg Kaiser, 2013-11-18 From Morning To Midnight, among the most frequently performed German Expressionist works, charts the life of a cashier who steals money from the bank and flees to Berlin. The unnamed protagonist's bid to escape his middle-class daily life is ultimately frustrated. It is a popular piece in which Kaiser satirized the cheapness and futility of modern society. His hero, a kind of machine-age Everyman, searches everywhere for some kind of fulfilment - in commercial sex, in salvationist religion - but discovers through a series of nightmarish episodes that the world is deceitful and illusory. In the end, disillusioned and pursued by the police, he takes his own life. This new version by Dennis Kelly, opened at the National Theatre's Lyttelton Theatre in November 2013, as part of the National's 50th Anniversary Season.

The Emperor, C'est Moi Hugo Horiot, 2015-04-28 Hugo Horiot is in love with wheels and all that cranks or turns. He is obsessed with the otherworldly language of pipes—they run, he imagines, from his family home to the center of the earth. He causes endless trouble at home and hates school. He muses: “I dream asleep, I dream awake”—but he dreams so hard he shuts out the world

with reveries that are not just curious but dangerous and painful too. School is a prison he must escape, his teachers oppressors, and his classmates “a band of jolly torturers.” This is the portrait of a boy who might happen to suffer from autism, but who is also a beautiful rebel inspired to blaze his own path through childhood to find an enduring sense of personal freedom.

Home Girl Alex Wheatle, 2019-12-20 Wheatle has delivered a definitive narrative steeped in cultural philosophy and human sensibilities. Despite the foibles of his tragic characters, a redemptive quality is present--persevering--a testament of the human will to survive against all odds...Highly recommended. --Kaieteur News (Guyana) With a tough exterior and brash attitude, Naomi is an authentic character in an unfortunate yet accurate picture of modern-day foster care in the UK...The ending is neither predictable nor sugarcoated, leaving readers rooting for this determined heroine. --School Library Journal Included in In the Margins's 2020 Recommended Fiction List Included in Publishers Weekly's African-American Interest Young Readers's Titles, 2019-2020 Included in Booklist's Fall 2019 Youth Preview Included in Publishers Weekly's Fall 2019 Children's Sneak Previews As politicians might only see the population's day-to-day lives in terms of statistics rather than experiences, (knowing how many people work on minimum wage doesn't say anything about what the experience is like), they might benefit from more of an insight. A useful contemporary novel they should pick up is Alex Wheatle's *Home Girl*, focusing on the experience of a

girl in the foster care system who is constantly shifted around and can never find a permanent home. Wheatle's other books might be just as beneficial, as he draws on his own experiences of Brixton and the social system. --The Boar, included in The Politicians' Required Reading List Wheatle returns to the world of his award-winning Crongton books with what Atom is calling his most powerful and personal novel yet. Naomi Brisset is a teenage girl growing up too fast in the UK care system. Her journey through a series of foster homes exposes the unsettling, often heartwrenching truth of this life. Yet despite the grit, Wheatle's writing is as rich and warm as ever, bringing courage and hope to an unforgettable heroine's story. --Bookseller (UK), Editors' Choice Teenager Naomi, old before her time and as vulnerable as she is fierce, is growing up in the care system. Foster homes and pupil referral units revealing the unsettling, often bewildering reality of this existence. Wheatle's empathy, authentic characters, and rich dialogue illuminate the dark. --Observer Magazine (UK) Another powerful and poignant novel deftly created by one of the most prolific master novelists on either side of the pond. Home Girl is a page-turner, with not a dull moment. Loved it from the rooter to the tooter. --Eric Jerome Dickey, New York Times best-selling author of Before We Were Wicked Alex Wheatle's latest novel offers no unrealistic fairy tale happy ending. But the award-winning writer, who draws on his own experiences of a childhood in care, does offer some hope for Naomi, a sometimes difficult but very likeable heroine. --Irish News,

Children's Book of the Week This isn't my home. Haven't had a proper home since...This is just somewhere I'll be resting my bones for a week and maybe a bit. This time next year you'll forget who I am. I haven't got a diddly where I'll be by then. But I'm used to it. New from the best-selling black British author Alex Wheatle, *Home Girl* is the story of Naomi, a teenage girl growing up fast in the foster care system. It is a wholly modern story which sheds a much-needed light on what can be an unsettling life--and the consequences that follow when children are treated like pawns on a family chessboard. *Home Girl* is fast-paced and funny, tender, tragic, and full of courage--just like Naomi. It is Alex Wheatle's most moving and personal novel to date.

Seven bridges by Jürg Conzett, anglais Wilfried Dechau, 2013 Rising dramatically above the spectacular Swiss landscape surrounding the well-known resort Flims - Laax - Falera, Jürg Conzett's unique mountain trail contains seven bridges crossing a wild stream. An internationally renowned civil engineer, Conzett has brought his considerable talent and experience to this project and the results are groundbreaking and visually appealing. Each bridge uses a different type of construction and building method depending on the specific geographic features of its location. Wilfried Dechau has catalogued the project with over one-hundred previously unpublished images of the bridges and their surrounding landscape. His atmospheric photographs provide readers with a beautiful and up-close look at both the striking

architecture amid the beautiful wilderness. Also included in this book are sketches and plans by Conzett and a series of essays by Dechau, Conzett, Ursula Baus, Christian Dettwiler, and Jürg Marquart.
