**Benim Sevgili Başkanım Ekrem İmamoğlu** Şirin Mine Kılıç,2019-01-01 30 Mart 2014 yerel seçimleri, İstanbul'un 39 ilçesinin 38'inde aynı şekilde sonuçlandı. Bir önceki yerel seçimleri hangi parti kazanmışsa, 30 Mart'ta da o partinin adayı belediye başkanı seçildi. Uzmanlar yoğun bir siyasi kutuplaşma altında gerçekleşen seçimlerde böyle bir sonucu normal ve siyasetin genel kalıplarına uygun buluyordu... Peki bu kalıbın dışında kalan o ilçede ne olmuştu? Nasıl olmuştu da o ilçede belediye başkanlığı bir partiden ötekine, hem de büyük bir oy farkıyla, geçebilmişti? Beylikdüzü'nü diğer 38 ilçeden, Ekrem İmamoğlu'nu onlarca başkan adayından farklı kılan neydi? Benim Sevgili Başkanım işte bu soruların cevabını veriyor. Büyük dönüşümlerin ancak liderle, onun işaret ettiği yöne yürüyenler arasındaki sevgi ve yol arkadaşlığı duygusuyla sağlanabileceğini kanıtlıyor. Önümüzdeki yıllara damgasını vuracak olan, sorgulayan, talep eden, özgüvenli bireylere dayalı yeni siyaset anlayışı yeni bir liderlik tarzını da zorunlu kılıyor. Benim Sevgili Başkanım'da işte bu yeni siyasetin ve yeni liderlik tarzının en temel unsurlarını bulacaksınız.

**A Terrible Thing to Waste** Harriet A. Washington,2019-07-23 A powerful and indispensable look at the devastating consequences of environmental racism (Gerald Markowitz) -- and what we can do to remedy its toxic effects on marginalized communities. Did you know... Middle-class African American households with incomes between \$50,000 and \$60,000 live in neighborhoods that are more polluted than those of very poor white households with incomes below \$10,000. When swallowed, a lead-paint chip no larger than a fingernail can send a toddler into a coma -- one-tenth of that amount will lower his IQ. Nearly two of every five African American homes in Baltimore are plagued by lead-based paint. Almost all of the 37,500 Baltimore children who suffered lead poisoning between 2003 and 2015 were African American. From injuries caused by lead poisoning to the devastating effects of atmospheric pollution, infectious disease, and industrial waste, Americans of color are harmed by environmental hazards in staggeringly disproportionate numbers. This systemic onslaught of toxic exposure and institutional negligence causes irreparable physical harm to millions of people across the country-cutting lives tragically short and needlessly burdening our health care system. But these deadly environments create another insidious and often overlooked consequence: robbing communities of color, and America as a whole, of intellectual power. The 1994 publication of The Bell Curve and its controversial thesis catapulted the topic of genetic racial differences in IQ to the forefront of a renewed and heated debate. Now, in A Terrible Thing to

Waste, award-winning science writer Harriet A. Washington adds her incisive analysis to the fray, arguing that IQ is a biased and flawed metric, but that it is useful for tracking cognitive damage. She takes apart the spurious notion of intelligence as an inherited trait, using copious data that instead point to a different cause of the reported African American-white IQ gap: environmental racism – a confluence of racism and other institutional factors that relegate marginalized communities to living and working near sites of toxic waste, pollution, and insufficient sanitation services. She investigates heavy metals, neurotoxins, deficient prenatal care, bad nutrition, and even pathogens as chief agents influencing intelligence to explain why communities of color are disproportionately affected -- and what can be done to remedy this devastating problem. Featuring extensive scientific research and Washington's sharp, lively reporting, *A Terrible Thing to Waste* is sure to outrage, transform the conversation, and inspire debate.

*Hate Speech and Polarization in Participatory Society* Marta Pérez-Escobar, José Manuel Noguera-Vivo, 2021-09-30 This timely volume offers a comprehensive and rigorous overview of the role of communication in the construction of hate speech and polarization in the online and offline arena. Delving into the meanings, implications, contexts and effects of extreme speech and gated communities in the media landscape, the chapters analyse misleading metaphors and rhetoric via focused case studies to understand how we can overcome the risks and threats stemming from the past decade's defining communicative phenomena. The book brings together an international team of experts, enabling a broad, multidisciplinary approach that examines hate speech, dislike, polarization and enclave deliberation as cross axes that influence offline and digital conversations. The diverse case studies herein offer insights into international news media, television drama and social media in a range of contexts, suggesting an academic frame of reference for examining this emerging phenomenon within the field of communication studies. Offering thoughtful and much-needed analysis, this collection will be of great interest to scholars and students working in communication studies, media studies, journalism, sociology, political science, political communication and cultural industries.

**Current Debates in History & Politics** Abidin Çevik, Oya Gözel Durmaz, Günay Gönüllü, 2018 As the outcome of the sixth international congress, the papers in this volume cover a wide range of topics related to the main theme of the conference, titled "Current Debates in Social Sciences", and basically focus on politics and history. In this context, the articles in the book draw attention to the different aspects of history and politics such as the transition period from the Ottoman Empire to the Turkish Republic, theoretical discussions in politics, history and arts, and the issues regarding neo-liberalism, migration, citizenship and communication. Even though most of the papers deal with the issues regarding Turkey, there are also studies on ancient Anatolia, the Medieval Muslim Dynasties, the Mughal period, the Ottomans and Tsarist Russia. We believe that these studies would contribute to the development of debates in social sciences and encourage interdisciplinary approaches.

**Corporate Social Responsibility in the Global Business World** Asli Yüksel Mermod, Samuel O. Idowu, 2013-08-29 This book provides an overview of the application of Corporate Social Responsibility in businesses and corporations around the world. Primarily based on real cases, it focuses on different approaches to CSR from a global perspective. It provides a critique of the "wrong" practices often employed even by multinational organizations, and highlights the resultant negative effects. On the other hand the book demonstrates good examples that can help multinationals or even entire countries to achieve both a better reputation and increased profitability. "CSR in the Global Business World" is a rich resource of illustrative cases, serving both as a basis for ongoing research as well as for teaching purposes at the business school level.

**The Miner's Canary** Lani GUINIER, Gerald Torres, Lani Guinier, 2009-06-30 Like the canaries that alerted miners to a poisonous atmosphere, issues of race

point to underlying problems in society that ultimately affect everyone, not just minorities. Addressing these issues is essential. Ignoring racial differences--race blindness--has failed. Focusing on individual achievement has diverted us from tackling pervasive inequalities. Now, in a powerful and challenging book, Lani Guinier and Gerald Torres propose a radical new way to confront race in the twenty-first century. Given the complex relationship between race and power in America, engaging race means engaging standard winner-take-all hierarchies of power as well. Terming their concept political race, Guinier and Torres call for the building of grass-roots, cross-racial coalitions to remake those structures of power by fostering public participation in politics and reforming the process of democracy. Their illuminating and moving stories of political race in action include the coalition of Hispanic and black leaders who devised the Texas Ten Percent Plan to establish equitable state college admissions criteria, and the struggle of black workers in North Carolina for fair working conditions that drew on the strength and won the support of the entire local community. The aim of political race is not merely to remedy racial injustices, but to create truly participatory democracy, where people of all races feel empowered to effect changes that will improve conditions for everyone. In a book that is ultimately not only aspirational but inspirational, Guinier and Torres envision a social justice movement that could transform the nature of democracy in America.
