BLACKJACK Play Enjoy and Win Lucky Strike,2021-03-17

Playing Blackjack is fun when you play with confidence. Blackjack is an intellectual challenge, like chess, where the opponent is chance and the rules that govern the game are the Laws of Probability. We know the rules, we know how the opponent plays, we know his weapons and we must know ours. We must know our chances of success and how to manage them .You cannot always win. There is not a magic formula. There is no winning recipe. This is the thrill of the game. This is the challenge and this book will help you achieve it. L.Strike

How to Count Cards Vinnie Navetta, 2015-12-22 Playing the various games inside a casino can be an exhilarating experience. The adrenaline rush that you get after winning a huge bet for example, can be extremely addictive. One particular casino game that brings about such excitement is Blackjack. A lot of people play Blackjack in the casinos because the mechanics of the game is easy to understand. In addition, a lot of gamblers think that a player has a higher chance of winning against the house as long as you know how to make mental mathematical computations in your head. This book will teach you everything you need to know about Blackjack. To understand Blackjack better, we'll start by talking about what it is, how the game came to be, where it originated, and what its basic rules are. It is a well-known fact that someone can win big in Blackjack with just pure luck. However, the frequency at which you'll win with luck is far lesser than when you

apply some basic strategy to it. This book will discuss the Blackjack basic strategies that will help you win against the house; strategies that when applied in a game would greatly increase your chances of winning than when playing with luck alone. To further increase your win rate, we'll also teach you the best technique ever created to beat the game: Card counting. We'll discuss the different card counting methods, betting strategies and play deviations that would help you win and at the same time avoid being backed off by the casino pit bosses. With that being said, let's begin your training on how to win in Blackjack by counting cards. Scroll to the top and click the BUY button
