The Dating Divide Celeste Vaughan Curington, Jennifer Hickey Lundquist, Ken-Hou Lin, 2021-02-09 The data behind a distinct form of racism in online dating The Dating Divide is the first comprehensive look at digital-sexual racism, a distinct form of racism that is mediated and amplified through the impersonal and anonymous context of online dating. Drawing on large-scale behavioral data from a mainstream dating website, extensive archival research, and more than seventy-five in-depth interviews with daters of diverse racial backgrounds and sexual identities, Curington, Lundquist, and Lin illustrate how the seemingly open space of the internet interacts with the loss of social inhibition in cyberspace contexts, fostering openly expressed forms of sexual racism that are rarely exposed in face-to-face encounters. The Dating Divide is a fascinating look at how a contemporary conflux of individualization, consumerism, and the proliferation of digital technologies has given rise to a unique form of gendered racism in the era of swiping right—or left. The internet is often heralded as an equalizer, a seemingly level playing field, but the digital world also acts as an extension of and platform for the insidious prejudices and divisive impulses that affect social politics in the real world. Shedding light on how every click, swipe, or message can be linked to the history of racism and courtship in the United States, this compelling study uses data to show the racial biases at play in digital dating spaces.

Why Black Men Jump the Fence? Gabriel Woodhouse, 2018-01-03 Seventy percent of black women are unmarried and are twice as likely as white women to remain unwed. Of those who do marry, black women more likely to marry down as black women in college outnumber black men to 2:1. Black women are also impacted by the insurgence of interracial marriages. In 2015, for instance, newlywed intermarriages for black men were 24 percent compared to 12 percent for black women. Through interviews, this book explores the reasons African American men chose to date or marry white women and other women outside of their race. With some advice from a matchmaker, minister, and African American men, the book will benefit women who are seeking to improve their relationships with their mates and find their happiness in life. It is my hope that the book will inspire black women and women of all races and nationalities to date whomever they choose without compromising their lifestyles or standards to do so.

The Interracial Dating Book for Black Women Who Want to Date White Men, Second Edition Adam White, 2011 This book shows Black women how to go about getting involved in interracial relationships and deal with the social pressures that such relationships inevitably attract. It shows how you can clear out your old social conditioning and inhibitions about interracial relationships, tune out the expectations that you should date only Blacks and clarify your reasons for romantic and sexual attraction to White men. This book shows where and how you can go about meeting White men, how to make yourself more interracially approachable, offers guidelines for screening mature and emotionally available White males into your social life and helps you move beyond the shortage of Black men. This book clears away the misconceptions that all too many Black women have about White men and explains what really goes on inside the minds of White men who seek out and date Black women. Women often see men as foreign psychological territory, and racial differences can accentuate such misperceptions and misunderstandings. Black women who have considered the possibilities that interracial relationships offer are all too familiar with the broad spectrum of unspoken taboos and social pressures often serve to block Black women from getting involved in interracial relationships. This book explains the psychosexual origins of the various forms of social opposition to those wearing the scarlet letter of interracial dating, from the stares interracial couples encounter almost everywhere they go, to why parents work so hard at breaking up the interracial relationships of their offspring to why certain types of disturbed individuals become enraged at the sight of total strangers who happen to be in interracial relationships. Find out how you can best understand, cope with, and tune out, the variety of social pressures that often inhibit Black women from getting, and staying, involved with White men and initiate unembarrassed interracial relationships. This second edition includes the complete text of the first edition together with a new chapter about racism on the street. All Black Men Are Not the Same Shane Sanders, 2013-03 I think I've solved the age-old mystery of why good girls love bad boys. Let me tell you that it has more to do with than basic explanations like having swag, a big penis, how he dresses, or the appearance of having money. I say appearance of having money because a lot of men know how to pretend, but we'll get to that later. The issue goes deeper than that. I say issue because once the good girl lands the bad boy, the expectation on how the relationship is supposed to turn out hardly ever goes according to plan. I believe women are very much aware of the drama being with a bad boy brings, but yet

something draws their uncontrollable attention to the bad boy player anyway. This book is not the be-all and end-all to problems in relationships, but it is an insight from a man, or should I say, a perceived good guy, and a start. A start to realize you can do better than the bad-boy-player type. Ever wonder why the black middle-class family is disappearing? Why do black people lead the nation in divorce rates among minorities? Why the professional black man and the professional black woman aren't coming together? Why do our black women lead the nation in new cases of HIV each year? Why aren't the cases increasing among black men at the same rate as our black women? Why so many black women are single mothers? Why are we experiencing more and more of the single black professional woman with the need to be independent; and, sit down ladies, why the professional black man is marrying outside his race? Now let me first say that you can find love in any race; do not limit yourself; being racist is flat-out ignorant. But the questions I just asked are on the minds of black men and women all over the country and are real issues within the black America. The chapters in this book are not making any claims as outright facts but instead exploring different theories as to why some black women choose the wrong type of men to date. Now here are a few things I know about all women from my experiences with them. They absolutely hate being judged, they crave attention, they want to be forgiven for their past, can't stand the feeling of guilt, love to get even, are competitive, and extremely protective when it comes to their man. Based on these things I know about women, I'm here to tell you: you have all the right in the world to feel this way; it is perfectly understandable. But like everything else in life, there is a flipside to it all. These very same attributes can lead to a bunch of heartaches and pain if misused. Let's talk about the expectations some women have, or should I say their FANTASIES, every woman's favorite topic. A topic to talk about even better than SEX! What is your fantasy? From what I have observed from women, some of them have the fantasy of taking a bad boy, rough neck, player off the market and turning him into a one-woman man. A man she can both admire and brag to her friends about how perfect her relationship is. Now that as a woman, you have reformed or like Beyoncé says upgraded this bad boy player, you will finally have a man you look good with. A man you can be financially secure with, and with his bad boy persona, a man you feel protected by. All you have to do is work your magic a little and whip him in to shape that is just right for you. After all the hard work, time, and effort you put into this bad boy, you will finally have the prince charming who is going to spoil you with gifts, shower you with compliments, and most of all, show his appreciation for you and see that you are nothing like any of the other women that he's chasing. The expectation that once you hit him with some of that good loving you got, he won't need any other woman, because you, just like every other woman in the world, is totally convinced that the stairway to heaven is right between your thighs, not to mention all the other little tricks you do in the bedroom. To go even further to show your love for him, you don't mind cleaning up his

Black Men in Interracial Relationships Kellina Craig-Henderson, 2017-07-28 Why is it that successful black men--black men who are at the top of their game in the arts, entertainment, politics and athletics--are four times as apt to be married to or dating a woman who is not an African American than they were only thirty years ago? And why are twice as many black men involved in interracial relationships as black women? In addition to their celebrity status, which includes widespread popularity and wealth, black men from Charles Barkley to James Earl Jones to Russell Simmons to Bryant Gumbel share something else in common; something that also characterizes the experiences of more than 250,000 less well-known black men in the United States. They happen to be involved in interracial intimate relationships. Less than fifty years ago such relationships were next to impossible, leading to severe social sanctions. The fact that this is no longer the case is concrete evidence of changes in the quality and character of contemporary race relations. Drawing on her own observations, and her examination of the responses of a small, diverse group of black men who date (in some cases exclusively), have sexual relations with, and marry women who are not of African descent, the book provides insight into the continuing ways that race and ethnic status affect the choices people make in their lives. Until this book, though, these types of relationships have received scant serious attention. Craig-Henderson forthrightly addresses the taboo, interspersing analysis with verbatim accounts from black men involved in such relationships. Grounded in serious research, interviews, and analysis of census data, *Black Men in Interracial Relationships* examines why such relationships appear to be so popular among black male elites. In the process, the author unravels the mystery behind the apparent absence of black women in black men's lives. It will be of interest to specialists in race, gender, family, and sexual issues, and appropriate for courses in these areas. It is also highly readable and thought-provoking for

the general public, who will find its observations and findings fascinating.
