Jim Grundy, Malcolm Newey

Theorem Proving in Higher Order Logics Jim Grundy, Malcolm Newey, 1998-09-09 This book constitutes the refereed proceedings of the 11th International Conference on Theorem Proving in Higher Order Logics, TPHOLs '98, held in Canberra, Australia, in September/October 1998. The 26 revised full papers presented were carefully reviewed and selected from a total of 52 submissions. Also included are two invited papers. The papers address all current aspects of theorem proving in higher order logics and formal verification and program analysis. Besides the HOL system, the theorem provers Coq, Isabelle, LAMBDA, LEGO, NuPrl, and PVS are discussed.

Cyber Threat Intelligence Ali Dehghantanha, Mauro Conti, Tooska Dargahi, 2018-04-27 This book provides readers with up-to-date research of emerging cyber threats and defensive mechanisms, which are timely and essential. It covers cyber threat intelligence concepts against a range of threat actors and threat tools (i.e. ransomware) in cutting-edge technologies, i.e., Internet of Things (IoT), Cloud computing and mobile devices. This book also provides the technical information on cyber-threat detection methods required for the researcher and digital forensics experts, in order to build intelligent automated systems to fight against advanced cybercrimes. The ever increasing number of cyber-attacks requires the cyber security and forensic specialists to detect, analyze and defend against the cyber threats in almost real-time, and with such a large number of attacks is not possible without deeply perusing the attack features and taking corresponding intelligent defensive actions – this in essence defines cyber threat intelligence notion. However, such intelligence would

not be possible without the aid of artificial intelligence, machine learning and advanced data mining techniques to collect, analyze, and interpret cyber-attack campaigns which is covered in this book. This book will focus on cutting-edge research from both academia and industry, with a particular emphasis on providing wider knowledge of the field, novelty of approaches, combination of tools and so forth to perceive reason, learn and act on a wide range of data collected from different cyber security and forensics solutions. This book introduces the notion of cyber threat intelligence and analytics and presents different attempts in utilizing machine learning and data mining techniques to create threat feeds for a range of consumers. Moreover, this book sheds light on existing and emerging trends in the field which could pave the way for future works. The inter-disciplinary nature of this book, makes it suitable for a wide range of audiences with backgrounds in artificial intelligence, cyber security, forensics, big data and data mining, distributed systems and computer networks. This would include industry professionals, advanced-level students and researchers that work within these related fields.

Order of the Day Daljit Singh Jawa, 2016-11-11 In Appreciation No matter what the occasion, every Sikh religious service concludes with the reading of a hymn from the Guru Granth. Sikhs in attendance listen to it most raptly so as to understand this guiding message from the Guru Granth. But understanding the sacred poetry of Gurbani is not always so easy. At least four complete translations in English of the entire Guru Granth exist by Manmohan Singh, Gopal Singh, Gurbachan Singh Talib, and Pritam Singh Chahal along with many excellent translations of selections of Gurbani. However, Daljit Singh Jawa's work is different. Mr. Jawa does not provide a literal translation of the entire shabad. Instead he gives the central idea of the shabad

followed by a commentary on its theme and essential meaning. This would automatically enhance an understanding of the shabad. Sikhism teaches that the only way for a Sikh to talk to his Guru, the only way that the Guru in the Guru Granth comes alive is when a Sikh reads and tries to understand the word of the Guru. Mr. Jawas work - a labor of love - is an attempt to facilitate the latter. Sikh tradition dictates that this hymn is the one on the left page when the Guru Granth is opened at random, which usually means the middle half or so of the Guru Granth. Mr Jawas novel attempt takes advantage of this and his book covers only the first shabad on the left (even numbered) folia from pages 300 to 1100. Sikhs everywhere will find this book most useful as long as they are not content merely to read it as the final word but take it as a guide to foster further thinking and understanding about what they are reading.
