Bento Power Sara Kiyo Popowa,2018-09-20 Many people bring their lunch to work to save money, time and to help control what they are eating (with no hidden nasties from processed shop-bought food), but sometimes it's hard to think of interesting, nutritious things to make. Sara has come to the rescue with her vibrant, fun and inspirational approach to lunch boxes. She concentrates on having 5 clear elements: complex carbs, protein, fruit and veg, and sprinkles as well as the 5 colours used in authentic Japanese cooking: red, white, black, yellow and green. With just a few essential ingredients, you add your extras to create highly nutritious, vegetarian, colourful boxes of joy. Sara includes ideas for bento breakfast boxes (Sesame Snap Granola Bento and Mighty Muesli), 15-minute bento (Busy Days Instant Noodles and Lazy Tamago Bento), Everyday bento (Red Velvet Quinoa Bento, Green Theme Bento and Zen Bento) and the Fantasy bento (Starry Sky Bento and Fairy Jewel Box Bento). With tips on how to stock your bento store-cupboard and basic ingredients and recipes to get you going, now is the time for bento to bounce into your breakfast, lunch box, or even into your dinner parties, filling you with Bento Power! www.shisodelicious.com @shisodelicious

Hollywood Shutdown Kate Fortmueller,2021-07-20 By March 2020, the spread of COVID-19 had reached pandemic proportions, forcing widespread shutdowns across industries, including Hollywood. Studios, networks, production companies, and the thousands of workers who make film and television possible were forced to adjust their time-honored business and labor practices. In this book, Kate Fortmueller asks what happened when the coronavirus closed Hollywood. Hollywood Shutdown examines how the COVID-19 pandemic affected film and television production, influenced trends in distribution, reshaped theatrical exhibition, and altered labor practices. From January movie theater closures in China to the bumpy September release of Mulan on the Disney+ streaming platform, Fortmueller probes various choices made by studios, networks, unions and guilds, distributors, and exhibitors during the evolving crisis. In seeking to explain what happened in the first nine months of 2020, this book also considers how the pandemic will transform Hollywood practices in the twenty-first century.

Pretending and Imagination in Animals and Children Robert W. Mitchell,2002-02-21 It is well known that children's activities are full of pretending and imagination, but it is less appreciated that animals can also show similar activities. Originally published in 2002, this book focuses on comparing and contrasting children's and animals' pretenses and imaginative activities. In the text, overviews of research present conflicting interpretations of children's understanding of the psychology of pretense, and describe sociocultural factors which influence children's pretenses. Studies of nonhuman primates provide examples of their pretenses and other simulative activities, explore their representational and imaginative capacities and compare their skills with children. Although the psychological requirements for pretending are controversial, evidence presented in this volume suggests that great apes and even monkeys may share capacities for imagination with children, and that children's early pretenses may be less psychological than they appear.

Journal for Star Wisdom 2016 Robert Powell,2015-10-01 Journal for Star Wisdom 2016 includes articles of interest concerning star wisdom (Astrosophy), as well as a guide to the correspondences between stellar configurations during the life of Christ and those of today. This guide comprises a complete sidereal ephemeris and aspectarian, geocentric and heliocentric, for each day throughout the year. Published yearly, new editions are available beginning in October or November for the coming new year. According to Rudolf Steiner, every step taken by Christ during his ministry between the baptism in the Jordan and the resurrection was in harmony with—and an expression of—the cosmos. Journal for Star Wisdom is concerned with these heavenly correspondences during the life of Christ. It is intended to help provide a foundation for cosmic Christianity, the cosmic dimension of Christianity. It is this dimension that has been missing from Christianity in its two-thousand-year history. Readers can begin on this path by contemplating the movements of the Sun, Moon, and planets against the background of the zodiacal constellations (sidereal signs) today in relation to corresponding stellar events during the life of Christ. In this way, the possibility is opened for attuning, in a living way, to the life of Christ in the etheric cosmos. This year's journal begins with an article by Robert Powell on the relationship between the galactic center and Christ's miracle of the healing of the man born blind, followed by an article by Estelle Isaacson about the life of the man born blind, whose name was Celidonius. She has also written on the “star of Lazarus and reading the starry script.” Claudia McLaren Lainson's article “The Towers We Build” relates to the planet Uranus and events of our time against the background of the position of Uranus—in 2016, the same as shortly after Christ's Ascension. She also honors psychologist and astropher William Bento, who died on June 5, 2015, with her “In Memoriam.” David Tresemer's article, written with Robert Schiappacasse, expands on a short contribution from William Bento. Brian Gray's article focuses upon the birth of Jesus—in terms of a stellar imagination—in relation to the three kings on the one hand and the shepherds on the other. Nicholas Kollerstrom contributed “Position of the Ancient Star Zodiac,” presenting his research into the original scientific definition of the zodiac. The article “Specters” by Kevin Dann takes a unique approach to “The Fall of the Spirits of Darkness,” the subject of David Tresemer's article. The monthly commentaries for 2016 by Claudia McLaren Lainson are supported by monthly astronomical previews by Sally Nurney, offering opportunities to observe and experience physically the stellar configurations during 2016. This direct interaction between the human being on Earth and the heavenly beings of the stars develops the capacity to receive their wisdom-filled teachings.

My Utopia Ruzbeh Babaee,2019-01-10 Why would we think of utopia? Utopian thoughts are necessary to instigate social change. Without a utopian vision, something inspiring, there is no chance of social development, and the more transparent the vision, the higher the chance of its achievement. The significance of utopian thought in the contemporary world is undeniable. We are faced with ecological issues so huge that the survival of the human species might be in doubt, as well as the threats posed by overpopulation, war, terrorism, new and sometimes unbelievably dangerous technologies, cybernetic crimes, and religious extremism. Thus, a way out is obviously required and utopian thought can assist in the search for this. My Utopia is a collection of creative writing demonstrating that utopian thinking is beyond any gender, race, age, color, nationality, and border limitations. Everybody can also think of his or her utopian world regardless of the restrictions of time and place. Everyone who faces a crisis of life and faith will enjoy reading this book. The short fiction, short essays and poems in this book will be of great interest to everybody who believes in the power of literature in forcing change. This collection will give the reader ideas about how to change his or her life for a more promising future.

Bento's Sketchbook John Berger,2015-03-01 The seventeenth-century philosopher Baruch Spinoza-also known as Benedict or Bento de Spinoza-spent the most intense years of his short life writing. He also carried with him a sketchbook. After his sudden death, his friends rescued letters, manuscripts, notes-but no drawings. For years, without knowing what its pages might hold, John Berger has imagined finding Bento's sketchbook, wanting to see the drawings alongside his surviving words. When one day a friend gave him a beautiful virgin sketchbook, Berger said, This is Bento's! and he began to draw, taking his inspiration from the philosopher's vision. In this illustrated color book John Berger uses the imaginative space he creates to explore the process of drawing, politics, storytelling and Spinoza's life and times.
