Abu Dhabi's Vision 2030 Linda Low, 2012 This book aims to tell the Abu Dhabi story in economic development, from its past dominance in oil to its economic vision for the future. More than being an exemplar of industrial restructuring and diversification from a resource-based to a 21st century knowledge-based economy and society, Abu Dhabi emphasises its cultural legacy and tradition as an environmental advocate for green and sustainable pathways. It has as many challenges as creative responses to show that its success is not by wealth alone. This case study unveils Abu Dhabi in particular and the rest of Arabic and GCC economic development in general. They have all attracted foreign investment and global business, typically as hydrocarbon-rich resource economies. Beyond that, the geoeconomics and geopolitics of the Middle East and North Africa, with or without the Arab Spring in 2011 is in and of itself, a rich region for multidisciplinary studies and research, not just for economics and business. With Qatar, Abu Dhabi boasts of one of the highest per capita income in the world; therein lies a reason to enquire about its success and pivotal role in the GCC and global contexts.

Oil, Power, and War Matthieu Auzanneau,2020-02-20 The story of oil is one of hubris, fortune, betrayal, and destruction. It is the story of a resource that has been undeniably central to the creation of our modern culture, and ever-present during the darkest exploits of empire the world over. For the past 150 years, oil has become the most essential ingredient for economic, military, and political power. And it has brought us to our present moment in which political leaders and the fossil-fuel industry consider extraordinary, and extraordinarily dangerous, policy on a world stage marked by shifting power bases. Upending the conventional wisdom by crafting a “people’s history,” award-winning journalist Matthieu Auzanneau deftly traces how oil became a national and then global addiction, outlines the enormous consequences of that addiction, sheds new light on major historical and contemporary figures, and raises new questions about stories we thought we knew well: What really sparked the oil crises in the 1970s, the shift away from the gold standard at Bretton Woods, or even the financial crash of 2008? How has oil shaped the events that have defined our times: two world wars, the Cold War, the Great Depression, ongoing wars in the Middle East, the

advent of neoliberalism, and the Great Recession, among them? With brutal clarity, *Oil, Power, and War* exposes the heavy hand oil has had in all of our lives—and illustrates how much heavier that hand could get during the increasingly desperate race to control the last of the world's easily and cheaply extractable reserves.

Osama bin Laden Thomas R. Mockaitis, 2010-01-29 This concise biography of the world's most notorious terrorist tells the fascinating story of the evolution of a wealthy businessman's son to the 9/11 mastermind who declared war on America. Osama bin Laden: A Biography offers a concise, fact-based portrait of a man whose rise from obscurity to notoriety coincides with some of the most traumatic events of the 21st century. It follows bin Laden's story from his life in Saudi society in the 1960s and 1970s to his religious conversion, his emergence as a jihadist leader, his horrifying terrorist attacks, and his near-mythic status in parts of the Muslim world today. Drawing on a wide range of sources, Osama bin Laden finds the political and religious roots of a worldview that combines devout faith with a belief in violence and terrorism. The book pays particular attention to the spread of radical Islam from Egypt to Saudi Arabia and beyond, as well as the development of Al Qaeda and its current scope and capabilities.

Political Transformation of Gulf Tribal States Shaul Yanai, 2014-09-01 The

reform movements and attempts to establish parliamentary institutions in the Persian Gulf states of Kuwait, Bahrain and Dubai between the First World War and the independent era of the 1970s were not inspired by western example or by any tradition of civil representation. The move to a parliamentary system not only represented a milestone in the history of the region, creating a legacy for future generations, but was a unique transition in the Arab world. The transformation of these states from loose chiefdoms of minimal coherence and centralization, into centralizing and institutionalized monarchies, involved the setting up of primary institutions of government, the demarcation of borders, and establishment of a monarchical order. As this new political and social order evolved, ideas of national struggle and national rights penetrated Gulf societies. Gulf citizens who had spent time in Arab states, mostly in Egypt and Iraq, took part in the genesis of a public Arab-Gulf national discourse, enabling the Gulf population to become acquainted with national struggles for independence. As a result merchants of notable families, newly educated elements, and even workers, began to oppose the dominance of the rulers. Both the rulers and the commercial elites (including members of the ruling families) tried to formulate a new and different social contract with the rulers seeking to entrench their political power by using new administrative means and financial power. Opposition against this current crystallized in 1938 among the ranks of the commercial oligarchy as well as within the ruling families. In spite of its failure to create its own

political institutions, the oligarchy remained the foremost social and economic class. But the ruling families could no longer treat national oil revenues as their private income, and they began to channel part of these funds to public needs. The most important consequence of the '1938' movement was the formation of a new social contract between the two traditional power centers: the governing structures were fitted into the political and economic reality brought about by the oil wealth, but remained essentially tribal and committed to the power division between the major Gulf families.

Salem Express John J. Duggan, 2007-01-09 Although a work of fiction, the book begins with the sinking of the Salem Express, which actually occurred in December, 1991. It introduces a terrorist cell that is transporting a weapon of mass destruction to Safaga, Egypt on the ferry. When the ship sinks, the material and all but one of the terrorists go to the bottom with it. The material remains undisturbed for fifteen years. Bret Davis and his friend Patrick Donovan plan to dive on the wreck and do a documentary. They have received permission to cut into the sealed-off section of the wreck where bodies still remain. The Egyptian terrorist group, Warriors of Allah, believe Bret is a CIA agent and watch him closely after he arrives in Egypt. Part of their suspicion comes from his relationship with Eliat Moussad, a member of the Egyptian anti-terrorist agency. While diving in the wreck, Bret and Patrick discover the car holding the canisters the terrorists lost in 1991, and recover one of them. The Warriors of Allah recover the remaining

canisters and then attempt to seal the divers in the wreck. The terrorist attempts to recover the last canister from Bret are unsuccessful and it alerts the CIA of the canisters existence. A CIA team and another led by Eliat plan to work with Bret to locate the missing canisters. Mahmet, the second in command of the Warriors of Allah allows his daughter to assist in watching Bret and Eliat. She falls into the ocean and is rescued by Patrick. When the terrorists decide to kill Bret, she warns Patrick. An American chemical company owner assists the terrorists in getting the material into the USA and develops a way to spread the toxin. The toxin is recovered with Brets help, but at a terrible cost.

The International Corporate 1000 R. Whiteside, G. Bricault, S.

Carr, 2012-12-06 The International Corporate 1000 represents a joint venture between Monitor Publishing Company of Washington, DC, and Graham & Trotman Limited of London. Monitor Publishing Company is well known as the publisher of The Federal Yellow Book, The Congressional Yellow Book, and The Corporate 1000. Graham & Trotman's annual directories providing data on the major companies in many parts of the world are equally established. The two publishing companies have pooled their expertise in this joint venture to research, compile and publish The International Corporate 1000, A Directory of Who Runs The World's 1000 Leading Corporations. The directory was designed to help you identify and contact the senior executives who lead and manage

these companies. Accordingly, you will find extensive, valuable detail about who does what, and how to reach them, but you will find little financial or statistical data. We have designed the book in this way because we believe there is a great need for an accurate and current executive directory, whereas a wealth of financial data is already available from many different sources. The organization of the directory is by key geographical region, then by major country within each region, and then alphabetically by company within each country.

All in the Family Michael Herb, 2016-03-22 Michael Herb proposes a new paradigm for understanding politics in Saudi Arabia and the Gulf. He critiques the theory of the rentier state and argues that we must put political institutions—and specifically monarchism—at the center of any explanation of Gulf politics. All in the Family provides a compelling and fresh analysis of the importance of monarchism in the region, and points out the crucial role of the ruling families in creating monarchical regimes. It addresses the issue of democratization in the Middle Eastern monarchies, arguing that the prospects for the gradual emergence of constitutional monarchy are better than is often thought.

A Question Of Interest Peter Wilson,2021-11-28 In Saudi Arabia today a classic confrontation between Islamic fundamentalism and modernism has brought the Saudi banking system virtually to a state of paralysis. The debate is between those upholding the traditional Islamic prohibition against charging interest on loans and those who wish to see a modern banking system capable of generating credit to support economic development. Drawing on

personal experience, interviews, and unpublished primary sources, Peter Wilson tells a dramatic story of powerful personalities, clashing cultures, and often mysterious institutions with a journalists' eye for the telling anecdote as well as for the statistical evidence.
