Wyatt Earp: A Vigilante Life Andrew C. Isenberg, 2013-06-25 Finalist for the 2014 Weber-Clements Book Prize for the Best Non-fiction Book on Southwestern America In popular culture, Wyatt Earp is the hero of the Gunfight at the O.K. Corral in Tombstone, Arizona, and a beacon of rough cowboy justice in the tumultuous American West. The subject of dozens of films, he has been invoked in battles against organized crime (in the 1930s), communism (in the 1950s), and al-Qaeda (after 2001). Yet as the historian Andrew C. Isenberg reveals in *Wyatt Earp: A Vigilante Life*, the Hollywood Earp is largely a fiction—one created by none other than Earp himself. The lawman played on-screen by Henry Fonda and Burt Lancaster is stubbornly duty-bound; in actuality, Earp led a life of impulsive lawbreaking and shifting identities. When he wasn't wearing a badge, he was variously a thief, a brothel bouncer, a gambler, and a confidence man. As Isenberg writes, He donned and shucked off roles readily, whipsawing between lawman and lawbreaker, and pursued his changing ambitions recklessly, with little thought to the cost to himself, and still less thought to the cost, even the deadly cost, to others. By 1900, Earp's misdeeds had caught up with him: his involvement as a referee in a fixed heavyweight prizefight brought him national notoriety as a scoundrel. Stung by the press, Earp set out to rebuild his reputation. He spent his last decades in Los Angeles, where he befriended Western silent film actors and directors. Having tried and failed over the course of his life to invent a better future for himself, in the end he invented a better past. Isenberg argues that even though Earp, who died in 1929, did not live to see it, Hollywood's embrace of him as a paragon of law and order was his greatest confidence game of all. A searching account of the man and his enduring legend, and a book about our national fascination with extrajudicial violence, *Wyatt Earp: A Vigilante Life* is a resounding biography of a singular American figure.

Sites of Transformation Louise Ann Wilson, 2023-08-24 In this book practitioner and scholar Louise Ann Wilson examines the expanding field of socially engaged scenography and promotes the development of therapeutic scenography as an applied art form. Offering an account of her own practice combined with case studies drawing on artworks from Early Romanticism and the Land Art movement of the 1960s, Elena Brotherus (Finland), Tabitha Moses (UK) and Marina Abramovic's autobiographical walking-work *The Lovers: The Great Wall Walk* (1988, China), this is the first book on the emerging area of site-specific and therapeutic scenography. The book analyses how Wilson's interdisciplinary, site-specific walking-performances are created in rural landscapes and seek to emplace and transform a participant's experience of challenging life-events for which traditional rites of passage or ceremonies do not exist. The book explores the therapeutic effect of Wilson's practice, which becomes an instrument for personal and social change and can be understood as a form of applied performance practice. Case studies drawn from her own practice include *Fissure* (2011), *The Gathering* (2014), *Warnscale* (2015), *Mulliontide* (2016) and *Women's Walks to Remember* (2018). Each is illustrated and is supported by evidential material demonstrating the effects of the practice and research. Using this series of case studies, Wilson investigates how 'transformation' is achieved through an interdisciplinarily, three-tiered methodological process and the application of the concept of the feminine sublime, which she develops into six scenographic-led principles. These principles were informed by theories and aesthetics relating to landscape, pilgrimage, Early Romanticism, and a close study of the approach of Dorothy Wordsworth and her female contemporaries to landscape--

Chasing Eden Howard Mansfield, 2021 *Chasing Eden* is about seekers, Americans searching for their Eden, longing for a Promised Land, a utopia somewhere out on the horizon--a search that can be found in every era, and gives form and force to our lives in our pursuit of happiness--the primary occupation of every American.

The Green House Dan Lawton, 2020-07-30 The green house has the power to save a life, but when one man's grief becomes unbearable, it may run out of time to offer its influence.
