*Intimate Landscapes* Eliot Porter, 1979 Intimate Landscapes, an exhibition of fifty-five color photographs by Eliot Porter, is the first one-man exhibition of color photographs ever presented at The Metropolitan Museum of Art. Works by Eliot Porter entered the Museum's collection as far back as 1949, when Georgia O'Keeffe presented from the Estate of Alfred Stieglitz an important collection of photographs assembled by Stieglitz himself. This collection included three early black and white prints by Eliot Porter, one of which is reproduced in this catalogue. All the photographs in the present exhibition brilliantly reflect the standards of excellence that are Eliot Porter's greatest contribution to the field of color photography. Upon seeing these photographs, the viewer is immediately struck by the artist's distinctly individual and intimate interpretation of the natural world.

Luck does play a part, but it's mainly down to following a different approach. An approach you can adopt as well to improve your photography. In this book you will learn many important points to improve your landscape photography including: · Why changing your camera for the latest megapixel monster could be a big mistake. · Which accessories are the most important to ensuring good results when photographing the landscape. · How to find the right light for the right subjects and when not to bother. · How to ensure you're consistently in the right place at the right time to capture the best light. · And much, much more to help you shoot great landscape photography. Written with the beginner and intermediate landscape photographer in mind, this book is packed with years of hard-won experience from out in the field. Some of this even appears so obvious when you first hear it that you wonder why you never realised. Unfortunately, good photographers don't often share this vital information even though it's the key to improved results. Don't struggle in ignorance.

**Light on the Landscape** William Neill, 2020-04-22

**See the images and read the stories behind the creative process of one of America's most respected landscape photographers, William Neill.**

For more than two decades, William Neill has been offering his thoughts and insights about photography and the beauty of nature in essays that cover the techniques, business, and spirit of his photographic life. Curated and collected here for the first time, these essays are both pragmatic and profound, offering readers an intimate look behind the scenes at Neill's creative process behind individual photographs as well as a discussion of the larger and more foundational topics that are key to his philosophy and approach to work.

Drawing from the tradition of behind-the-scenes books like Ansel Adams' *Examples: The Making of 40 Photographs* and Galen Rowell's *Mountain Light: In Search of the Dynamic Landscape*, *Light on the Landscape* covers in detail the core photographic fundamentals such as light, composition, camera angle, and exposure choices, but it also deftly considers those subjects that are less frequently examined: portfolio development, marketing, printmaking, nature stewardship, inspiration, preparation, self-improvement, and more. The result is a profound and wide-ranging exploration of that magical convergence of light, land, and camera.

Filled with beautiful and inspiring photographs, *Light on the Landscape* is also full of the kind of wisdom that only comes from a deeply thoughtful photographer who has spent a lifetime communicating with a camera. Incorporating the lessons within the book, you too can learn to achieve not only technically excellent and beautiful images, but photographs that truly rise above your best and reveal your deeply personal and creative perspective—your vision, your voice.
