Who Shot Sports Gail Buckland,2016-07-05 From the creator/editor of *Who Shot Rock & Roll* (“I loved this book” —Dwight Garner, *The New York Times*. “Whatever Gail Buckland writes, I want to read”), a book that brings together the work of 165 extraordinary photographers, most of their images heralded, most of their names unknown; photographs that capture the essence of athletes’ mastery of mind/body/soul against the odds, doing the impossible, seeming to defy the laws of gravity, the laws of physics, and showing what human will, discipline, drive, and desire look like when suspended in time. The first book to show the range, cultural importance, and aesthetics of sports photography, much of it legendary, all of it powerful. Here, in more than 280 spectacular images—more than 130 in full color—are great action photographs; portraits of athletes, famous and unknown; athletes off the field and behind the scenes; athletes practicing, working out, the daily relentless effort of training and achieving physical perfection. Buckland writes that sports photographers have always been central to the technical advancement of photography, that they have designed longer lenses, faster shutters, motor drives, underwater casings, and remote controls, allowing us to see what we could never see—and hold on to—with the naked eye. Here are photographs by such masters as Henri Cartier-Bresson, Robert Capa, Danny Lyon, Walker Evans, Annie Leibovitz, and 160 more, names not necessarily known to the public but whose photographic work is considered iconic . . . Here are photographs of Willie Mays . . . Carl Lewis . . . Ian Botham . . . Kobe Bryant . . . Magic Johnson . . . Muhammad Ali . . . Serena Williams . . . Bobby Orr . . . Stirling Moss . . . Jesse Owens . . . Mark Spitz . . . Roger Federer . . . Jackie Robinson. Here is the work of the great sports photographers Neil Leifer, Walter Iooss Jr., Bob Martin, Al Bello, Robert Riger, and Heinz Kleutmeier of *Sports Illustrated*, who was the first to put a camera at the bottom of an Olympic swimming pool and photograph swimmers from below . . . Here are pictures by Charles Hoff, the *New York Daily News* photographer of the 1930s, 1940s, and 1950s, whose images of the 1936 Berlin Olympics still inspire shock and awe . . . and those of Ernst Haas, whose innovative color pictures of bullfighting of the 1950s remain poetic evocations of a bloody sport . . . To make the selections for *Who Shot Sports*, Buckland, a former curator of the Royal Photographic Society of Great Britain and Benjamin Menschel Distinguished Visiting Professor at Cooper Union, has drawn upon the work of more than fifty archives, from the Museum of Fine Arts, Houston, to *Sports Illustrated*, Condé Nast, Getty Images, the National Baseball Hall of Fame, L’Équipe, *The New York Times*, and the archives of the International Olympic Committee in Lausanne. Here are classic and unknown sports images that capture the uncapturable, that allow us to experience “kinetic beauty,” and that give us the essence and meaning—the transcendent power—of sports.

Fearless Genius Doug Menuez, 2014-06-03 An award-winning documentary photographer delivers a stunning visual history of the Silicon Valley technology boom, in which he was witness to key moments in the careers of Steve Jobs and more than seventy other leading innovators as they created today's digital world. An eye-opening chronicle of the Silicon Valley technology boom, capturing key moments in the careers of Steve Jobs and more than seventy other leading innovators as they created today's digital world In the spring of 1985, a technological revolution was under way in Silicon Valley, and documentary photographer Doug Menuez was there in search of a story—something big. At the same time, Steve Jobs was being forced out of his beloved Apple and starting over with a new company, NeXT Computer. His goal was to build a supercomputer with the power to transform education. Menuez had found his story: he proposed to photograph Jobs and his extraordinary team as they built this new computer, from conception to product launch. In an amazing act of trust, Jobs granted Menuez unlimited access to the company, and, for the next three years, Menuez was able to get on film the spirit and substance of innovation through the day-to-day actions of the world's top technology guru. From there, the project expanded to include the most trailblazing companies in Silicon Valley, all of which granted Menuez the same complete access that Jobs had. Menuez photographed behind the scenes with John Warnock at Adobe, John Sculley at Apple, Bill Gates at Microsoft, John Doerr at Kleiner Perkins, Bill Joy at Sun Microsystems, Gordon Moore and Andy Grove at Intel, Marc Andreessen at Netscape, and more than seventy other leading companies and innovators. It would be fifteen years before Menuez stopped taking pictures, just as the dotcom bubble burst. An extraordinary era was coming to its close. With his singular behind-the-scenes access to these notoriously insular companies, Menuez was present for moments of heartbreaking failure and unexpected success, moments that made history, and moments that revealed the everyday lives of the individuals who made it happen. This period of rapid, radical change would affect almost every aspect of our culture and our lives in ways both large and small and would also create more jobs and wealth than any other time in human history. And Doug Menuez was there, a witness to a revolution. In more than a hundred photographs and accompanying commentary, *Fearless Genius* captures the human face of innovation and shows what it takes to transform powerful ideas into reality.

The Photographer's Guide to Posing Lindsay Adler, 2017-05-03 When photographing people, you can have a great composition, perfect light, and the right camera settings, but if your subject doesn't look right—if the pose is off—the shot will not be a keeper. Posing is truly a crucial skill that photographers need to have in order to create great photographs. If you're looking to improve your ability to pose your subjects—whether they're men, women, couples, or groups—best-selling author and photographer Lindsay Adler's *The Photographer's Guide to Posing: Techniques to Flatter Everyone* is the perfect resource for you. In the first half of *The Photographer's Guide to Posing*, Lindsay discusses how the camera sees, and thus how camera angle, lens choice, and perspective all

affect the appearance of your subject. Lindsay then covers things that ruin a pose—such as placement of the hands, and your subject’s expression and posture. Next, Lindsay dives into “posing essentials,” outlining her approach to start with a “base pose,” then build on that to create endless posing opportunities. She also discusses posing the face—with specific sections dedicated to the chin, jaw, eyes, and forehead—as well as posing hands. In the second half of the book, Lindsay dedicates entire chapters to posing specific subject matter: women, men, couples, curvy women, families and small groups, and large groups. In each chapter, Lindsay addresses that subject matter’s specific challenges, provides “go-to poses” you can always use, and covers how to train the eye to determine the best pose for your subject(s). Lindsay also teaches you how to analyze a pose so that you can create endless posing opportunities and continuously improve your work.

Women Street Photographers Gulnara Samoilova,2021-03-02 With a rising number of women throughout the world picking up their cameras and capturing their surroundings, this book explores the work of 100 women and the experiences behind their greatest images. Traditionally a male-dominated field, street photography is increasingly becoming the domain of women. This fantastic collection of images reflects that shift, showcasing 100 contemporary women street photographers working around the world today, accompanied by personal statements about their work. Various joy, unsettling and unexpected, the photographs capture a wide range of extraordinary moments. The volume is curated by Gulnara Samoilova, founder of the Women Street Photographers project: a website, social media platform and annual exhibition. Photographer Melissa Breyer's introductory essay explores how the genre has intersected with gender throughout history, looking at how cultural changes in gender roles have overlapped with technological developments in the camera to allow key historical figures to emerge. Her text is complemented by a foreword by renowned photojournalist Ami Vitale, whose career as a war photographer and, later, global travels with National Geographic have allowed a unique insight into the realities of working as a woman photographer in different countries.
