

Blackjack Card Game 21

Edward O. Thorp

On 21 Andrew Marx, 2010 The casinos want you to lose money. In fact, the minute you step into their facility, they are betting on it. So what does it take to walk into a casino and walk out a winner? On 21: The Philosophy of Blackjack gives you the tools to sit down at a blackjack table and beat the casino at their own game. Author and blackjack expert Andrew Marx outlines the critical steps it takes to be a winner. A blackjack player combines knowledge of the game, proven strategy, timing and practice to put him at the top of his game. The book includes step by step instructions on how to play blackjack and teaches tried and true strategies to decrease the house advantage. But more than just know-how and strategy, On 21: The Philosophy of Blackjack also asks what is the right attitude for winning? The author discusses how to pick the right table, how to pick the right dealer, which variations on the house rules are the best advantage to the player. He talks how the mental discipline it takes to play the game well, and what to do when the cards aren't running in your favor. With helpful lessons spread throughout the book, full color visual aids and a detailed chapter index, On 21: The Philosophy of Blackjack not only gives you a solid understanding of the game, but talks meaningfully about the mental attitude you need to think like a winner. Perfect for beginners and intermediate players, the book also lays out the steps to take to move towards professional gambling. Written by a veteran blackjack player who lived in Las Vegas for over ten years and has traveled to many casinos in

other cities, all of the information included here is laid out in easy-to-understand language with supporting visual images.

Planning with Kids Nicole Avery, 2011-05-04 The ultimate guide for parents who dream of having a little less chaos and a lot more time for the good things in life Written by mother of five, Nicole Avery, this book shows harried parents how, with just a bit of planning, family life can become easier to manage, less stressful, and decidedly more fun. Dream on, you say? I might as well try to herd cats as to get my kids to follow a lot of arbitrary rules! And Nicole would agree, which is why Planning with Kids isn't like any other parenting guide out there. It was inspired by Nicole's blog of the same name, which, over the past three years, has garnered a huge audience of likeminded parents who have achieved nothing short of miraculous results following her advice. While other prescriptive guides offer mums and dads cook-cutter solutions to the challenges of raising kids, this handbook focuses on one simple, straightforward idea: by implementing a few simple strategies for how you do things, you'll make more time for you to be you and your kids to be kids. You'll find strategies for streamlining and enhancing everything from the routines of daily life, to family relationships, to budgeting and finances, playtime and much more! Contains a full section on menus and cooking, including recipes, supported online by a planning-with-family meal planner Divided into sections so that readers can dip-in and dip-out for information as they need it as their family expands and grows up!
