The Complete Idiot's Guide to Raising a Strong-Willed Child Helen Coronato,Mary-Michael Levitt Ed.S. LPC,2009-10-06 When because I'm the parent meets you're not the boss of me . . . Good news: there are many ways to parent willful children without everyday clashes. Here parents learn how to capitalize on children's strengths and make bad days more manageable. Full of ideas and techniques, it explores: how to use empathy first and discipline second; exercises and strategies that work to calm toddler tantrums; bringing teachers on board; raging hormones in teen rebels; and dealing with health and safety issues. • Much more positive than other parenting books, which focus on discipline and parental control • Helps parents understand and accept children for who they are, as well as who they can hope to be

Librarian's Guide to Passive Programming Emily T. Wichman,2012-03-07 Learn the concept of passive programming and get started easily with plans for implementing a wide array of intergenerational programs in libraries with this professional primer. Libraries are an integral part of the community, a fact that can often be overlooked in today's world of home-based online research. Passive programs encourage patrons to linger—either in the library or on the library's website—and promote a connection to the library's collections, its services, and the community. Librarian's Guide to Passive Programming: Easy and Affordable Activities for All Ages presents plans for 32 passive programs designed to capture the attention of library patrons. Each chapter—which contains programs grouped thematically—details the steps necessary to reproduce the programs, and includes supporting handouts, activities, and photographs. This helpful guide also examines what passive programming is, why passive programming is relevant, and offers strategies across all aspects of its implementation—from developing program ideas to evaluating program success.

The Lincoln Highway Amor Towles,2021-10-05 #1 NEW YORK TIMES BESTSELLER More than ONE MILLION copies sold A TODAY Show Read with Jenna Book Club Pick A New York Times Notable Book, and Chosen by Oprah Daily, Time, NPR, The Washington Post, Bill Gates and Barack Obama as a Best Book of the Year "Wise and wildly entertaining . . . permeated with light, wit, youth." —The New York Times Book Review "A classic that we will read for years to come." —Jenna Bush Hager, Read with Jenna book club "Fantastic. Set in 1954, Towles uses the story of two brothers to show that our personal journeys are never as linear or predictable as we might hope." —Bill Gates "A real joyride . . . elegantly constructed and compulsively readable." —NPR The bestselling author of A Gentleman in Moscow and Rules of Civility and master of absorbing, sophisticated fiction returns with a stylish and propulsive novel set in 1950s America In June, 1954, eighteen-year-old Emmett Watson is driven home to Nebraska by the warden of the juvenile work farm where he has just served fifteen months for involuntary manslaughter. His mother long gone, his father recently deceased, and the family farm foreclosed upon by the bank, Emmett's intention is to pick up his eight-year-old brother, Billy, and head to California where they can start their lives anew. But when the warden drives away, Emmett discovers that two friends from the work farm have hidden themselves in the trunk of the warden's car. Together, they have hatched an altogether different plan for Emmett's future, one that will take them all on a fateful journey in the opposite direction—to the City of New York. Spanning just ten days and told from multiple points of view, Towles's third novel will satisfy fans of his multi-layered literary styling while providing them an array of new and richly imagined settings, characters, and themes. "Once again, I was wowed by Towles's writing—especially because The Lincoln Highway is so different from A Gentleman in Moscow in terms of setting, plot, and themes. Towles is not a one-trick pony. Like all the best storytellers, he has range. He takes inspiration from famous hero's journeys, including The Iliad, The Odyssey, Hamlet, Huckleberry Finn, and Of Mice and Men. He seems to be saying that our personal journeys are never as linear or predictable as an interstate highway. But, he suggests, when something (or someone) tries to steer us off course, it is possible to take the wheel." –Bill Gates

Modern Embedded Computing Peter Barry,Patrick Crowley,2012-01-25 Modern Embedded Computing: Designing Connected, Pervasive, Media-Rich Systems provides a thorough understanding of the platform architecture of modern embedded computing systems that drive mobile devices. The book offers a comprehensive view of developing a framework for embedded systems-on-chips. Examples feature the Intel Atom processor, which is used in high-

end mobile devices such as e-readers, Internet-enabled TVs, tablets, and net books. This is a unique book in terms of its approach - moving towards consumer. It teaches readers how to design embedded processors for systems that support gaming, in-vehicle infotainment, medical records retrieval, point-of-sale purchasing, networking, digital storage, and many more retail, consumer and industrial applications. Beginning with a discussion of embedded platform architecture and Intel Atom-specific architecture, modular chapters cover system boot-up, operating systems, power optimization, graphics and multi-media, connectivity, and platform tuning. Companion lab materials complement the chapters, offering hands-on embedded design experience. This text will appeal not only to professional embedded system designers but also to students in computer architecture, electrical engineering, and embedded system design. Learn embedded systems design with the Intel Atom Processor, based on the dominant PC chip architecture. Examples use Atom and offer comparisons to other platforms Design embedded processors for systems that support gaming, in-vehicle infotainment, medical records retrieval, point-of-sale purchasing, networking, digital storage, and many more retail, consumer and industrial applications Explore companion lab materials online that offer hands-on embedded design experience

Countdown to Zero Day Kim Zetter,2015-09-01 A top cybersecurity journalist tells the story behind the virus that sabotaged Iran's nuclear efforts and shows how its existence has ushered in a new age of warfare—one in which a digital attack can have the same destructive capability as a megaton bomb. "Immensely enjoyable . . . Zetter turns a complicated and technical cyber story into an engrossing whodunit."—The Washington Post The virus now known as Stuxnet was unlike any other piece of malware built before: Rather than simply hijacking targeted computers or stealing information from them, it proved that a piece of code could escape the digital realm and wreak actual, physical destruction—in this case, on an Iranian nuclear facility. In these pages, journalist Kim Zetter tells the whole story behind the world's first cyberweapon, covering its genesis in the corridors of the White House and its effects in Iran—and telling the spectacular, unlikely tale of the security geeks who managed to unravel a top secret sabotage campaign years in the making. But Countdown to Zero Day also ranges beyond Stuxnet itself, exploring the history of cyberwarfare and its future, showing us what might happen should our infrastructure be targeted by a Stuxnet-style attack, and ultimately, providing a portrait of a world at the edge of a new kind of war.

The Essence of Value Mario Pricken,2019-04-09 For his new book, Mario Pricken has thoroughly analyzed more than 300 products, objects and events over their entire lifecycles in order to reveal, for the first time, the patterns that make things extraordinarily valuable. On the basis of his analysis, he has identified 80 parameters that can be found, for example, in the biographies of exceptional cars, watches, luxury foods, designer furniture, artwork and services - such as the elements of uniqueness, scarcity, the effect of time or magnificently orchestrated transfers of ownership. In addition, the book provides a comprehensive catalog of questions to help us generate our own ideas for giving products that special something which transforms them into objects of desire. The Essence of Value is an inspiring book for progressive, creative people involved in product development, marketing, design, events and the arts as well as recommended reading for those who appreciate fine things and want to understand what makes products particularly special and valuable. The book focusses on intuition and understanding, but it also inspires and entertains, offering us an entirely new way of looking at the creation, marketing and purchase of truly desirable products. This travel guide through the world of valuable products and objects - reveals, based on examples from the worlds of business, the arts and religion, and with numerous accompanying illustrations, the fundamental parameters that create value and make products shine - can be used as an analytical tool to quickly and easily determine the value-DNA of a product - provides over 300 thought-provoking questions to inspire new ideas on how to imbue products with value - shows professionals a clear and practical application of the value parameters.

MEDITATIONS FOR COPS Arnold Rubey,2020-03-05 Meditations for Cops are contemplations that focus on the world of law enforcement. That world is unique; distinctly beyond the ordinary; and one vocational world that few complete totally fulfilled and without some regrets. Cops see much, experience much, and tend to carry too much baggage over the course of their careers. In a sense, they have no choice. Their world is one with many indelible images and memories. As a result, they too need nurturing, even when they don't think so, and they can always benefit from viable, supportive voices that infuse positive steerage in matters secular and sacred. These reflections address both for the specialized world of law enforcement. These thoughts speak to an officer's personal life, to one's emotional and spiritual mind-set, to issues and colleagues, to sensitive matters, to integrity, to how one copes with hard experiences, to how God fits the big picture, and to many more perspectives. Some hit rather hard, chip away at ego, ask for transparency and honesty, and some speak frankly about enhanced risks; still others call for recognition of God, His standards, and His strength in the fulfillment of this calling. Most of all, these meditations seek to bring out the highest and best in those who don the uniform, who wear the badge, and who bravely and faithfully serve as cops. To those of us who know, you who carry out your calling in this way are highly respected and rightfully honored.

Dream On Amber Emma Shevah,2014-03-06 Amber is facing up to life without Dad. He left when she was little, but now she really needs him, and if he isn't coming back she'll have to dream up other ways to sort things out. But replying to her little sister's 'Dear Dad' letters was definitely not one of her best ideas ...
