How to Win 21 & Poker, Dice, Races, Roulette Mike Goodman,2016-11-11 THE ONE IMPORTANT THING TO KNOW ABOUT GAMBLING is that there is no guaranteed way to win all the time. But there is a guaranteed way to lose constantly, and that is when you don't understand the basic rules of playing and betting. It is appalling how many people, even big-money gamblers, lose

consistently and don't know why. There are only two types of gamblers-those who really know the game and suckers. Mike Goodman, a veteran professional gambler, gives you an amazing, easy-to-understand insight on how to gamble and win. HORSE RACING...watch those second favorites; let the suckers play the favorites, they're usually overplayed! DICE...you're a sucker if you don't take advantage of the odds, but the real pay-off comes when you know how to bet! SLOTS...there's only one way to beat those "one-arm bandits," but, unfortunately, it's against the law! ROULETTE...it's tough to beat the house percentage, but there are ways to lose less, keep you in the game, and then, who knows? BLACKJACK "21"...here's a game you can win at consistently if you learn the tricks and how to put "lady luck" on your side! POKER...you get real help here; tips that'll open your eyes, make you play a better game and win! This book gives solid advice on how you can become a tough player and helps tilt the odds more in your direction. I'm just plain sick of "experts" who promise the moon but peddle virtually worthless advice. Somewhere in their pitch you're told that they're not multi-millionaires because they are not allowed in gambling casinos and I challenge any one of them to use this system at "craps", "21" or roulette at my casino. If they haven't got the guts to back up their system with hard cash, I challenge them to meet me face to face in public to debate any phase of gambling on which they claim to be an authority. Mike Goodman

Casino Gambling For Dummies Kevin Blackwood,2011-03-03 Earn comps and avoid big losses Bet wisely, beat the house, and bring home the bucks! Crazy about casinos, but worried about losing your shirt? You get the scoop on everything from game rules and jargon to making the best bets (and knowing when to quit). Discover how to * Understand the odds * Develop winning strategies * Avoid gimmicks and bad bets * Manage your money effectively * Gamble on the Internet * Deal with the IRS

Playing with the Masters Blackjack Jeff,2011-09-27 My name is Jeff Friend I have 33 years experience in playing the game of blackjack. I think of this game as a sport, and being a good team player. Having good manners and respect for others is so important. I believe people will enjoy reading this book because it teaches, most miss played hands and good common sense plays, and why we do them. At the end of the day hopefully, you have made some money and gained some friends at the table. In 2010, I was one of the top contenders in tournament play and one of the most consistent winners. Its not how much you win, its how consistent you win. So many times I am asked to help new players, how to play the game and its always a privilege to help others. Remember we were all beginners at sometime. The friendships you gain will always be remembered. Thats how I gained the name of blackjack Jeff. I always wear a black hat, black coat, and when ever Im in the casinos, dealers pit boss, and players that know me always have fun.

On 21 Andrew Marx,2010 The casinos want you to lose money. In fact, the minute you step into their facility, they are betting on it. So what does it take to walk into a casino and walk out a winner? On 21: The Philosophy of Blackjack gives you the tools to sit down at a blackjack table and beat the casino at their own game. Author and blackjack expert Andrew Marx outlines the critical steps it takes to be a winner. A blackjack player combines knowledge of the game, proven strategy, timing and practice to put him at the top of his game. The book includes step by step instructions on how to play blackjack and teaches tried and true strategies to decrease the house advantage. But more than just know-how and strategy, On 21: The Philosophy of Blackjack also asks what is the right attitude for winning? The author discusses how to pick the right table, how to pick the right dealer, which variations on the house rules are the best advantage to the player. He talks how the mental discipline it takes to play the game well, and what to do when the cards aren't running in your favor. With helpful lessons spread throughout the book, full color visual aids and a detailed chapter index, On 21: The Philosophy of Blackjack not only gives you a solid understanding of the game, but talks meaningfully about the mental attitude you need to think like a winner. Perfect for beginners and intermediate players, the book also lays out the steps to take to move towards professional gambling. Written by a veteran blackjack player who lived in Las Vegas for over ten years and has traveled to many casinos in other cities, all of the information included here is laid out in easy-to-understand language with supporting visual images.

Playing Blackjack as a Business Lawrence Revere,2000-09 This is the most talked-about book on the Blackjack scene. This book has sold more copies since it's initial release than any other gaming book. Prior to this new edition there was no foolproof way to learn how to play Blackjack accurately. This is the only Blackjack book that is easy to understand and completely accurate,

written for the beginner or for the expert player. Playing Blackjack as a Business was written by a successful professional Blackjack player. The author has probably spent more time playing Blackjack, more time in the casinos, and more time in research, than have all of the others combined who have written Blackjack books or devised Blackjack systems. The book features a new Basic Strategy for one deck, the first accurate Strategy to be published for four decks, and four easy-to-learn Count Strategies including the Reverse Point Count Strategy, which is the most accurate and most powerful strategy that has ever been published. The strategies were devised from computer runs by Julian H. Braun of IBM Corporation, long recognized as the world's most capable man in this field.
