The Heart of Revelation J. Scott Duvall,2019-09-15 Let anyone who has ears to hear listen to what the Spirit says to the churches. The book of Revelation speaks powerfully to every aspect of the Christian life, and the modern church desperately needs the vision of hope that it provides. In this thematic approach to the Bible's final book, author J. Scott Duvall identifies ten major themes, including: God and his people, worship, enemies, the mission, and the new creation. In *The Heart of Revelation*, readers will understand how to read Revelation in context, asking, What are the main truths and realities of Revelation that we can know for certain? and learning how these truths are relevant to our lives as modern-day believers.

Introduction to Old Testament Theology John H. Sailhamer,1995 The author's purpose for Introduction to Old Testament Theology is to show how different approaches to the Old Testament can be brought together into a single theology. The author develops his own distinctive approach which he calls

canonical theology.

The Meaning of the Revelation Philip Carrington,2008-05-01 The object of this book is to provide a running commentary on the Book of Revelation, elucidating its meaning. Other introductory and technical considerations are subordinated to this main quest. Though a scholarly work, it is written in a manner free from technicalities so as to make it useful to the general reader. It was written with the hope that a simple treatise on Revelation's meaning would help clergy and others who often have to deal with people who take it in a false and literal sense. When the Revelation was originally written it was naturally accepted as an account of current events and of events shortly to come to pass; that is how it describes itself (Rev 1:1, 3; 22:6, 10), and that is how it was naturally taken. Unfortunately, the key to its meaning was soon lost, and its mystical symbolism was taken as literal description. When it reflects events of history, it is current events that it reflects. The Revelation represents great principles working themselves out in actual history. The book is a literary unity stamped throughout by the mark of a great genius. It is one of the loftiest mystical poems the world has produced. Revelation insists that certain events of worldwide importance are coming immediately, following the same general lines as Christ's Olivet Discourse, which spoke to events of which the Lord himself declared: Truly I say to you, this generation will not pass away until all these things take place (Matt 24:34).

Revelation M. Eugene Boring,2011-07-01 Eugene Boring addresses the issue of how thinking Christians who want to live faithfully and responsibly in today's world can hear the Word of God in Revelation.

The Little Book of Revelation Eli of Kittim,2013-02-15 This book is a fascinating study in search of the real Jesus. The author concludes that scripture is essentially a collection of prophecies, not a record of past events. Jesus did not say, Blessed is he who heeds the words of the history of this book, but rather Blessed is he who heeds the words of the prophecy of this book. Thus, the current tenets of Christianity with regard to the origin and advent of Jesus are based on fundamental misconceptions. The books argument is that Christs visitation has not yet occurred in the world of time, since it is a future event, and that his origin will be derived from the Greeks, not the Jews, when he does appear.

Four Views on the Book of Revelation Zondervan,2010-08-03 Of all the books of the Bible, few are as fascinating or as intimidating as Revelation. Four grim horsemen, the Antichrist, the ten-horned beast, the ultimate battle at Armageddon, the mark of the beast. It's no wonder that these images have gripped the imagination of so many--and have been variously interpreted as symbolizing everything from Hitler and Gorbachev to credit cards and the Internet. Is the book of Revelation a blueprint for the future? A book of powerful symbolic imagery with warnings for the church? Is it essentially an imaginative depiction of historical events in the first century? Four Views on the Book of Revelation explores four interpretations of the book of the Apocalypse: Preterist – a historical interpretation, arguing that most of John's prophecies occurred in the first century, soon after his writing of them. Idealist – a spiritual or symbolic interpretation, arguing that the events in Revelation are not literal, and that apocalyptic literature requires a different approach than the Gospels or Epistles. Classical dispensationalism – a literal interpretation based on a reading of Revelation that pays close attention to the rules of grammar and the separate eras of covenantal history. Progressive dispensationalism – a modification of classical that has its root in the understanding of Christ's reign beginning immediately after the resurrection. The Counterpoints series presents a comparison and critique of scholarly views on topics important to Christians that are both fair-minded and respectful of the biblical text. Each volume is a one-stop reference that allows readers to evaluate the different positions on a specific issue and form their own,

educated opinion.

In Quest of a Vital Protestant Center George Demetrion, 2014-10-06 *In Quest of a Vital Protestant Center* probes the relationship between Scripture and culture in twentieth-century US theology and biblical studies. It points to the necessity of turning to what Karl Barth has referred to as the strange new world within the Bible for any revitalization of mainline Protestantism in the tradition of the Protestant Reformers in critical dialogue with serious evangelical theology. The study includes a historical overview underlying what Demetrion refers to as the fundamentalist/modernist great divide, which continues to resonate powerfully in contemporary US Protestant thought and culture. Demetrion offers an in-depth exploration of four representative twentieth-century Protestant theologians and biblical scholars, spanning from the conservative evangelical theology of J. I. Packer to the postliberal dialectical theology of Walter Brueggemann. The book includes a chapter on the neo-orthodox legacy as a mediating resource in bringing evangelical and postliberal theology into dialogue with the core issues of theology, biblical hermeneutics, and religious culture. Demetrion concludes with a critically empathetic review of the postliberal dialectical theology of Douglas J. Hall and the evangelical narrative theology of Richard Lints. In linking evangelical, postliberal, and neo-orthodox theology to a common search for a vital Protestant center, this book will facilitate fruitful dialogue among divergent schools of Protestant thought and culture.
