**F-102 Delta Dagger Units** Peter E. Davies, 2020-05-28 World War II saw the development of the heavy bomber as a decisive weapon which, in sufficient numbers, could overcome defensive fighters and guns and lay waste to strategic targets. The addition of nuclear weapons to the bomber's armament made it even more formidable, and by the late 1940s, US planners saw the growth of a Soviet nuclear-armed bomber fleet as a terrifying threat to North American security. Conventional subsonic fighters with guns and free-flight air-to-air rockets would be incapable of reaching these incoming bombers in time to prevent even one from delivering a devastating nuclear attack. As a result, supersonic speed, long-range guided missiles and precise radar-based control of an interception became prerequisites for a new breed of fighters, beginning with the F-102. A massive research and development effort produced the F-102A '1954 Fighter', the J57 afterburning turbojet, its Hughes MX-1554 fire control system and, in due course, the Semi-Active Ground Environment (SAGE) radar and communications network that covered North America to guide its airborne defences. In service, F-102As also provided air defence in Europe with USAFE, in the Far East and in Southeast Asia, where they protected US airbases in South Vietnam and Thailand from air attack by North Vietnamese fighters and bombers and escorted B-52s and fighter-bombers on their attack sorties. This illustrated study from leading expert Peter E. Davis details the design, development, and deployment of the futuristic F-102, including its complex research program and role in Vietnam.

**Using Poetry Across the Curriculum** Barbara Chatton, 2010-01-13 This comprehensive listing and discussion of poetic works supports the standards of all areas of the curriculum, helping librarians and teachers working with kindergarten through middle school students. This second edition of *Using Poetry Across the Curriculum: Learning to Love Language* offers a comprehensive list of poetry anthologies, poetic picture books, and poetic prose works in a wide variety of subject areas. While it maintains the original edition's focus on ideas and resource lists for integration of

poetry into all areas of the curriculum, it is thoroughly revised to cover current issues in education and the wealth of new poetry books available. The book is organized by subject areas commonly taught in elementary and middle schools, and, within these, by the national standards in each area. Numerous examples of poetry and poetic prose that can be used to help students understand and appreciate aspects of the standard are listed. A sampling of units that arise from groups of works, writing and performance ideas, and links across the curriculum is also included. While many teaching ideas and topics provide references to the standards they meet, this title is unique in starting with those standards and making links across them.

*Blast Off to Reading - Teachers' Manual for Online Presentation* Cheryl Orlassino, 2021-02-19 This is the teachers' manual for the Blast Off to Reading, Orton-Gillingham reading program, which uses a lesson based workbook along with fun online games and tools (go to [www.blastofftoreading.com](http://www.blastofftoreading.com) for the free web app for this program). This e-book contains slides to present the lesson using a Smart Board or screen sharing software for distance learning. It can also be used on a laptop or tablet for one-on-one tutoring or teaching a small group. The workbook along with this manual makes teaching easy, since there's little prep time and the lesson plans are complete. The slides from the teachers' manual will illustrate the lessons in an organized, explicit manner, encouraging student participation. Lesson slides will be followed by all of the worksheets that are in the students' Blast Off to Reading workbook, which should be done together as a class. The workbook, lessons and online tools promote phonemic awareness and contain the multi-sensory activities that are required for the Orton-Gillingham approach. Organized in a cumulative, structured manner, with repetition built in, your students won't miss any sounds or rules and will overcome their reading difficulties to become proficient readers.
