Lost Providence David Brussat,2017 Dave Brussat has made a significant contribution to the history of Providence. For those interested in that history, Lost Providence is a real find. Providence Journal Providence has one of the nation's most intact historic downtowns and is one of America's most beautiful cities. The history of architectural change in the city is one of lost buildings, urban renewal plans and challenges to preservation. The Narragansett Hotel, a lost city icon, hosted many famous guests and was demolished in 1960. The American classical renaissance expressed itself in the Providence National Bank, tragically demolished in 2005. Urban renewal plans such as the Downtown Providence plan and the College Hill plan threatened the city in the mid-twentieth century. Providence eventually embraced its heritage through plans like the River Relocation Project that revitalized the city's waterfront and the Downcity Plan that revitalized its downtown. Author David Brussat chronicles the trials and triumphs of Providence's urban development.

Rules of Play Katie Salen Tekinbas,Eric Zimmerman,2003-09-25 An impassioned look at games and game design that offers the most ambitious framework for understanding them to date. As pop culture, games are as important as film or television—but game design has yet to develop a theoretical framework or critical vocabulary. In *Rules of Play* Katie Salen and Eric Zimmerman present a much-needed primer for this emerging field. They offer a unified model for looking at all kinds of games, from board games and sports to computer and video games. As active participants in game culture, the authors have written *Rules of Play* as a catalyst for innovation, filled with new concepts, strategies, and methodologies for creating and understanding games. Building an aesthetics of interactive systems, Salen and Zimmerman define core concepts like play, design, and interactivity. They look at games through a series of eighteen game design schemas, or conceptual frameworks, including games as systems of emergence and information, as contexts for social play, as a storytelling medium, and as sites of cultural resistance. Written for game scholars, game developers, and interactive designers, *Rules of Play* is a textbook, reference book, and theoretical guide. It is the first comprehensive attempt to establish a solid theoretical framework for the emerging discipline of game design.

A Friend of the Earth T. C. Boyle,2011-08-01 It's 2025. Tyrone O'Shaughnessy Tierwater is eking out a bleak living in southern California, managing a pop-star's private menagerie, holding some of the last surviving animals in the world. Global warming is a reality. In his youth, Ty had been so serious about environmental issues that as an ecoterrorist committed to Earth Forever! he had endangered the lives of both his daughter, Sierra, and his wife, Andrea. Now, when the past seems far behind him and he is just trying to survive in a world cursed by storm and drought, Andrea returns to his life . . . Frightening, funny, surreal and gripping, in *A FRIEND OF THE EARTH* T.C. Boyle gives us a story that is both a modern morality tale, and a provocative vision of the future.

The American Meadow Garden John Greenlee,2009-09-01 If there's one lesson every homeowner must learn, it's this: The traditional lawn is a huge, time consuming, synthetic-chemical sucking mistake. The time has come to look for new ways to create friendly, livable spaces around our homes. In *The American Meadow Garden*, ornamental grass expert John Greenlee creates a new model for homeowners and gardeners. For Greenlee, a meadow isn't a random assortment of messy, anonymous grasses. Rather, it is a shimmering mini-ecosystem, in which regionally appropriate grasses combine with colorful perennials to form a rich tapestry that is friendly to all life — with minimal input of water, time, and other scarce resources. Kids and pets can play in complete safety, and birds and butterflies flock there. A prairie style planting is a place you want to be. With decades of experience as a nurseryman and designer, John Greenlee is the perfect guide. He details all the practicalities of site preparation, plant selection, and maintenance; particularly valuable are his explanations of how ornamental grasses perform in different climates and areas. Gorgeous photography by Saxon Holt visually illustrates the message with stunning examples of meadow gardens from across the country. We've reached a stage where we can no longer follow past practices unthinkingly, particularly when those practices are wasteful and harmful to the environment. It's time to get rid of the old-fashioned lawn and embrace a sane and healthy future: the American meadow garden.

Making Dystopia James Stevens Curl,2018-08-23 In *Making Dystopia*, distinguished architectural historian James Stevens Curl tells the story of the advent of architectural Modernism in the aftermath of the First World War, its protagonists, and its astonishing, almost global acceptance after 1945. He argues forcefully that the triumph of architectural Modernism in the second half of the twentieth century led to massive destruction, the creation of alien urban landscapes, and a huge waste of resources. Moreover, the coming of Modernism was not an inevitable, seamless evolution, as many have insisted, but a massive, unparalled disruption that demanded a clean slate and the elimination of all ornament, decoration, and choice. Tracing the effects of the Modernist revolution in architecture to the present, Stevens Curl argues that, with each passing year, so-called 'iconic' architecture by supposed 'star' architects has become more and more bizarre, unsettling, and expensive, ignoring established contexts and proving to be stratospherically remote from the aspirations and needs of humanity. In the elite world of contemporary architecture, form increasingly follows finance, and in a society in which the 'haves' have more and more, and the 'have-nots' are ever more marginalized, he warns that contemporary architecture continues to stack up huge potential problems for the future, as housing costs spiral out of control, resources are squandered on architectural bling, and society fractures. This courageous, passionate, deeply researched, and profoundly argued book should be read by everyone concerned with what is around us. Its combative critique of the entire Modernist architectural project

and its apologists will be highly controversial to many. But it contains salutary warnings that we ignore at our peril. And it asks awkward questions to which answers are long overdue.

Seducing Charlotte Diana Quincy,2013-04-15 From enemies to lovers... The wealthy and handsome Marquess of Camryn can have any woman he desires, but the charismatic bachelor shocks everyone by falling for the rather prudish Charlotte Livingston—who happens to abhor everything the rising politician and captain of industry represents. Opposites attract... When the no-nonsense social campaigner shows zero interest in him, Camryn is even more drawn to her and sets out to seduce the lady's mind—as well as her body. But as the attraction begins to burn between them, a violent rebellion rages across England, pitting the two against each other, and leaving their love caught in the crossfire. Running the Table L. Jon Wertheim,2007 From a popular senior writer for Sports Illustrated comes this high-stakes, boys-on-the-road story about the most unlikely of phenoms--a heavysset, bipolar, and endlessly charming pool hustler named Kid Delicious In most sports the pinnacle is Wheaties-box notoriety. But in the world of pool, notoriety is the last thing a hustler desires. Such is the dilemma that faces one Danny Basavich, an affable, generously proportioned Jewish kid from Jersey, who flounders through high school until he discovers the one thing he excels at--the felt--and hits the road. Running the Table spins the outrageous tale of Kid Delicious and his studly--if less talented--set-up man, Bristol Bob. Never was there a more entertaining or mismatched pair of sidekicks, as together they go underground into the flavorfully seamy world of pool to learn the art of the hustle and experience the highs and lows of life on the road. Their four-year odyssey takes them from Podunk pool halls to slick urban billiard rooms across America, as they manage one night to take down as much as \$30,000, only to lose so much the next night that they lack gas money to get home. With every stop, the action gets hotter, the calls get closer, and Delicious's prowess with a cue stick becomes known more and more widely. Ultimately, Delicious sheds his cover once and for all and becomes professional pool's biggest sensation since Minnesota Fats. In a book sure to appeal to fans of Bringing Down the House and Positively Fifth Street, Wertheim evokes a subculture full of nefarious but loveable characters and illuminates America's fascination with games and gambling. He also paints a lasting portrait of an insanely talented and magnetic hustler, who is literally larger than life.
