Making Sense of ADHD James M. Lewis,2018-11 Why are so many children and adolescents who have ADHD falling through the cracks? Parents feel guilty and powerless. Their children struggle with diminished self-esteem. According to Dr. Lewis, the answer is that it's never just ADHD! In his over 30 years of working with children and adults with ADHD, Dr. Lewis found that every child who has ADHD also has at least one coexisting condition that needed to be managed. Some of the conditions include:~Anxiety~Anger and mood swings~Insomnia and sleep difficulties~Emotional impulsivity~Learning disabilities. Dr. Lewis has formulated a strategy that gives families a comprehensive plan that takes into account the unique set of conditions that have been holding a child back. The plan is designed to help the child reach both academic and social success. It involves:~A problem-solving process~Getting the right treatment for the ADHD~Identifying and managing specific coexisting conditions~Creating and leading an ADHD support team. Once the ADHD and coexisting conditions are managed, children can use their innate strengths to meet the goals they've been desperately seeking.

How Schools Work Rebecca Barr,Robert Dreeben,Nonglak Wiratchai,1983 As budgets tighten for school districts, a sound understanding of just how teaching and administration translate into student learning becomes increasingly important. Rebecca Barr, a researcher of classroom instruction and reading skill development, and Robert Dreeben, a sociologist of education who analyzes the structure of organizations, combine their expertise to explore the social organization of schools and classrooms, the division of labor, and the allocation of key resources. Viewing schools as part of a social organization with a hierarchy of levels—district, school, classroom, instructional group, and students—avoids the common pitfalls of lumping together any and all possible influences on student learning without regard to the actual processes of the classroom. Barr and Dreeben systematically explain how instructional groups originate, form, and change over time. Focusing on first grade reading instruction, their study shows that individual reading aptitude actually has little direct relation to group reading achievement and virtually none to the coverage of reading materials once the mean aptitude of groups is taken into consideration. Individual aptitude, they argue, is rather the basis on which teachers form reading groups that are given different instructional treatment. It is these differences in group treatment, they contend, that explain substantial differences in learning curricular material.

Follow the River James Alexander Thom,2010-08-11 NATIONAL BESTSELLER • “It takes a rare individual not only to see that history can live, but

also to make it live for others. James Thom has that gift.”—The Indianapolis News Mary Ingles was twenty-three, happily married, and pregnant with her third child when Shawnee Indians invaded her peaceful Virginia settlement in 1755 and kidnapped her, leaving behind a bloody massacre. For months they held her captive. But nothing could imprison her spirit. With the rushing Ohio River as her guide, Mary Ingles walked one thousand miles through an untamed wilderness no white woman had ever seen. Her story lives on—extraordinary testimony to the indomitable strength of one pioneer woman who risked her life to return to her own people.

The Sixth Station Linda Stasi,2013-12-01 Some say Demiel ben Yusef is the world's most dangerous terrorist, personally responsible for bombings and riots that have claimed the lives of thousands. Others insist he is a man of peace, a miracle worker, and possibly even the Son of God. His trial in New York City for crimes against humanity attracts scores of protestors, as well as media and religious leaders from around the world. Cynical reporter Alessandra Russo heads to the UN hoping for a piece of the action, but soon becomes entangled in controversy and suspicion when ben Yusef singles her out for attention among all other reporters. As Alessandra begins digging into ben Yusef's past, she is already in more danger than she knows—and when she is falsely accused of murder during her investigation, she is forced to flee New York. On the run from unknown enemies, Alessandra finds herself on the trail of a global conspiracy and a story that could shake the world to its foundations. Is Demiel ben Yusef the Second Coming or the Antichrist? The truth may lie in the secret history of the Holy Family, a group of Templars who defied the church, and a mysterious relic stained with the sacred blood of Christ Himself.

Chessie Racing George J. Collins,Kathy Alexander,2001-05-11 The history of the racing yacht Chessie, the first ever entry from the Chesapeake Bay in the famous Whitbread Round the World Race. This book records the history of the racing yacht Chessie, the first ever entry from the Chesapeake Bay in the famous Whitbread Round the World Race. Skippered by Baltimore businessman George Collins and named after the Chesapeake's equivalent to the Loch Ness monster, Chessie became a focal point of regional and national pride when she competed in 1997-98. That year was also the first time that Baltimore and Annapolis were included as a combined stopover in the nine-leg, 31,600-mile race, beginning and ending in Southampton, England. After a neck-and-neck race up the bay against famed skipper Dennis Connor, Chessie entered Baltimore's Inner Harbor greeted by the cheers of thousands of fans. During the stopover, over a half-million visitors came to the Whitbread Race Village in Baltimore and an additional sixty thousand toured the Race Village in Annapolis, giving Baltimore-Annapolis the highest attendance of any of the nine ports visited by the race. While racing, the boat also served an educational purpose through a two-part curriculum developed by the Living Classrooms Foundation, a Baltimore nonprofit educational organization for at-risk children. Children from five hundred schools in twenty states and seven foreign countries participated through the Whitbread Education Project, a curriculum package augmented by an Internet component, the Chessie Chase, which explored academic subjects such as math, science, social studies, geography, and literature and tackled such practical issues as vessel design, ocean currents, changing weather, and the principles of navigation. Classes competed in a virtual race against each other in the multifaceted program for a chance to visit Chessie and meet her crew when she reached Baltimore. The children also exchanged e-mails with Chessie's crew throughout the race. When President Clinton and Vice President Gore visited the Living Classrooms Foundation in Baltimore, students helped them write an e-mail to the boat saying, Have a great race. This book contains chapters on the race, boat construction, crew selection, and the Living Classrooms Foundation Whitbread Education Project. Personal experiences and memories of the crew bring the sailing adventure to life and reveal the educational purpose of the boat. Sidebars feature useful charts and information, special observations, and a few human-interest e-mail exchanges between individuals and the crew. A large Mercator-projection map marks the race course and individual legs. Numerous photos document racing action as well as the hoopla on shore.

Apocalypse Jacques Ellul,2020-05-05 “There has never been a book provoking more delirium, foolishness and irrational movements, without any relationship to Jesus Christ [than the Book of Revelation].” —Jacques Ellul, Introduction Known for his trenchant critique of modernity and of those Christians who celebrate their captivity to it, Ellul here cuts to the heart of the theological intention of the Book of Revelation, and thereby reveals the liberating gospel in all its offensiveness. Neither an exhaustive commentary nor a work of historical-exegetical analysis, Apocalypse is a provocative, independent interpretation. Ellul seeks to rescue Revelation from the reassuring and orthodox banality to which commentators often reduce it. The goal is to perceive the totality of the book in its movement and structure. “Architecture in movement” is the key to understanding Revelation’s puzzling but simple message. This edition also comes with a new foreword by Jacob Marques Rollison who provides an essential aid for guiding readers through Ellul’s thorough engagement with Revelation.
