**Blackjack Counter Basic Strategy, 4-8 Decks** Hal Marcus, 2003-06-01 This new Blackjack Counter (as in Card Counter) Basic Strategy card for 4-8 Decks is a blackjack card counter's dream come true. The laminated, six-panel, tri-fold card with rounded corners devotes four panel sides to covering the possible rule combinations of allowing or not allowing doubling down after a split, and the dealer hitting or standing on soft 17. Thus the card contains four playing strategies to allow you to choose the correct playing strategy for the rules that are in effect where you play. The strategies display color-coded decision cells in addition to showing the text of the decision so you can choose which way you learn best. Also, each strategy panel is section-coded to facilitate learning the most important decisions first. Surrender is included among the decisions, and footnotes provide alternatives when decisions are not allowed. The 3.5 x 5 panel size makes possible larger text than on other strategy cards and three-letter (not confusing one-letter) decision abbreviations, yet the card still fits in your pocket. End panels, which contain slits, are designed to fold in both directions and to lay flat to make it easy for you to quickly refer to the strategy you wish to use. One panel contains a pithy, insightful discussion of the playing decisions to help new players learn how to play the game; another panel provides a table which shows the Player Edge for each of four rule combinations. By using this Blackjack 6-7-8 Counter Basic Strategy Card, card counters will be able to get an even greater edge over the house. If you count cards and vary your bet with the count, or plan on so doing, using the Counter (as in Card Counter) Basic Strategy card results in winning about 20% more money than using regular Basic Strategy (the Counter Basic Strategy card shows a table with the Player Edge). Counter Basic Strategy is simply a variation of regular Basic Strategy that utilizes a card counting method (such as the Hi-Lo or K-O) to determine when and by how much to vary your bet with the count. The playing strategies on the Counter Basic Strategy card are based on a bet range of 16 to 1. Blackjack 6-7-8 strategy cards are also available for Basic (Playing) Strategy for 1 Deck, 2 Decks, and 4-8 Decks. The titles of the four different cards are color-coded (red, purple, blue, and green) so you can easily and quickly distinguish one card from another.
