Blackjack Basic (Playing) Strategy, 2 Decks Hal Marcus, 2003-06-01 This new Blackjack Basic (Playing) Strategy card for 2 Decks is a blackjack player's dream come true. The laminated, six-panel, tri-fold card with rounded corners devotes four panel sides to covering the possible rule combinations of allowing or not allowing doubling down after a split, and the dealer hitting or standing on soft 17. Thus the card contains four playing strategies to allow you to choose the correct playing strategy for the rules that are in effect where you play. The strategies display color-coded decision cells in addition to showing the text of the decision so you can choose which way you learn best. Also, each strategy panel is section-coded to facilitate learning the most important decisions first. Surrender is included among the decisions, and footnotes provide alternatives when decisions are not allowed. The 3.5 x 5 panel size makes possible larger text than on other strategy cards and three-letter (not confusing one-letter) decision abbreviations, yet the card still fits in your pocket. End panels, which contain slits, are designed to fold in both directions and to lay flat to make it easy for you to quickly refer to the strategy you wish to use. One panel contains a pithy, insightful discussion

of the playing decisions to help new players learn how to play the game; another panel provides a table which shows the House Edge for each of four rule combinations. About 99% of blackjack players do not use the correct Basic Strategy. By using the Blackjack 6-7-8 Strategy Cards, players will now be able to play almost even with the house. Blackjack 6-7-8 strategy cards are also available for 1 Deck, 2 Decks, and Counter (as in Card Counter) Basic, 4-8 Decks. In addition, the titles of the four different cards are color-coded (red, purple, blue, and green) so you can easily and quickly distinguish one card from another.

Planning with Kids Nicole Avery, 2011-05-04 The ultimate guide for parents who dream of having a little less chaos and a lot more time for the good things in life Written by mother of five, Nicole Avery, this book shows harried parents how, with just a bit of planning, family life can become easier to manage, less stressful, and decidedly more fun. Dream on, you say? I might as well try to herd cats as to get my kids to follow a lot of arbitrary rules! And Nicole would agree, which is why Planning with Kids isn't like any other parenting guide out there. It was inspired by Nicole's blog of the same name, which, over the past three years, has garnered a huge audience of likeminded parents who have achieved nothing short of miraculous results following her advice. time for you to be you and your kids to be kids. You'll find strategies for streamlining and enhancing everything from the routines of daily life, to family relationships, to budgeting and finances, playtime and much more! Contains a full section on menus and cooking, including recipes, supported online by a planning-with-family meal planner Divided into sections so that readers can dip-in and dip-out for information as they need it as their family expands and grows up!

**Blackjack Counter Basic Strategy, 4-8 Decks** Hal Marcus, 2003-06-01 This new Blackjack Counter (as in Card Counter) Basic Strategy card for 4-8 Decks is a blackjack card counter's dream come true. The laminated, six-panel, tri-fold card with rounded corners devotes four panel sides to covering the possible rule combinations of allowing or not allowing doubling down after a split, and the dealer hitting or standing on soft 17. Thus the card contains four playing strategies to allow you to choose the correct playing strategy for the rules that are in effect where you play. End panels, which contain slits, are designed to fold in both directions and to lay flat to make it easy for you to quickly refer to the strategy you wish to use. One panel contains a pithy, insightful discussion of the playing decisions to help new players learn how to play the game; another panel provides a table which shows the Player Edge for each of four rule combinations. By using this Blackjack 6-7-8 Counter Basic Strategy Card, card counters will be able to get an even greater edge over the house. If you count cards and vary your bet with the count, or plan on so doing, using the Counter (as in Card Counter) Basic Strategy card results in winning about 20% more money than using regular Basic Strategy (the Counter Basic Strategy card shows a table with the Player Edge). Counter Basic Strategy is simply a variation of regular Basic Strategy that utilizes a card counting method (such as the Hi-Lo or K-0) to determine when and by how much to vary your bet with the count. The playing strategies on the Counter Basic Strategy card are based on a bet range of 16 to 1. Blackjack 6-7-8 strategy cards are also available for Basic (Playing) Strategy for 1 Deck, 2 Decks, and 4-8 Decks. The titles of the four different cards are color-coded (red, purple, blue, and green) so you can easily and quickly distinguish one card from another.
