Designing the French Interior Anca I.

Lasc, Georgina Downey, Mark Taylor, 2015-10-22

Designing the French Interior traces France's central role in the development of the modern domestic interior, from the pre-revolutionary period to the 1970s, and addresses the importance of various media, including drawings, prints, pattern books, illustrated magazines, department store catalogs, photographs, guidebooks, and films, in representing and promoting French interior design to a wider audience. Contributors to this original volume identify and historicize the singularity of the modern French domestic interior as a generator of reproducible images, a site for display of both highly crafted and mass-produced objects, and the direct result of widely-circulated imagery in its own right. This important volume enables an invaluable new understanding of the relationship between architecture, interior spaces, material cultures, mass media and modernity.

The Key of Interior Design (Illustration of Methods and Principles) Nikita Mittal, 2021-04-01

★About The Book: The 'Key of Interior Design' is a book which may unlock the door leading towards the realm of Interior Design for the Interior design aspirants or beginners, by providing them detailed but precise knowledge required to step in this lavish field of design in a very simplified and easiest manner without claiming the originality of the work done. This book covers all the topics ranging from Interior design history, design methodology and principles, colour scheme guide, in addition to different graphical representations which are mandatory to know about, before preparing blue prints or plans of any space provided, to the information regarding various interior decorating elements like furniture, finishes, furnishings and accessories, as well as the building materials etc. It is an all in one reference guide for all the Interior design undergraduates, which I have compiled as per my experience after going through all the subject matter handed over to me during my academic years in order to solve the issue of surfing relevant topics of interior design from a large pile of books, hence, making it easier for those who are wearing the shoes that I once wore. I look forward towards the appreciations from the readers for this attempt of mine and I also at the same time would appreciate the improvements in the text from the same.

Creating Interior Atmosphere Jean

Whitehead, 2017-12-14 This book sets out to explore the creation of interior atmosphere as seen through the lens of mise-en-scène. You will learn how this film theory informs the concept of 'staged space' translated through the narrative and expressive qualities of a particular scene. Jean Whitehead quickly takes this concept beyond the screen and considers its application to the interior 'setting'. By learning to use the ingredients that inform an 'interior' mise-en-scène such as its backdrop, choice of props, use of special effects alongside the application of colour, pattern, graphics, light and shadow, an immersive atmospheric experience can be created. Packed with inspiring examples and case studies, ranging from cinematic interiors and art installations, to the work of notable interior designers, stylists and architects with an interior interest, this book broadens current thinking around the design of the decorated interior. It will help you to embrace the concepts that underpin an interior mise-en-scène through the use of softer decorative techniques and concerns.
