**Survival on the Summit** Nichole Severn, Melinda Di Lorenzo, 2021-12-28 They must rely on each other to survive *The Line of Duty* by Nichole Severn When Blackhawk operative Vincent Kalani boarded an airplane, he never expected it to crash into the Alaskan mountains. On the ground, by-the-book police officer Shea Ramsey becomes his unlikely partner in survival. Shea was headed to New York to fight for custody of her son, but now she's fighting for her life with an ex-cop who's equal parts inscrutable and unpredictable. *Trusting a Stranger* by Melinda Di Lorenzo Wanted for murder, Graham Calloway has hidden for years in a remote mountain cabin, desperate to find the killer who framed him. Keira Niles, too, is running from her shattered life when, during a blizzard, Graham pulls her from her wrecked car. Their attraction is instant; mutual trust is not. Then an unforeseen betrayal threatens Keira, causing Graham to risk exposure—and his life—to rescue her and redeem himself. Previously published as *The Line of Duty* and *Trusting a Stranger*

**The Blackhawk Landslide** Ronald L. Shreve, 1968 Blackhawk Mountain in southern California rises above southeastern Lucerne Valley at the eastern end of the rugged 4,000-foot escarpment that separates the San Bernardino Mountains on the south from the Mojave Desert on the north. Its summit is a resistant block of marble thrust northward over easily eroded uncemented sandstone and weathered gneiss. Spread out on the alluvial apron at the foot of the mountain is the prehistoric Blackhawk landslide, a lobe of nearly monolithologic marble breccia from 30 to 100 feet thick, 2 miles wide, and 5 miles long.--

**Keith Magnuson** Doug Feldmann, 2013-10-01 Written with the full support of Keith Magnuson's wife and children, this thrilling and insightful biography pays tribute to a Chicago icon and true hockey legend. One of the most popular Chicago Blackhawks of all time, defenseman Keith Magnuson was raised on the raw, rough traditions of hockey in western Canada. He captained the University of Denver team to its second straight NCAA championship in the spring of 1969 and by autumn joined Blackhawks stars Bobby Hull, Stan Mikita, and Tony Esposito, becoming the much-needed "policeman" for the team. Over the course of the next several seasons, Magnuson and the Blackhawks fell painfully short of their Stanley Cup aspirations; nonetheless, Magnuson's leadership qualities led to his being named captain of the team. On December 15, 2003, Magnuson was in Toronto riding in a car driven by former player, Rob Ramage: he was killed when the car veered over the center line and struck an oncoming vehicle. As veteran sportswriter Bob Verdi described Magnuson upon his retirement from the Blackhawks, "there have been many finer athletes in Chicago, but not one finer person," and this biography shares the story of his remarkable life.

**San Bernardino Mountain Trails** John W. Robinson, David Money Harris, 2016-09-19 Southern California's highest and most rugged mountains are in the San Bernardino and San Jacinto ranges, in a unique region where desert cactus and pine trees, plus snow-capped peaks and palm oases, are found in close proximity. With the Pacific Crest Trail weaving its way through the mountains and desert, there are endless opportunities to

explore Southern California trails. After more than 40 years in print, San Bernardino Mountain Trails remains the bible for Southern California hikers. This updated guide by veteran hiker and author David Money Harris contains new trips as well as old favorites -- 100 hikes that traverse San Bernardino National Forest, the Santa Rosa Mountains, and the San Jacinto Mountains. This edition brings John Robinson's classic guide up to date with the latest trail conditions. Eight old trails, especially in areas that have become overgrown after fire damage, have been replaced with recently built or more heavily used trails. San Bernardino Mountain Trails is noted for its comprehensive coverage of the San Bernardino, San Jacinto, and Santa Rosa Mountains and its meticulously researched history of the ranges.

**Natural Phenomena** ,2012-12-02 Developments in Geotechnical Engineering, Vol. 14A: Rockslides and Avalanches, 1: Natural Phenomena focuses on attempts to provide a foundation for studies of mass movement phenomena in the Western Hemisphere. The selection first elaborates on Albert Heim's observations on landslides and relevance to modern interpretations, Frank rockslide in Alberta, Canada, and Lower Gros Ventre slide in Wyoming, U.S.A. Discussions focus on geologic environment, events triggered by rise and fall of slide lake level, description of slide mass and zone of detachment, stability analysis, travel distance of sturzstrom deposits, and geometry of the Elm sturzstrom deposits. The publication then takes a look at Madison Canyon rockslide in Montana, U.S.A., Little Tahoma Peak rockfalls and avalanches in Mount Rainier, Washington, U.S.A., Sherman Glacier rock avalanche in Alaska, U.S.A., and Nevados Huascaran avalanches in Peru. Topics include rockslide kinematics, associated seismic activity, meteorological and hydrological conditions, mode of emplacement of other Alaskan rock avalanches, and applicability of mechanical fluidization to other rock avalanches. The text examines the mechanics of glacier movement, dynamics of snow avalanches, failure of snow slopes, and role of gravity in plate tectonics. The selection is a valuable reference for researchers wanting to study further rockslides and avalanches.
