MacLean, 2019-10-31 Berlin, Berlin. One city once divided in two. One communist, one not. One brightly adorned the other grey. I can still see East Berlin so clearly. The time of the Wall. Do you know the East Side Gallery? A piece of the Berlin Wall which stands in what was East Berlin. It was transformed into a gallery. This piece of Wall healed by artists joyfully witnessed the Peaceful Revolution of 1989. The Berlin Senate wanted it gone and removed several parts despite protests and petitions. It needs to stay because the history is too important to lose.

Modern Art at the Berlin Wall Claudia Mesch, 2009-03-30

At the height of the Cold War, art produced in divided Germany contested the cultural demarcation of East and West. Here Claudia Mesch shows how a wide group of artists struggled to take visual art beyond the crude separations of the 'Iron Curtain', and to transcend the first global cultural divide of the twentieth century. Artists in Berlin produced artworks-including painting, performance and film-that engaged critically with imposed national and global identities, and with issues of memory and trauma. 'Around the Berlin Wall' presents a new picture of the Cold War border between East and West as a dynamic and international cultural space, and is essential for all those interested in art history, modernism, the Cold War and the cultural history of the twentieth century.

Berlin Wall Hans-Hermann Hertle, 2007 Over 200 previously unpublished photographs document the building and development of the many check points, barbed wire barriers, and alarmed fences which formed the concrete wall around Berlin. This book tells dramatic tales of spectacular escapes and terrible deaths, and explains the history making events surrounding the building and fall of the Wall. Contemporary photographs are contrasted with photographs from the eighties to offer surprising insights into how the former death strip has changed since 1990. Relics of the wall in the current cityscape are prominently illustrated, including remnants of the Wall itself, expanded metal lattice fences, observation towers, barbed wire and concrete posts. Also included are statistics showing the numbers of refugees and victims of the Wall, a guide to the museums and memorials and a summary of the literature and cinema treatment of the Wall, along with a brief chronicle of its history.

Berlin Wall Lea Rawls, 2018-11-27 The Berlin Wall was a guarded concrete barrier that physically and ideologically divided Berlin from 1961 to 1989.] Constructed by the German

Democratic Republic (GDR, East Germany), starting on 13 August 1961, the Wall cut off (by land) West Berlin from virtually all of surrounding East Germany and East Berlin until government officials opened it in November 1989. Its demolition officially began on 13 June 1990 and finished in 1992. The barrier included guard towers placed along large concrete walls, accompanied by a wide area (later known as the death strip) that contained anti-vehicle trenches, fakir beds and other defenses. The Eastern Bloc portrayed the Wall as protecting its population from fascistelements conspiring to prevent the will of the people in building a socialist state in East Germany. GDR authorities officially referred to the Berlin Wall as the Anti-Fascist Protection Rampart (German: Antifaschistischer Schutzwall). The West Berlin city government sometimes referred to it as the Wall of Shame, a term coined by mayor Willy Brandt in reference to the Wall's restriction on freedom of movement. Along with the separate and much longer Inner German border (IGB), which demarcated the border between East and West Germany, it came to symbolize physically the Iron Curtain that separated Western Europe and the Eastern Bloc during the Cold War. Before the Wall's erection, 3.5 million East Germans circumvented Eastern Bloc emigration restrictions and defected from the GDR, many by crossing over the border from East Berlin into West Berlin; from there they could then travel to West Germany and to other Western European countries. Between 1961 and 1989 the Wall prevented almost all such emigration. During this period over 100,000 people attempted to escape and over 5,000 people succeeded in escaping over the Wall, with an estimated death toll ranging from 136[8] to more than 200 in and around Berlin. In 1989 a series of revolutions in nearby Eastern Bloc countries-- Poland and Hungary in particular--caused a chain reaction in East Germany that ultimately resulted in the demise of the Wall.[10] After several weeks of civil unrest, the East German government announced on 9 November 1989 that all GDR citizens could visit

West Germany and West Berlin. Crowds of East Germans crossed and climbed onto the Wall, joined by West Germans on the other side in a celebratory atmosphere. Over the next few weeks, euphoric people and souvenir hunters chipped away parts of the Wall; the governments later used industrial equipment to remove most of what was left.[6] The fall of the Berlin Wall paved the way for German reunification, which formally took place on 3 October 1990.

United City, Divided Memories? Dirk Verheyen,2010-02-03
United City, Divided Memories? focuses on the basic question of

how Berlin today deals with three specific Cold War era legacies: the presence of the four Great Powers, the East German Stasi, and the Berlin Wall. Dirk Verheyen studies monuments, museums, and memorial sites as illustrations of Berlin's struggle to craft an effective shared identity that ties together its western and eastern halves.

Contemporary Art and Capitalist Modernization Octavian Esanu, 2020-10-08 This book addresses the art historical category of contemporary art from a transregional perspective, but unlike other volumes of its kind, it focuses in on non-Western instantiations of the contemporary. The book concerns itself with the historical conditions in which a radically new mode of artistic production, distribution, and consumption – called contemporary art – emerged in some countries of Eastern Europe, the post-Soviet republics of the USSR, India, Latin America, and the Middle East, following both local and broader sociopolitical processes of modernization and neoliberalization. Its main argument is that one cannot fully engage with the idea of the global contemporary without also paying careful attention to the particular, local, and/or national symptoms of the contemporary condition. Part I is methodological and theoretical in scope, while Part II is historical and documentary. For the latter, a number of case studies address the emergence of the category contemporary art in the context of Lebanon, Egypt, India, Hungary, Slovenia, Croatia, Bosnia and Herzegovina, Armenia, and Moldova. The book will be of interest to scholars working in art history, globalism, cultural studies, and postcolonial studies.

Touching Photographs Margaret Olin, 2012-05-21

Photography does more than simply represent the world. It acts in the world, connecting people to form relationships and shaping relationships to create communities. In this beautiful book, Margaret Olin explores photography's ability to "touch" us through a series of essays that shed new light on photography's role in the world. Olin investigates the publication of photographs in mass media and literature, the hanging of exhibitions, the posting of photocopied photographs of lost loved ones in public spaces, and the intense photographic activity of tourists at their destinations. She moves from intimate relationships between viewers and photographs to interactions around larger communities, analyzing how photography affects the way people handle cataclysmic events like 9/11. Along the way, she shows us James VanDerZee's Harlem funeral portraits, dusts off Roland

Barthes's family album, takes us into Walker Evans and James Agee's photo-text *Let Us Now Praise Famous Men*, and logs onto online photo albums. With over one hundred illustrations, *Touching Photographs* is an insightful contribution to the theory of photography, visual studies, and art history.
