Drills and Exercises for Pool and Pocket Billiards Players Allan P. Sand, Do you seriously want to lose less and win more often? If so, then you need to understand the importance of practice. Time must be spent (daily or weekly) to learn how to force the balls to obey your intentions. Even 15-20 minutes a week of focused learning will improve your playing skills. This book is your shortcut opportunity to advance your skills and win more games. These exercises and drills are designed to improve all of your skills – physical and mental. Your practice sessions will be much more interesting and challenging. There are hundreds of exercises and drills. Every playing skill is included -- cue ball control (reverse spin, top spin), pocketing skills (straight and many different angles), and more – lots more. ++++++++ These drills and exercises are based on the concept of progressive advancement. Start with an easy setup. When you comfortable, increase the difficulty factor. Use these problems in two ways. At home, review an exercise. Consider how you must play the shot. Then, imagine the ball positions on the table in your head. Carefully and thoughtfully play the shot. Consider variations on the problem. Can you do this at different speeds? What are the consequences? Make notes as you think about different ideas - assumptions, possibilities, and variations. Then, at the practice table, select the problem you want to fix. Put down the paper reinforcement rings. Set up the ball configuration. Practice the configuration until it is easy, then try the exercise with left and right side spin on the ball – and at different speeds. Observe the results, and make adjustments. ++++++++ How to become the intelligent shooter!! You must decide to become a competitive player. Integrate a simple dedication to intentionally improve your skills. Start with 15 minute sessions, no more than 2 or 3 per day. Keep to a regular weekly schedule. Concentrate on one single improvement at each session. You will quickly observe improved table skills – and enjoy the experience of winning more games.

Robert Byrne will help novice and experienced players alike perfect their trick shots and learn about the historical context of each trick. Trick shots are anything amusing, surprising, or educational that can be done on a pool or billiard table with standard accessories, and have been around as long as the game itself. Byrne demonstrates historical shots, including some invented by the famous Captain Mingaud, the world's first professional exhibition player, and newer tricks seen while travelling to tournaments around the world. Filled with easy as well as hard, and technical as well as showy tricks, the book's clear diagrams, paired with secret insider tips, describe simpler stunts for the beginner, those that take years of practice, and some that the author doubts you'll ever be able to do. Whether you want to impress a crowd, a group of friends, or yourself, Byrne's wild, stunning, and unforgettable trick shots will make you question some principles of physics and wow an audience of one or one-hundred.
