Birds of Prey Vol. 1 Chuck Dixon, Jordan B. Gorfinkel, 2015-11-10 Alone, they are driven vigilantes. Together they are a force to be reckoned with. Witness the beginnings of the Birds of Prey team, as Oracle (the former Batgirl, Barbara Gordon) teams up with ex-Justice Leaguer Black Canary and other female heroes of the DC Universe in globetrotting adventures in espionage. Black Canary goes undercover to expose the truth behind a corporate conspiracy. Oracle must send in reinforcements, but will this save Black Canary or doom her? Plus, the Birds of Prey invade Santa Prisca to stop a slavery ring while helping to overthrow the local government. Collected for the first time in chronological order: BLACK CANARY/ORACLE: BIRDS OF PREY #1, SHOWCASE '96 #3, BIRDS OF PREY: MANHUNT #1-4, BIRDS OF PREY: REVOLUTION #1, BIRDS OF PREY: WOLVES #1 and BIRDS OF PREY: BATGIRL #1.

Birds of Prey (1998-2011) #1 Chuck Dixon, 2012-03-21 When Oracle sends Black Canary on a cruise to investigate the disappearance of some of high society's most upper-crust members, the tables quickly turn, and Canary finds herself imprisoned in a mastermind's stronghold with the psychotic Hellhound hot on her trail.

Birds of Prey (2011-) #30 Christy Marx, As her teammates fall, only Black Canary stands between the utterly helpless Mother Eve and Ra's al Ghul. If she stands aside, her husband will be saved. If she refuses to fold, everybody else will die.

Birds of Prey (1998-2011) #30 Chuck Dixon, 2001-04-18 As the raging hordes close in on Canary and her unlikely allies, the Ravens, Oracle tries desperately to pierce the misty veil of time to contact her missing colleague. But if she succeeds, then not only will Canary be saved, but Cheshire will return to the present as well!

Birds of Prey of the West Brian K. Wheeler, 2018-06-19 *Birds of Prey of the West* and its companion volume, *Birds of Prey of the East*, are the most comprehensive and authoritative field guides to North American birds of prey ever published. Written and lavishly illustrated with stunning, lifelike paintings by leading field-guide illustrator, photographer, and author Brian Wheeler, the guides depict an enormous range of variations of age, sex, color, and plumage, and feature a significant amount of plumage data that has never been published before. The painted figures illustrate plumage and species comparisons in a classic field-guide layout. Each species is shown in the same posture and from the same viewpoint, which further assists comparisons. Facing-page text includes quick-reference identification points and brief natural history accounts that incorporate the latest information. The range maps are exceptionally accurate and much larger than those in other guides. They plot the most up-to-date distribution information for each species and include the location of cities for more accurate reference. Finally, the guides feature color habitat photographs next to the maps. The result sets a new standard for guides to North America's birds of prey. Lavishly illustrated with stunning, lifelike paintings Written and illustrated by a leading authority on North American birds of prey Depicts more plumages than any other guide Concise facing-page text includes quick-reference identification points Classic field-guide layout makes comparing species easy Large, accurate range maps include up-to-date distribution information Unique color habitat photographs next to the maps

Neotropical Birds of Prey David Whitacre, 2013-05-15 Until recently, surprisingly little has been known about the biology and behavior of tropical forest raptors, including such basic aspects as diets, breeding biology, habitat requirements, and population ecology, information critical to the development of conservation efforts. The Peregrine Fund conducted a significant eight-year-long research program on the raptor species, including owls, in Tikal National Park in Guatemala to learn more about Neotropical birds of prey. Impressive and unprecedented in scale, this pioneering research also involved the development of new methods for detecting, enumerating, and studying these magnificent but often elusive birds in their forest home. Beautifully illustrated with photographs of previously little-known species, the resulting book is the most important single source for information on the lowland tropical forest raptor species found in Central America. *Neotropical Birds of Prey* covers twenty specific species in depth, including the Ornate Hawk-Eagle, the Barred Forest-Falcon, the Bat Falcon, and the Mexican Wood Owl, offering thorough synopses of all current knowledge regarding breeding biology and behavior, diet, habitat use, and spatial needs. Contributors to this landmark work also show how the populations fit together as a community with overlapping habitat and prey needs that can put them in competition with reptiles and mammalian carnivores as well, yet differ from one another in their nesting or feeding behaviors and population dynamics. The work's substantive original data offer interesting comparisons between tropical and temperate zone species, and provide a basis for establishing conservation measures based on firsthand research. Making available for the first time new data on the biology, ecology, behavior, and conservation of the majestic owls and raptors of the New World tropics, this book will appeal to a wide ornithological readership, especially the many raptor enthusiasts around the world.

The only thing she has to be grateful for is the fact that she's not alone, as Huntress finds herself on a collision course with Black Canary's quarry at Detective Montoya's urging. Meanwhile, Harley Quinn has resurfaced outside of Gotham City and out of the Suicide Squad, with a new lease on life that is sure to make everyone else's life more complicated. Harley Quinn & the Birds of Prey (2020-) #1 Amanda Conner, Jimmy Palmiotti, 2020-02-12 The creative team that transformed Harley Quinn forever returns to shake up her world once more-and this time, the gloves are off! Harley Quinn has avoided Gotham City ever since she broke up with The Joker and found a home, and a kind of family, in Coney Island. But when she gets an offer she can't refuse, she has no choice but to slip back into the city as quietly as she can, hoping to be gone before anyone-especially her ex-learns she's been there. But for Harley, "as quietly as she can" is plenty loud...and before she can say "Holee bounty hunters, Batman," The Joker's sicced every super-villain in the city on her pretty ombré head-and the only team tough enough (or crazy enough) to come to her defense is the Birds of Prey! The foul-mouthed, no-holds-barred sequel to one of DC's raciest runs is here! Get on board early, before we come to our senses!
