Giving Bill Clinton, 2007-09-04 Here, from Bill Clinton, is a call to action. Giving is an inspiring look at how each of us can change the world. First, it reveals the extraordinary and innovative efforts now being made by companies and organizations—and by individuals—to solve problems and save lives both “down the street and around the world.” Then it urges us to seek out what each of us, “regardless of income, available time, age, and skills,” can do to help, to give people a chance to live out their dreams. Bill Clinton shares his own experiences and those of other givers, representing a global flood tide of nongovernmental, nonprofit activity. These remarkable stories demonstrate that gifts of time, skills, things, and ideas are as important and effective as contributions of money. From Bill and Melinda Gates to a six-year-old California girl named McKenzie Steiner, who organized and supervised drives to clean up the beach in her community, Clinton introduces us to both well-known and unknown heroes of giving. Among them: Dr. Paul Farmer, who grew up living in the family bus in a trailer park, vowed to devote his life to giving high-quality medical care to the poor and has built innovative public health-care clinics first in Haiti and then in Rwanda; a New York couple, in Africa for a wedding, who visited several schools in Zimbabwe and were appalled by the absence of textbooks and school supplies. They founded their own organization to gather and ship materials to

thirty-five schools. After three years, the percentage of seventh-graders who pass reading tests increased from 5 percent to 60 percent;' Oseola McCarty, who after seventy-five years of eking out a living by washing and ironing, gave \$150,000 to the University of Southern Mississippi to endow a scholarship fund for African-American students; Andre Agassi, who has created a college preparatory academy in the Las Vegas neighborhood with the city's highest percentage of at-risk kids. "Tennis was a stepping-stone for me," says Agassi. "Changing a child's life is what I always wanted to do"; Heifer International, which gave twelve goats to a Ugandan village. Within a year, Beatrice Biira's mother had earned enough money selling goat's milk to pay Beatrice's school fees and eventually to send all her children to school—and, as required, to pass on a baby goat to another family, thus multiplying the impact of the gift. Clinton writes about men and women who traded in their corporate careers, and the fulfillment they now experience through giving. He writes about energy-efficient practices, about progressive companies going green, about promoting fair wages and decent working conditions around the world. He shows us how one of the most important ways of giving can be an effort to change, improve, or protect a government policy. He outlines what we as individuals can do, the steps we can take, how much we should consider giving, and why our giving is so important. Bill Clinton's own actions in his post-presidential years have had an enormous impact on the lives of millions. Through his foundation and his work in the aftermath of the Asian tsunami and Hurricane Katrina, he has become an international spokesperson and model for the power of giving. "We all have the capacity to do great things," President Clinton says. "My hope is that the people and stories in this book will lift spirits, touch hearts, and demonstrate that citizen activism and service can be a powerful agent of change in the world."

The Clinton Enigma David Maraniss, 1999-01-08 Pulitzer Prize-winning journalist David Maraniss, regarded by his peers as the nation's leading expert on Bill Clinton, sat in a darkened television studio in New York on the night of August 17 and watched the president deliver his curious apologia confessing that he had misled the nation about his relationship with Monica Lewinsky. As Maraniss, the author of *First in His Class*, the highly acclaimed Clinton biography, listened to the president's words that night, it struck him that he had heard them all before, though never in one speech, and that in those four and a half minutes Clinton had revealed all the contradictory qualities of his tumultuous life and political career. In this insightful new book, drawing from the biography and his writings for *The Washington Post*, Maraniss dissects the speech as a revelation of the president's entire life. Alternately reckless and cautious, righteous and repentant, evasive and forgetful, relying on family and friends to protect him, affirming his faith in God and then turning to polls to tell him what the public would tolerate, communicating with the public over the heads of pundits and professionals, transforming his personal trauma into a political cause by attacking his and his wife's enemies, asking us all to put his troubles behind us, Clinton combined all his weaknesses and strengths in that one brief address. In the first section of *The Clinton Enigma*, Maraniss reflects as a biographer on his curious but revealing dealings with Clinton over the years. Then, after Clinton has spoken, Maraniss dissects the words and interprets the deeper meaning paragraph by paragraph, to show the roots and echoes from the president's past and to explain why Clinton acts and speaks as he does. With Bill Clinton, Maraniss writes, past is always prologue.

William Jefferson Clinton's Third State of the Union Address Bill Clinton, 2020-12-08 In this address, the 42nd President discussed welfare reform, the V-chip, education, community policing, crime and the environment. It is ranked highly among Presidential addresses and was the one in which Clinton said the memorable sentence 'Big government is over.'

William Jefferson Clinton's Eighth State of the Union Address Bill Clinton, 2020-12-08 President Clinton gave this address in January 2000. It is noted for being the longest presidential address ever, at nearly one and a half hours. For the first time since Reagan's last speech, all 9 members of the Supreme Court were absent.

A Complicated Man Michael Takiff, 2010-10-19 "An astonishing collection of 171 interviews with Clinton's friends, foes, admirers, and detractors as well as reporters and political analysts."—Booklist (starred review). Though Bill Clinton has been out of office since 2001, public fascination with him continues unabated. Many books about Clinton have been published in recent years, but shockingly, no single-volume biography covers the full scope of Clinton's life from the cradle to the present day, not even Clinton's own account, *My Life*. More troubling still, books on Clinton have tended to be highly polarized, casting the former president in an overly positive or negative light. In this, the first complete oral history of Clinton's life, historian Michael Takiff presents the first truly balanced book on one of our nation's most controversial and fascinating presidents. Through more than 150 chronologically arranged interviews with key figures—including Bob Dole, James Carville, and Tom Brokaw, among many others—*A Complicated Man* goes far beyond the well-worn party-line territory to capture the larger-than-life essence of Clinton the man. With the tremendous attention given to the Lewinsky scandal, it is easy to overlook the president's humble upbringing, as well as his many achievements at home and abroad: the longest economic boom in American history, a balanced budget, successful intervention in the Balkans, and a series of landmark, if controversial, free-trade agreements. Through the candid recollections of Takiff's many subjects, *A Complicated Man* leaves no area unexplored, revealing the most complete and unexpected portrait of our forty-second president published to date. "Packed with fascinating personal perspective and testimony."—Nigel Hamilton, bestselling and award-winning author of *American Caesars*

Lend Me Your Ears William Safire, 1997 William Safire's invaluable and immensely entertaining *Lend Me Your Ears* established itself instantly as a classic treasury of the greatest speeches in human history. Selected with the instincts of a great speechwriter and language maven, arranged by theme and occasion, each deftly introduced and placed in context, the more than two hundred speeches in this compilation demonstrate the enduring power of human eloquence to inspire, to uplift, and to motivate. For this expanded edition Safire has selected more than twenty new speeches by such figures as President Bill Clinton, Senator Robert Dole, General Colin Powell, Microsoft's Bill Gates, the Dalai Lama, Edward R. Murrow, Alistair Cooke, the Buddha, and the late Israeli Prime Minister Yitzhak Rabin. They prove that even in a digital age the most forceful medium of communication is still the human voice speaking directly to the mind, heart, and soul.

POTUS Speaks Michael Waldman, 2000 President Clinton's chief speech writer from 1992 to 1999 takes readers inside the West Wing in the rapid-fire, modern media age and reveals what it is like to be in the eye of that hurricane. The debate about Clinton's legacy has begun, and Waldman's account suggests that Clinton was in unexpected ways an effective and important president.

American Voices Bernard K. Duffy, Richard Leeman, 2005-08-30 Contemporary public speaking remains an important part of our national life and a substantial force in shaping current events. Many of America's most important moments and issues, such as wars, scandals, election campaigns, September 11, 2001, have been defined by oratory. Here, over 50 essays cover a substantial and interesting group of major American social, political, economic, and cultural figures from the 1960s to the present. Each entry explains the biographical forces that shaped a speaker and his or her rhetorical approach, focuses mainly on a discussion of the orator's major speeches within the context of historical events, and concludes with an appraisal of the speaker and his or her contribution to American political and social life. All entries incorporate chronologies of major speeches, bibliographies including primary sources, biographies, and critical studies and archival collections or Web sites appropriate for student research. Entries include high profile individuals such as: John

D. Ashcroft, Elizabeth Dole, Jerry Falwell, Anita Hill, Ralph Nader, Ronald Reagan, Janet Reno, Gloria Steinem, Malcolm X; and many others. Excerpts of major speeches and sidebars complement the text. Ideal for researchers and students in public speaking classes, American history classes, American politics classes, contemporary public address classes, and rhetorical theory/criticism classes.

The Lovers' Quarrel Elvin T. Lim, 2014-06-13 The United States has had not one, but two Foundings. The Constitution produced by the Second Founding came to be only after a vociferous battle between Federalists and Anti-Federalists. The Federalists favored a relatively powerful central government, while the Anti-Federalists distrusted the concentration of power in one place and advocated the preservation of sovereignty in the states as crucibles of post-revolutionary republicanism -- the legacy of the First Founding. This philosophical cleavage has been at the heart of practically every major political conflict in U.S. history, and lives on today in debates between modern liberals and conservatives. In *The Lovers' Quarrel*, Elvin T. Lim presents a systematic and innovative analysis of this perennial struggle. The framers of the second Constitution, the Federalists, were not operating in an ideational or institutional vacuum; rather, the document they drafted and ratified was designed to remedy the perceived flaws of the Articles of Confederation and Perpetual Union. To decouple the Two Foundings is to appreciate that there is no such thing as original meaning, only original dissent. Because the Anti-Federalists insisted that prior and democratically sanctioned understandings of federalism and union had to be negotiated and partially grafted onto the new Constitution, the Constitution's Articles and the Bill of Rights do not cohere as well together as has conventionally been thought. Rather, they represent two antithetical orientations toward power, liberty, and republicanism. The altercation over the necessity of the Second Founding generated coherent and self-contained philosophies that would become the core of American political thought, reproduced and transmitted across two centuries, whether the victors were the neo-Federalists (such as during the Civil War and the New Deal) or the neo-Anti-Federalists (such as during the Jacksonian era and the Reagan Revolution). The Second Founding -- the sole founding that we generally speak of -- would become a template for the unique, prototypically American species of politics and political debate. Because of it, American political development occurs only after the political entrepreneurs of each generation lock horns in a Lovers' Quarrel about the principles of one of the Two Foundings, and succeed in justifying and forging a durable expansion or contraction of federal authority.

The Quest for Argumentative Equivalence Emanuele Brambilla, 2020-02-17 What are the implications of strategic manoeuvring for the activity of the simultaneous interpreter? This is the main question addressed in *The Quest for Argumentative Equivalence*. Based on the analysis of a multilingual comparable corpus named ARGO, the book investigates political argumentation with an eye to its reformulation by interpreters. After reporting and discussing a series of case studies illustrating interpreters' problems in the political context, the study reconstructs the prototypical argumentative patterns used by Obama, Cameron, Sarkozy and Hollande not only in a hermeneutical perspective, but also considering interpreters' need to reproduce them into a foreign language. Situated at the intersection of Argumentation Theory and Interpreting Studies, the book provides a contribution to the descriptive study of political argumentation, highlighting the presence of interpreters as a key contextual variable in political communication and deepening the study of the interlinguistic and translational implications of the act of arguing.

American Speeches Vol. 2 (LOA #167) Ted Widmer, 2006-10-05 The history of American oratory exhibits, in the words of William F. Buckley, "powerful ignition points for hot flashes of indignation, contempt, rage, veneration and yearning." This volume (the second of an unprecedented two-volume collection) gathers the unabridged texts of 83 eloquent and dramatic speeches delivered by 45 American public figures between 1865 and 1997, beginning with Abraham Lincoln's last speech on Reconstruction and ending with Bill Clinton's heartfelt tribute to the Little Rock Nine. During this period American political oratory continued to evolve, as a more conversational style, influenced by the intimacy of radio and television, emerged alongside traditional forms of rhetoric. Included are

speeches on Reconstruction by Thaddeus Stevens and African-American congressman Robert Brown Elliott, Frederick Douglass's brilliant oration on Abraham Lincoln, and Oliver Wendell Holmes's "touched with fire" Memorial Day Address. Speeches by Robert Ingersoll and William Jennings Bryan capture the fervor of 19th-century political conventions, while Theodore Roosevelt and Carl Schurz offer opposing views on imperialism. Ida B. Wells and Mary Church Terrell denounce the cruelty of lynching and the injustice of Jim Crow; Susan B. Anthony, Elizabeth Cady Stanton, and Carrie Chapman Catt advocate the enfranchisement of women; and Woodrow Wilson and Henry Cabot Lodge present conflicting visions of the League of Nations. Also included are wartime speeches by George Patton and Dwight Eisenhower; an address on the atomic bomb by J. Robert Oppenheimer; Richard Nixon's "Checkers Speech;" Malcolm X's "The Ballot or the Bullet;" Barry Goldwater's speech to the 1964 Republican convention; Mario Savio urging Berkeley students to stop "the machine;" Barbara Jordan defending the Constitution during Watergate; and an extensive selection of speeches by Franklin Roosevelt, Martin Luther King, John F. Kennedy, and Ronald Reagan. Each volume contains biographical and explanatory notes, and an index
