Riding the Dirt Bike Evolution Lewis Hale,2020-03-02 It's that thing when you see yourself riding through town on your street bike with the wind blowing in your hair and your beautiful girlfriend riding behind, wearing only shorts, sandals, and a halter top. Sounds like fun? Sure does! But someday you may want something different. It's that thing as you are taken back into the 1950s—just as Japan began sending low-cost fun-loving motorcycles to the US. With the 1960s came a new motorcycling challenge—the introduction of Europe's exhausting sport of motocross. This collection of short stories will take you through years of "The Dirt Bike Evolution" when motorcyclists across America were being introduced to various forms of racing on dirt courses, sandy trails, and mountain paths. You will experience the challenges of traveling to these events. Each decade has brought advances in technology and development of the dirt bike. Today X Games performers are doing double flips in the air on these high-tech machines to the excitement of their stadium-filled audiences. Sylvie and Me Steve Male,2020-04-29 I was approaching way too fast, with no time to stop. I didn't even try; I simply let Sylvie charge into the gravel full tilt, coming to a remarkably fast stop. Half a dozen marshals stared at me wide-eyed. I watched their arms raise as I sunk into the welcoming stones. With the wheels buried axle-deep, I lost my balance and keeled over, Sylvie resting on top of me. I flicked the kill switch and everything went quiet.Sylvie And Me is the dramatic, humorous and candid memoir of a fool who always wanted to race. At the age of fifty-six and a half, Steve Male decided it was a good time to start motorcycle racing. With no real experience, he bought an old Suzuki SV650, got his licence and joined the local racing club with some very modest goals:1. Enter one race meeting.2. Take part in at least one race.3. Complete at least one race.4. Don't crash.5. Don't finish last.6. Don't die trying.Armed with nothing but over-optimism and an ageing bike, he entered the 2019 Bemsee Rookie Minitwin Championship, hoping to scratch a 40-year-old itch. Not only did he do that but he managed to squeeze a lifetime's worth of experiences into six short weekends. Follow

his progress from wannabe to race licence holder. Share the highs, the lows and the dangers he witnessed, proving that even someone as poorly prepared as he was could still come out the other side and say, I am a racer. Steve Male is a middle-aged father of two and obsessive motorcycle fan. Inheriting his father's enthusiasm, he has owned bikes since he was 14. He rekindled an interest in bike racing in his forties, supporting a number of young racers via his GP Future website. He lives with the ever-patient Cheryl and their two dogs in East Sussex but his heart belongs to the race track. Or so he thinks.

Features of Race Track Design Ed Bargy, 2014-10-03 This book was written by Ed Bargy with well over five decades experience in the motor racing field. Ed's first exposure to the race track was NASCAR dirt oval racing in upstate NY at the age of 9. Ed started motorcycle road racing in the sixties while stationed in the UK with the USAF. Ed has gone on to hold every position in the motorcycle road racing sport from a national level racer to senior national race official, race promoter and racing school founder/owner. Ed has seen firsthand what works and what does not work on the race track. Most road courses of today were primarily designed for automobile racing. The needs of the motorcycle road racer are seldom taken into account. A track can be designed to be totally safe for autos and still be extremely deadly for bike riders. Where, if a track is designed to be safe for bikes, it will also be totally safe for cars.
