Words Without Borders Alane Salierno Mason, Dedi Felman, Samantha Schnee, 2007-03-13

Featuring the work of more than 28 writers from upwards of 20 countries, this collection transports us to the frontiers of twenty-first century literature. In these pages, some of the most accomplished writers in world literature—among them Edwidge Danticat, Ha Jin, Cynthia Ozick, Javier Marias, and Nobel laureates Wole Soyinka, Günter Grass, Czeslaw Milosz, Wislawa Szymborska, and Naguib Mahfouz—have stepped forward to introduce us to dazzling literary talents virtually unknown to readers of English. Most of their work—short stories, poems, essays, and excerpts from novels—appears here in English for the first time. The Chilean writer Ariel Dorfman introduces us to a story of extraordinary poise and spiritual intelligence by the Argentinian writer Juan Forn. The Romanian writer Norman Manea shares with us the sexy, sinister, and thrillingly avant garde fiction of his homeland's leading female novelist. The Indian writer Amit Chaudhuri spotlights the Bengali writer Parashuram, whose hilarious comedy of manners imagines what might have happened if Britain had been colonized by Bengal. And Roberto Calasso writes admiringly of his fellow Italian Giorgio Manganelli, whose piece celebrates the Indian city of Madurai. Every piece here—be it from the Americas, Africa, Europe, the Middle East, South Asia, East Asia, Southeast Asia, or the Caribbean—is a discovery, a colorful thread in a global weave of literary exchange. Edited by Samantha Schnee, Alane Salierno Mason, and Dedi Felman

Equids--zebras, Asses, and Horses Patricia Des Roses Moehlman, IUCN/SSC Equid Specialist Group, 2002 The new Equid Action Plan provides current knowledge on the biology, ecology and conservation status of wild zebras, asses, and horses. It specifies what information is lacking, and prioritizes needed conservation actions. The Action Plan also provides chapters on equid taxonomy, genetics, reproductive biology, and population dynamics. These chapters highlight unsolved issues of taxonomy and genetics. They also provide information and insight into the special demographic and genetic challenges of managing small populations. The chapter on disease provides a review of documented equine disease and epidemiology and focuses on priorities for equid conservation health. The final chapter deals with the importance of developing an assessment methodology that explicitly considers the role of equids in ecosystems and the ecological processes that are necessary for ecosystem viability. The approach of combining ecological field studies and ecosystem modeling should prove useful for the scientific management and conservation of wild equids worldwide. These chapters provide research and conservation practitioners with new information and paradigms.

Guns, Germs, and Steel: The Fates of Human Societies Jared Diamond, 1999-04-17
Fascinating.... Lays a foundation for understanding human history.—Bill Gates In this artful, informative, and delightful (William H. McNeill, New York Review of Books) book, Jared Diamond convincingly argues that geographical and environmental factors shaped the modern world. Societies that had had a head start in food production advanced beyond the hunter-gatherer stage, and then developed religion --as well as nasty germs and potent weapons of war --and adventured on sea and land to conquer and decimate preliterate cultures. A major advance in our understanding of human societies, Guns, Germs, and Steel chronicles the way that the modern world came to be and stunningly dismantles racially based theories of human history. Winner of the Pulitzer Prize, the Phi Beta Kappa Award in Science, the Rhone-Poulenc Prize, and the Commonwealth club of California's Gold Medal.

The Master and Margarita Mikhail Bulgakov, 2016-03-18 Satan comes to Soviet Moscow in this critically acclaimed translation of one of the most important and best-loved modern classics in world literature. The Master and Margarita has been captivating readers around the world ever since its first publication in 1967. Written during Stalin's time in power but suppressed in the Soviet Union for decades, Bulgakov's masterpiece is an ironic parable on power and its corruption, on good and evil, and on human frailty and the strength of love. In The Master and Margarita, the Devil himself pays a visit to Soviet Moscow. Accompanied by a retinue that includes the fast-talking, vodka-drinking, giant tomcat Behemoth, he sets about creating a whirlwind of chaos that soon involves the beautiful Margarita and her beloved, a distraught writer known only as the Master, and even Jesus Christ and Pontius Pilate. The Master and Margarita combines fable, fantasy, political satire, and slapstick comedy to create a wildly entertaining and unforgettable tale that is commonly considered the greatest novel to come out of the Soviet Union. It appears in this edition in a translation by Mirra Ginsburg that was judged "brilliant" by Publishers Weekly. Praise for The Master and Margarita "A wild surrealistic romp. . . . Brilliantly flamboyant and outrageous." —Joyce Carol Oates, The Detroit News

"Fine, funny, imaginative. . . . The Master and Margarita stands squarely in the great Gogolesque tradition of satiric narrative." —Saul Maloff, Newsweek "A rich, funny, moving and bitter novel. . . . Vast and boisterous entertainment." —The New York Times "The book is by turns hilarious, mysterious, contemplative and poignant. . . . A great work." —Chicago Tribune "Funny, devilish, brilliant satire. . . . It's literature of the highest order and . . . it will deliver a full measure of enjoyment and enlightenment." —Publishers Weekly

The Nature of Spectacle Jim Igoe, 2017-09-12 A thoughtful treatise on how popular representations of nature, through entertainment and tourism, shape how we imagine environmental problems and their solutions--Provided by publisher.

Memories, Dreams, Reflections Carl G. Jung, 2011-01-26 An eye-opening biography of one of the most influential psychiatrists of the modern age, drawing from his lectures, conversations, and own writings. An important, firsthand document for readers who wish to understand this seminal writer and thinker. —Booklist In the spring of 1957, when he was eighty-one years old, Carl Gustav Jung undertook the telling of his life story. *Memories, Dreams, Reflections* is that book, composed of conversations with his colleague and friend Aniela Jaffé, as well as chapters written in his own hand, and other materials. Rhythms of the Brain G. Buzsáki, 2011 Studies of mechanisms in the brain that allow complicated things to happen in a coordinated fashion have produced some of the most spectacular discoveries in neuroscience. This book provides eloquent support for the idea that spontaneous neuron activity, far from being mere noise, is actually the source of our cognitive abilities. It takes a fresh look at the coevolution of structure and function in the mammalian brain, illustrating how self-emerged oscillatory timing is the brain's fundamental organizer of neuronal information. The small-world-like connectivity of the cerebral cortex allows for global computation on multiple spatial and temporal scales. The perpetual interactions among the multiple network oscillators keep cortical systems in a

highly sensitive metastable state and provide energy-efficient synchronizing mechanisms via weak links. In a sequence of cycles, György Buzsáki guides the reader from the physics of oscillations through neuronal assembly organization to complex cognitive processing and memory storage. His clear, fluid writing-accessible to any reader with some scientific knowledge-is supplemented by extensive footnotes and references that make it just as gratifying and instructive a read for the specialist. The coherent view of a single author who has been at the forefront of research in this exciting field, this volume is essential reading for anyone interested in our rapidly evolving understanding of the brain.
