Maxim Jakubowski

The Mammoth Book of Best British Crime 10 Maxim Jakubowski, 2013-02-21 42 fantastic stories from Britain's best crime writers. A superb collection of the year's most outstanding short crime fiction published in the UK. Jakubowski has succeeded, as ever, in showcasing the impressive breadth of crime writing, from cosy tales of detection to noir mayhem and psychological suspense and terror. There are puzzles to solve, nagging questions about the nature of the society in which we live, but, above all, there is an abundance of first-class entertainment. Last year saw a sixth Crime Writers Association Dagger award for the series - shared between Margaret Murphy and Cath Staincliffe - and an Edgar award for Peter Turnbull. All three award-winning stories are included in this volume. Lee Child makes his debut and there is a first story from Neil Gaiman, too, in Sherlockian rather than fantastical mode. Return offenders include Ann Cleeves, Phil Lovesey and Ruth Rendell, among many other familiar names. There are a number of newcomers to the series, too, including Nina Allan, Joel Lane and Lisa Tuttle.

Greatest Dog Stories Ever Told Patricia M. Sherwood, 2009-09-15 Since canines first joined humans around the fire—perhaps as far back as 100,000 years ago—the two species have enjoyed a mutually rewarding relationship. The bond between people and their dogs is like no other. Dogs are our best friends, our co-workers, our guardians, and often, our rescuers. They serve us, adore us, entertain us, work for and with us, but most of all they warm our hearts. The perfect gift for any dog lover, *The Greatest Dog Stories Ever Told* is a compulsively readable collection of some of the most moving and illuminating stories ever penned on the subject of our canine companions. Readers will find selections from renowned writers of the genre such as Jack London, James Thurber, and Willie Morris, as well as a few surprise contributions from writers more famous in other fields, including Ray Bradbury and Thomas Mann. With gems from Will Rogers, P. G. Wodehouse, Peter Mayle, Stephen J. Bodio, and many others, *The Greatest Dog Stories Ever Told* is hard to put down. In the thirty-six stories in this fascinating collection, dog lovers will have the pleasure of meeting all kinds of canines—sled dogs, herding dogs, hunting and birding dogs, family pets and movie stars, a dog who was a growing boy's best friend, and even a man who was a dog in another life. These dogs will make readers laugh and make them cry, but most of all they will make them realize just why humans adore their dogs.

Market Rules Mark H. Rose, 2018-11-27 Although most Americans attribute shifting practices in the financial industry to the invisible hand of the market, Mark H. Rose reveals the degree to which presidents, legislators, regulators, and even bankers themselves have long taken an active interest in regulating the industry. In 1971, members of Richard Nixon's Commission on Financial Structure and Regulation described the banks they sought to create as supermarkets. Analogous to the twentieth-century model of a store at which Americans could buy everything from soft drinks to fresh produce, supermarket banks would accept deposits, make loans, sell insurance, guide mergers and acquisitions, and underwrite stock and bond issues. The supermarket bank presented a radical departure from the financial industry as it stood, composed as it was of local savings and loans,

commercial banks, investment banks, mutual funds, and insurance firms. Over the next four decades, through a process Rose describes as grinding politics, supermarket banks became the guiding model of the financial industry. As the banking industry consolidated, it grew too large while remaining too fragmented and unwieldy for politicians to regulate and for regulators to understand—until, in 2008, those supermarket banks, such as Citigroup, needed federal help to survive and prosper once again. Rose explains the history of the financial industry as a story of individuals—some well-known, like Presidents Kennedy, Carter, Reagan, and Clinton; Treasury Secretaries Donald Regan and Timothy Geithner; and JP Morgan CEO Jamie Dimon; and some less so, though equally influential, such as Kennedy's Comptroller of the Currency James J. Saxon, Citicorp CEO Walter Wriston, and Bank of America CEOs Hugh McColl and Kenneth Lewis. Rose traces the evolution of supermarket banks from the early days of the Kennedy administration, through the financial crisis of 2008, and up to the Trump administration's attempts to modify bank rules. Deeply researched and accessibly written, *Market Rules* demystifies the major trends in the banking industry and brings financial policy to life.
