Don't Push the Button! Bill Cotter,2013-11 There's only one rule in Larry's book: don't push the button. (Seriously, don't even think about it!) Even if it does look kind of nice, you must never push the button. Who knows what would happen? Okay, quick. No one is looking... push the button. Uh, oh.

God's Schools Melinda Bollar Wagner,1990 Melinda Wagner goes beyond this stereotype to portray the way these schools foster American popular culture and professional education culture as well as Christian culture. In her participant observation study of a variety of Christian schools (sponsored by fundamentalist, evangelical, new charismatic, Holiness, and Pentecostal Christians), Wagner describes and interprets how such compromises are made.

Button Man Andrew Gross,2018-09-18 “Mr. Gross's direct style is full of sentiment but never maudlin and well-suited to scenes of violent action. Button Man has plenty of zip—and lots of moxie, too. –Wall Street Journal This is a big, heartfelt handshake of a book, with all the street-scrambling energy that distinguishes the best fiction of Jeffrey Archer and Mario Puzo. –USA Today Following up *The One Man* and *The Saboteur*, Gross's next historical thriller brings to life the drama of the birth of organized crime in 1930s New York City from the tale of one family. After a string of New York Times bestselling suburban thrillers, Andrew Gross has reinvented himself as a writer of historical thrillers. In his latest novel, *Button Man*, he delivers a stirring story of a Jewish family brought together in the dawn of the women's garment business and torn apart by the birth of organized crime in New York City in the 1930s. Morris, Sol, and Harry Rabishevsky grew up poor and rough in a tiny flat on the Lower East Side, until the death of their father thrust them into having to fend for themselves and support their large family. Morris, the youngest, dropped out of school at twelve years old and apprenticed himself to a garment cutter in a clothing factory; Sol headed to accounting school; but Harry, scarred by a family tragedy, fell in with a gang of thugs as a teenager. Morris steadily climbs through the ranks at the factory until at twenty-one he finally goes out on his own, convincing Sol to come work with him. But Harry can't be lured away from the glamour, the power, and the money that come from his association with Louis Buchalter, whom Morris has battled with since his youth and who has risen to become the most ruthless mobster in New York. And when Buchalter sets his sights on the unions that staff the garment makers' factories, a fatal showdown is inevitable, pitting brother against brother. This new novel is equal parts historical thriller, rich with the detail of a vibrant New York City in the 1920s and 1930s, and family saga, based on Andrew Gross's own family story and on the history of the era, complete with appearances by real-life characters like mobsters Louis Lepke and Dutch Schultz and special prosecutor Thomas Dewey, and cements Gross's reputation as today's most atmospheric and original historical thriller writer.

Leaders Eat Last Simon Sinek,2017-05-23 Finally in paperback: the New York Times bestseller by the acclaimed, bestselling author of *Start With Why* and *Together is Better*. Now with an expanded chapter and appendix on leading millennials, based on Simon Sinek's viral video *Millenials in the workplace* (150+ million views). Imagine a world where almost everyone wakes up inspired to go to work, feels trusted and valued during the day, then returns home feeling fulfilled. This is not a crazy, idealized notion. Today, in many successful organizations, great leaders create environments in which people naturally work together to do remarkable things. In his work with organizations around the world, Simon Sinek noticed that some teams trust each other so deeply that they would literally put their lives on the line for each other. Other teams, no matter what incentives are offered, are doomed to infighting, fragmentation and failure. Why? The answer became clear during a conversation with a Marine Corps general. Officers eat last, he said. Sinek watched as the most junior Marines ate first while the most senior Marines took their place at the back of the line. What's symbolic in the chow hall is deadly serious on the battlefield: Great leaders sacrifice their own comfort—even their own survival—for the good of those in their care. Too many workplaces are driven by cynicism, paranoia, and self-interest. But the best ones foster trust and cooperation because their leaders build what Sinek calls a Circle of Safety that separates the security inside the team from the challenges outside. Sinek illustrates his ideas with fascinating true stories that range from the military to big business, from government to investment banking.
