Map Scripting 101 Adam DuVander, 2010 Websites like MapQuest and Google Maps have transformed the way we think about maps. But these services do more than offer driving directions, they provide APIs that web developers can use to build highly customized map-based applications. The author, Adam DuVander, delivers 73 useful scripts, examples that will show you how to create interactive maps and mashups.--[book cover]

Between Centre and Locality Stewart Ranson, George Jones, Kieron Walsh, 2022-04-29 First published in 1985, *Between Centre and Locality* provides the detailed accounts of the relations between central and local government in Britain since 1970s. The confrontation of centre and locality has been a constant theme of political debate and legislative action since Mrs Thatcher came to power. It discusses range of policy issues including education, the police, housing, race relations and finance. In addition, theoretical chapters are included which set the empirical studies in the broader context of theories of the State and of policy making. The chapters have each been written by an acknowledged authority on the particular subject and are based upon extensive research. The book will be of interest not only to academics in a number of fields but also to politicians, officers, and civil servants in central and local government.

The Lincoln Highway Amor Towles, 2021-10-05 #1 NEW YORK TIMES BESTSELLER More than ONE MILLION copies sold A TODAY Show Read with Jenna Book Club Pick A New York Times Notable Book, and Chosen by Oprah Daily, Time, NPR, The Washington Post, Bill Gates and Barack Obama as a Best Book of the Year “Wise and wildly entertaining . . . permeated with light, wit, youth.” —The New York Times Book Review “A classic that we will read for years to come.” —Jenna Bush Hager, Read with Jenna book club “Fantastic. Set in 1954, Towles uses the story of two brothers to show that our personal journeys are never as linear or predictable as we might hope.” —Bill Gates “A real joyride . . . elegantly constructed and compulsively readable.” —NPR The bestselling author of *A Gentleman in Moscow* and *Rules of Civility* and master of absorbing, sophisticated fiction returns with a stylish and propulsive novel set in 1950s America In June, 1954, eighteen-year-old Emmett Watson is driven home to Nebraska by the warden of the juvenile work farm where he has just served fifteen months for involuntary manslaughter. His mother long gone, his father recently deceased, and the family farm foreclosed upon by the bank, Emmett's intention is to pick up his eight-year-old brother, Billy, and head to California where they can start their lives anew. But when the warden drives away, Emmett discovers that two friends from the work farm have hidden themselves in the trunk of the warden's car. Together, they have hatched an altogether different plan for Emmett's future, one that will take them all on a fateful journey in the opposite direction—to the City of New York. Spanning just ten days and told from multiple points of view, Towles's third novel will satisfy fans of his multi-layered literary styling while providing them an array of new and richly imagined settings, characters, and themes. “Once again, I was wowed by Towles’s writing—especially because *The Lincoln Highway* is so different from *A Gentleman in Moscow* in terms of setting, plot, and themes. Towles is not a one-trick pony. Like all the best storytellers, he has range. He takes inspiration from famous hero’s journeys, including *The Iliad*, *The Odyssey*, *Hamlet*, *Huckleberry Finn*, and *Of Mice and Men*. He seems to be saying that our personal journeys are never as linear or predictable as an interstate highway. But, he suggests, when something (or someone) tries to steer us off course, it is possible to take the wheel.” – Bill Gates

Meeting Development Goals in Small Urban Centres Un-Habitat, 2012-05-04 Half of the world's people live in urban areas, and roughly a third of these live in desperate poverty without access to basic amenities. Taking on the themes of UN-HABITAT's *Water and Sanitation in the World's Cities* (2003), this new volume focuses on the deficiencies in the provision of water and sanitation where most of the populations of the developing world live: in towns and small cities. Drawing on extensive unpublished research and 15 commissioned papers from experts involved in designing and implementing innovative projects around the world, this is the first major study of the problems facing the smaller urban centres that are recognized to be of enormous importance by governments, international agencies, NGOs and service providers. Tackling these problems is a crucial part of development and of good governance, and critical to meeting the Millennium Development Goals. The volume will be essential reading for all professionals and researchers in the relevant fields and a valuable resource for teachers and students of urban development.

Leading Sustainable Change Rebecca Henderson, Ranjay Gulati, Michael Tushman, 2015 The business case for acting sustainably is becoming increasingly compelling - reducing our global footprint to sustainable levels is the defining issue of our times and it is one that can only be addressed with the active participation of the private sector. However, persuading well-established organizations to act in new ways is never easy. This book is designed to support business leaders and organizational scholars who are grappling with this challenge by pulling together leading edge insights from some of the world's best researchers as to how organizational change in general - and sustainable change in particular - can be most effectively managed. The book begins by laying out the economic case for change, while subsequent chapters describe how leaders at firms such as Du Pont, IBM and Cemex have transformed their organizations, exploring issues such as the role of the senior team and the ways in which firms shift their identities, build innovative cultures and processes, and begin to change the world around them. Business leaders will find the book a source of both powerful examples and immediately actionable ideas, while scholars will be deeply intrigued by the insights that emerge from the cross-cutting exploration of one of the toughest challenges our society has ever faced.

The Invention of Brownstone Brooklyn Suleiman Osman, 2012-11-29 An original and captivating history of gentrification, this book challenges the conventional wisdom that New York City began a comeback in the 1990s, locating the roots of Brooklyn's revival in the social upheavals of the 1960s and 1970s. Osman examines the emergence of a progressive coalition as young, well-educated brownstoners joined with poorer residents to battle city planners and local machine politicians. Deftly mixing architectural, cultural, and political history, this book offers an eye-opening perspective on the post-industrial city.
