*Dating in Black & White* Adonis Lenzy, Heather Lenzy, 2014-02-09 In a world where dating comes with many different emotions, methods, and opinions, it also comes with choices, decisions, and goals, which are all under your control. Social media and television have turned dating

into a highly sexualized and overly complicated activity—a game of numbers. But it doesn't have to be. When Adonis and Heather Lenzy met, they had no idea their journey would later serve as a roadmap for others. Adonis is a pastor and speaker, and Heather is a forensic scientist. Their lives, although polar opposite, shared similarities of relational mistakes and failures. Both wanting something different this time, they sought guidance. Through their dating process, they were able to establish values, principles, and practical tips that today have produced a happy, healthy marriage, such as: - Sexual purity: You don't have to sleep together in order to be together. -Accountability: Who's got your back? - Expectations: What do you really want? - Communication: Talking through the good, the bad, and the ugly. -Having Fun: Dating should be fun! It's all up to you. Their moral and biblical approach, mixed with practical steps, will create a different and refreshing view of your dating potential. No matter your past experiences or mistakes, it's still possible to have a successful dating relationship today.

### **The Dating Divide** Celeste Vaughan

Curington, Jennifer Hickes Lundquist, Ken-Hou Lin, 2021-02-09 The data behind a distinct form of racism in online dating The Dating Divide is the first comprehensive look at digital-sexual racism, a distinct form of racism that is mediated and amplified through the impersonal and anonymous context of online dating. Drawing on large-scale behavioral data from a mainstream dating website, extensive archival research, and more than seventy-five in-depth interviews with daters of diverse racial backgrounds and sexual identities, Curington, Lundquist, and Lin illustrate how the seemingly open space of the internet interacts with the loss of social inhibition in cyberspace contexts, fostering openly expressed forms of

sexual racism that are rarely exposed in face-to-face encounters. The Dating Divide is a fascinating look at how a contemporary conflux of individualization, consumerism, and the proliferation of digital technologies has given rise to a unique form of gendered racism in the era of swiping right-or left. The internet is often heralded as an equalizer, a seemingly level playing field, but the digital world also acts as an extension of and platform for the insidious prejudices and divisive impulses that affect social politics in the real world. Shedding light on how every click, swipe, or message can be linked to the history of racism and courtship in the United States, this compelling study uses data to show the racial biases at play in digital dating spaces.

**Dataclysm** Christian Rudder, 2014-09-09 A New York Times Bestseller An audacious, irreverent investigation of human behavior—and a first look at a revolution in the making Our personal data has been used to spy on us, hire and fire us, and sell us stuff we don't need. In Dataclysm, Christian Rudder uses it to show us who we truly are. For centuries, we've relied on polling or small-scale lab experiments to study human

behavior. Today, a new approach is possible. As we live more of our lives online, researchers can finally observe us directly, in vast numbers, and without filters. Data scientists have become the new demographers. In this daring and original book, Rudder explains how Facebook likes can predict, with surprising accuracy, a person's sexual orientation and even intelligence; how attractive women receive exponentially more interview requests; and why you must have haters to be hot. He charts the rise and fall of America's most reviled word through Google Search and examines the new dynamics of collaborative rage on Twitter. He shows how people express themselves, both privately and publicly. What is the least Asian thing you can say? Do people bathe more in Vermont or New Jersey? What do black women think about Simon & Garfunkel? (Hint: they don't think about Simon & Garfunkel.) Rudder also traces human migration over time, showing how groups of people move from certain small towns to the same big cities across the globe. And he grapples with the challenge of maintaining privacy in a world where these explorations are possible. Visually arresting and full of wit and insight, Dataclysm is a new way of seeing ourselves—a brilliant alchemy, in which math is made human and numbers become the narrative of our time.

*His Dough, Her Cookie* Torri Stuckey, 2016-09-05  
Sadly, many intimate relationships have been reduced to transactions--women desiring his dough and men lusting after her cookie--without either having a true understanding of the relationship between dough and cookie. Dough is to cookie, what man is to woman. How so? A cookie could not exist if not for the dough, and dough is not complete in its raw form. Biblically, woman would not exist if not for man and man is not complete without woman. HIS DOUGH, HER COOKIE is the Black woman's blueprint for dating in the 21st century. Today,

we live in a fast-paced society that often leaves us rushing from place to place, sometimes, person to person. Both, men and women, are so busy chasing after their dreams that we fail to remember one of our primary purposes in life-- companionship. We want the most out of our career, yet we settle for less in our love life. We won't work for free, yet we date for fun. In the midst of all the playfulness, we forget that the purpose of dating is marriage. Dating may not be important at the moment, but at some point marriage will be. HIS DOUGH, HER COOKIE serves as a dating intervention for all Black women who believe placing their love life on hold will result in life happily ever after.
